This Prospectus has been approved by the Commission de Surveillance du Secteur Financier (the "**CSSF**") of Luxembourg in its capacity as competent authority under Regulation (EU) 2017/1129 (the "**Prospectus Regulation**"). Such approval should not be considered as an endorsement of the quality of the Notes that are subject to this Prospectus or an endorsement of the Issuer that is subject to this Prospectus. Therefore the investors should make their own assessment as to the suitability of investing in the Notes. In the context of such approval, the CSSF neither assumes any responsibility nor gives any undertaking as to the economic and financial soundness of the transaction and the quality or solvency of the Issuer in line with Article 6(4) of the Luxembourg Prospectus Law. Application has been made to list the Notes on the official list of the Luxembourg Stock Exchange and to be admitted to trade the Notes on the regulated market of the Luxembourg Stock Exchange on 17 April 2024 (the "**Closing Date**"). After such date there is no obligation of the Issuer to issue supplements to this Prospectus in the event of significant new factors, material mistakes or material inaccuracies.

Any website referred to in this Prospectus does not form part of this Prospectus and has not been scrutinised or approved by the CSSF.

In case of a significant new factor, material mistake or material inaccuracy relating to the information included in this Prospectus which may affect the assessment of the Notes, the Issuer will prepare and publish a supplement to the Prospectus without undue delay in accordance with Article 23 of the Prospectus Regulation. The obligation of the Issuer to supplement this Prospectus will cease to apply once the Notes have been admitted to trading on the regulated market (segment for professional investors) of the Luxembourg Stock Exchange or at the latest upon expiry of the validity period of this Prospectus set out above.

Each Class of Notes will be initially represented by a temporary global note in bearer form (each, a "**Temporary Global Note**") without interest coupons attached. Each Temporary Global Note will be exchangeable, as described herein for a permanent global note in bearer form which is recorded in the records of Euroclear and Clearstream Luxembourg (as defined below) (each, a "**Permanent Global Note**", and together with the Temporary Global Notes, "**Global Notes**" and each, a "**Global Note**") without interest coupons attached. Each Temporary Global Note will be exchangeable not earlier than forty (40) calendar days after the Closing Date, upon certification of non-U.S. beneficial ownership, for interests in a Permanent Global Note. The Global Notes representing the Class A Notes will be deposited with a common safekeeper (the "**Common Safekeeper**") which will be appointed by the ICSDs and either be Euroclear Bank S.A./N.V. ("**Euroclear**") or Clearstream Banking, *société anonyme* ("**Clearstream Luxembourg**") and, together with Euroclear, "**Clearing Systems**") on or prior to the Closing Date. The Common Safekeeper will hold the Global Notes representing the Class A Notes in custody for Euroclear and Clearstream Luxembourg. The Global Notes representing the Class B Notes, the Class C Notes, the Class D Notes and the Class E Notes will be deposited with a common depositary for Euroclear and Clearstream Luxembourg on or prior to the Closing Date. The Common Depositary will hold the Global Notes representing the Class B Notes, the Class C Notes, the Class D Notes and the Class E Notes in custody for Euroclear and Clearstream Luxembourg. The Notes represented by Global Notes may be transferred in book-entry form only. The Notes will be issued in denominations of EUR 100,000. The Global Notes will not be exchangeable for definitive securities. See "**TERMS AND CONDITIONS OF THE NOTES – 2.3 Global Notes**"

Ratings will be assigned to the Class A Notes, the Class B Notes, the Class C Notes and the Class D Notes by S&P Global Ratings Europe Limited (*Niederlassung Deutschland*) ("**S&P**") and Fitch Ratings – a branch of Fitch Ratings Ireland ("**Fitch**"). In general, European regulated investors are restricted from using a rating for regulatory purposes if such rating is not issued by a credit rating agency established in the European Union "EU" and registered in accordance with the CRA3. Each of S&P and Fitch has been registered in accordance with the CRA3 and is established in the European Union. Reference is made to the list of registered or certified credit rating agencies published by ESMA, as last updated on 27 March 2023, which can be found on the website <http://www.esma.europa.eu/supervision/credit-rating-agencies/risk>. The assignment of ratings to the Class A Notes, the Class B Notes, the Class C Notes and the Class D Notes by or an outlook on these ratings is not a recommendation to invest in the Class A Notes, the Class B Notes, the Class C Notes and the Class D Notes by and may be revised, suspended or withdrawn at any time.

The Issuer has not requested a rating of the Class E Notes. Furthermore, the Issuer has not requested a rating of the Notes by any rating agency other than the Rating Agencies; there can be no assurance, however, as to whether any other rating agency other than the Rating Agencies will rate the Notes or, if it does, what rating would be assigned by such other rating agency. The rating assigned to the Notes by such other rating agency could be lower than the respective ratings assigned by the Rating Agencies.

CRA3 as it forms part of domestic law of the United Kingdom by virtue of the EUWA and as amended by the Credit Rating Agencies (Amendment, etc) (EU Exit) Regulations 2019 (the "**UK CRA Regulation**"). In accordance with the UK CRA Regulation, the credit ratings assigned to the Notes by S&P and Fitch will be endorsed by S&P Global Ratings UK Limited and Fitch Ratings Limited, as applicable, being rating agencies which are registered with the Financial Conduct Authority. UK regulated investors are restricted from using a rating for regulatory purposes if such rating is not issued or endorsed by a credit rating agency established in the UK and registered or certified under the UK CRA Regulation.

Amounts payable under the Notes will be calculated by reference to the Euro Interbank Offered Rate ("**EURIBOR**"), which is provided by European Money Markets Institute, with its office in Brussels, Belgium (the "**Administrator**"). As at the date of this Prospectus, the Administrator does appear on the register of administrators and benchmarks established and maintained by the European Securities and Markets Authority ("**ESMA**") pursuant to Article 36 of the Benchmarks Regulation (Regulation (EU) 2016/1011) (the "**Benchmarks Regulation**").

Securitisation Regulation

The Originator will, whilst any of the Notes remain outstanding, retain for the life of the Transaction a material net economic interest of not less than 5 per cent. with respect to the Transaction in accordance with Article 6(3)(c) of Regulation (EU) 2017/2402 (the "**Securitisation Regulation**") and undertakes that it will not reduce, hedge or otherwise mitigate its credit exposure to the material net economic interest for the purposes of Article 6(1) of the Securitisation Regulation and Article 6 of Commission Delegated Regulation (EU) 2023/2175 of 7 July 2023, provided that the level of retention may reduce over time in compliance with Article 10(2) of Commission Delegated Regulation (EU) 2023/2175 of 7 July 2023. As at the Closing Date, such interest will, in accordance with Article 6(3)(c) of the Securitisation Regulation, and, pursuant to Article 43(7) of the Securitisation Regulation, until regulatory technical standards are adopted by the Commission pursuant to Article 6(7) of the Securitisation Regulation, be comprised of an interest in randomly selected exposures equivalent to no less than 5 per cent. of the nominal value of the securitised exposures.

Pursuant to Article 27(1) of the Securitisation Regulation, the Originator intends to notify the European Securities Markets Authority ("**ESMA**") that the Transaction will meet the requirements of Articles 20 to 22 of the Securitisation Regulation (the "**STS Notification**"). The purpose of the STS Notification is to set out how in the opinion of the Originator each requirement of Articles 19 to 22 of the Securitisation Regulation has been complied with. Where the Transaction is classified STS, the STS Notification would then be available for download on the website of ESMA. The STS Notification will be made in accordance with the requirements of Commission Delegated Regulation (EU) 2020/1226. ESMA is obliged to maintain on its website a list of all securitisations which the originators and sponsors have notified as meeting the STS Requirements in accordance with Article 27(5) of the Securitisation Regulation. For this purpose, ESMA has set up a register under https://registers.esma.europa.eu/publication/searchRegister?core=esma_registers_stsre.

Each prospective investor is required to independently assess and determine the sufficiency of the information described in the preceding two paragraphs for the purposes of complying with Article 5 et seq. of the Securitisation Regulation. None of the Issuer, the Originator, the Joint Lead Managers, the Arranger, any other Transaction Party, their respective Affiliates nor any other person makes any representation, warranty or guarantee that the information described above is sufficient in all circumstances for such purposes. In addition, each prospective investor should ensure that it complies with Article 5 of the Securitisation Regulation. Investors who are uncertain as to the requirements which apply to them in respect of their relevant jurisdiction should seek guidance from their regulator and/or independent legal advice on the issue.

Prospective investors to which the UK Securitisation Regulation applies are themselves responsible for analysing their own regulatory position, and should consult their own advisers in this respect and should consider (and where appropriate, take independent advice on) the application of the UK Securitisation Regulation or other applicable regulations and the suitability of the Notes for investment.

The Originator accepts responsibility for the information set out in this section "**Securitisation Regulation**".

The Notes and interest thereon will be obligations solely of the Issuer and will not be guaranteed by, or be the responsibility of, any other entity. In particular, the Notes will not be obligations of, and will not be guaranteed by, or be the responsibility of, the Arranger.

The Notes will be governed by the laws of the Federal Republic of Germany ("**Germany**").

The Notes have not been and will not be registered under the U.S. Securities Act of 1933, as amended from time to time (the "**Securities Act**"). Subject to certain exceptions, the Notes may not be offered, sold or delivered within the United States or to U.S. persons (within the meaning of Regulation S under the Securities Act).

The Notes sold on the Closing Date may not be purchased by any person except for persons that are not "U.S. persons" as defined in the U.S. Risk Retention Rules ("**Risk Retention U.S. Persons**"). "**U.S. Risk Retention Rules**" means Regulation RR (17 C.F.R Part 246) implementing the risk retention requirements of Section 15G of the U.S. Securities Exchange Act of 1934, as amended. Prospective investors should note that whilst the definition of "U.S. person" in the U.S. Risk Retention Rules is substantially similar to the definition of "U.S. person" in Regulation S, the definitions are not identical and persons who are not "U.S. persons" under Regulation S may be "U.S. persons" under the U.S. Risk Retention Rules. Each purchaser of Notes, including beneficial interests therein will be deemed, and in certain circumstances will be required, to represent and agree that it (1) is not a Risk Retention U.S. Person (2) is acquiring such Note or a beneficial interest therein for its own account and not with a view to distribute such Note to a U.S. person; and (3) is not acquiring such Note or a beneficial interest therein as part of a scheme to evade the requirements of the U.S. Risk Retention Rules. Each prospective investor will be required to make these representations (a) on or about the time of the announcement of the securitisation transaction involving the issuance of the Notes and (b) if such representations have not been previously made, as a condition to placing any offer to purchase the Notes. The Issuer, Bank11 and the Joint Lead Managers will rely on these representations, without further investigation.

The Notes may not be offered, or sold within the United States or to, or for the account or benefit of, U.S. Persons except (i) pursuant to an exemption from, or in a transaction not subject to the registration requirements of, the Securities Act and (ii) in accordance with an exemption from the U.S. Risk Retention Rules.

The issuance of the Notes was not designed to comply with the U.S. Risk Retention Rules other than the exemption under Section __20 of the U.S. Risk Retention Rules, and no other steps have been taken by the Issuer, the Originator, the Joint Lead Managers or the Arranger, or any of their Affiliates or any other party to accomplish such compliance.

The Notes are not intended, to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area ("**EEA**"). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (as amended, "**MiFID II**"); (ii) a customer within the meaning of Directive 2016/97/EU (the "**Insurance Distribution Directive**"), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in Regulation (EU) 2017/1129 (the "**Prospectus Regulation**"). Consequently no key information document required by Regulation (EU) No 1286/2014 (the "**PRIIIPs Regulation**") for offering or selling the Notes or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation.

The Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the United Kingdom. For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (8) of Article 2 of Regulation (EU) No 2017/565 as it forms part of domestic law of the United Kingdom by virtue of the European Union (Withdrawal) Act 2018 as amended by the European Union (Withdrawal Agreement) Act 2020 ("**EUWA**"); or (ii) a customer within the meaning of the provisions of the FSMA and any rules or regulations made under the FSMA to implement Directive (EU) 2016/97, where that customer would not qualify as a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of domestic law of the United Kingdom by virtue of the EUWA; or (iii) not a qualified investor as defined in Article 2 of Regulation (EU) 2017/1129 as it forms part of domestic law of the United Kingdom by virtue of the EUWA. Consequently no key information document required by Regulation (EU) No 1286/2014 as it forms part of domestic law of the United Kingdom by virtue of the EUWA for offering or selling the Notes or otherwise making them available to retail investors in the United Kingdom has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the United Kingdom may be unlawful under Regulation (EU) No 1286/2014 as it forms part of domestic law of the United Kingdom by virtue of the EUWA.

MIFID II product governance / Professional investors and ECPs only target market

Solely for the purposes of each manufacturer's product approval process, the target market assessment in respect of the Notes has led to the conclusion that: (i) the target market for the Notes is eligible counterparties and professional clients only, each as defined in MiFID II; and (ii) all channels for distribution of the Notes to eligible counterparties and professional clients are appropriate. Any person subsequently offering, selling or recommending the Notes (a "**distributor**") should take into consideration the manufacturers' target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the manufacturers' target market assessment) and determining appropriate distribution channels.

UK MIFIR product governance / Professional investors and ECPs only target market

Solely for the purposes of each manufacturer's product approval process, the target market assessment pursuant to the FCA Handbook Conduct of Business Sourcebook ("**COBS**") in respect of the Notes has led to the conclusion that: (a) the target market for the Notes is only: (i) eligible counterparties, as defined in COBS; and (ii) professional clients, as defined in Regulation (EU) No 600/2014 as it forms part of domestic law of the United Kingdom by virtue of the EUWA ("**UK MiFIR**"); and (b) all channels for distribution of the Notes to eligible counterparties and professional clients are appropriate, noting the responsibility of each manufacturer under COBS only. Any person subsequently offering, selling or recommending the Notes (a "distributor") should take into consideration the manufacturer's target market assessment; however, a distributor subject to the FCA Handbook Product Intervention and Product Governance Sourcebook (the "**UK MiFIR Product Governance Rules**") is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the manufacturer's target market assessment) and determining appropriate distribution channels.

Given the complexity of the Terms and Conditions, an investment in the Notes is suitable only for experienced investors who understand and are in a position to evaluate the risks inherent therein.

The target market of these Notes in the context of MiFID II is professional clients and eligible counterparties within the meaning of MiFID II. The Notes are not suitable for retail clients within the meaning of MiFID II.

Typically, such Arranger, the Manager of the Subordinated Notes, the Joint Lead Managers and their Affiliates would hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in securities, including potentially the Notes. Any such short positions could adversely affect future trading prices of Notes. The Arranger, the Joint Lead Managers and their Affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or financial instruments and may hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.

RISK FACTORS

THE PURCHASE OF NOTES MAY INVOLVE SUBSTANTIAL RISKS AND BE SUITABLE ONLY FOR INVESTORS WHO HAVE THE KNOWLEDGE AND EXPERIENCE IN FINANCIAL AND BUSINESS MATTERS NECESSARY TO ENABLE THEM TO EVALUATE THE RISKS AND THE MERITS OF AN INVESTMENT IN THE NOTES.

PRIOR TO MAKING AN INVESTMENT DECISION, PROSPECTIVE INVESTORS SHOULD CAREFULLY CONSIDER IN LIGHT OF THEIR OWN FINANCIAL CIRCUMSTANCES AND INVESTMENT OBJECTIVES ALL THE INFORMATION SET FORTH IN THIS PROSPECTUS AND, IN PARTICULAR, THE CONSIDERATIONS SET FORTH BELOW. PROSPECTIVE INVESTORS SHOULD MAKE SUCH INQUIRIES AS THEY DEEM NECESSARY WITHOUT RELYING ON THE ISSUER OR THE ORIGINATOR.

As more than one risk factor can affect the Notes simultaneously, the effect of a single risk cannot be accurately predicted. Additionally, risk factors may have a cumulative effect so that the combined effect on the Notes cannot be accurately predicted.

The following is a description of factors which prospective investors should consider before deciding to purchase the Notes. These risk factors are material to an investment in the Notes.

The Issuer believes that the factors described below represent the principal risks inherent in investing in the Notes, but the inability of the Issuer to pay interest, principal or other amounts on or in connection with the Notes may, exclusively or concurrently, occur for other unknown reasons at the date of this Prospectus and the Issuer does not represent that the statements below regarding the risks of holding the Notes are exhaustive.

Prospective investors should consider all of the information provided in this Prospectus and make such other enquiries and investigations as they deem appropriate to evaluate the merits and risks of an investment in the Notes and consult with their own professional advisors and reach their own investment decision.

I. Risks related to the Issuer

No Recourse, No Petition

Each party entering into a Transaction Document has agreed that no recourse under any obligation, covenant, or agreement of the Issuer contained in the Transaction Documents shall be held against any Senior Person of the Issuer. Any personal liability of a Senior Person of the Issuer is explicitly excluded and the Parties (other than the Issuer) waive such personal liability regardless of whether it is based on law or agreement.

Each party entering into a Transaction Document has agreed that it shall not, until the expiry of four years and one day after the payment of all sums outstanding and owing under the Transaction Documents:

- (a) petition or take any other action for the liquidation or dissolution of the Issuer nor file a creditor's petition to open Insolvency Proceedings in relation to the assets of the Issuer nor instruct any other Person to file such petition; or
- (b) have any right to take any steps, except in accordance with the Transaction Documents, for the purpose of obtaining payment of any amounts payable to it under the Transaction Documents by the Issuer or to recover any debts whatsoever owed by the Issuer.

The Issuer has only a limited source for payments under the Notes

The Issuer's ability to satisfy its payment obligations under the Notes will be wholly dependent upon receipt by it of sufficient payments:

- (a) of principal and interest and other amounts payable under the Purchased Receivables including Related Collateral as Collections from the Servicer;
- (b) under the Transaction Documents to which it is a party; and/or
- (c) of proceeds resulting from enforcement of the security granted by the Issuer to the Trustee over the Security Assets and the Transaction Accounts (to the extent not covered by (a) or (b)).

Other than the sources of payments to the Issuer mentioned above, the Issuer will have no funds available to meet its obligations under the Notes and the Notes will not give rise to any payment obligation in excess of the foregoing.

Upon the Enforcement Conditions being fulfilled the following applies:

- (a) If the Issuer Proceeds, subject to the Post-Enforcement Priority of Payments, are ultimately insufficient to pay in full all amounts whatsoever due to any Noteholder and all other claims ranking *pari passu* to the claims of such Noteholders pursuant to the Post-Enforcement Priority of Payments, the claims of such Noteholders against the Issuer shall be limited to their respective share of such remaining Issuer Proceeds.
- (b) After payment to the Noteholders of their relevant share of such remaining Issuer Proceeds, the obligations of the Issuer to the Noteholders shall be extinguished in full and neither the Noteholders nor anyone acting on their behalf shall be entitled to take any further steps against the Issuer to recover any further sum.
- (c) Remaining Issuer Proceeds shall be deemed to be "**ultimately insufficient**" at such time when, in the reasonable opinion of the Trustee, no further assets are available and no further proceeds can be realised to satisfy any outstanding claims of the Noteholders, and neither assets nor proceeds will be so available thereafter.

The Notes represent obligations of the Issuer only, and do not, in particular, represent an interest in, or constitute a liability or other obligations, of any kind of the Transaction Parties or any of their respective Affiliates or any other third Person. The Notes are not, and will not be, insured or guaranteed by any of the Transaction Parties or any of their respective Affiliates or any third person or entity and none of the foregoing assumes, or will assume, any liability or obligation to the Noteholders if the Issuer fails to make a payment due under the Notes.

See "**TERMS AND CONDITIONS OF THE NOTES - Status; Limited Recourse; Security - Limited Recourse**".

Violation of Issuer's Articles of Association

The Issuer's articles of association and undertakings provided in the Trust Agreement limit the scope of the Issuer's business. In particular, the Issuer undertakes not to engage in any business activity other than entering into and performing its obligations under the Transaction Documents and any agreements relating thereto: see "**THE TRUST AGREEMENT**". However, under German law, any activity by the Issuer that violates its articles of association and/or undertaking in the Trust Agreement and any other Transaction Documents would still be a valid obligation of the Issuer with respect to a third party. Any such activity which is to the detriment of the Noteholders may adversely affect payments to the Noteholders under the Notes.

II. Risks related to the Notes

Deferred Interest Payment in case of Insufficient Funds

If the Issuer has insufficient funds to pay in full all amounts of interest payable on the Notes on any Payment Date in accordance with the Applicable Priority of Payments then no further payment of interest on the respective Class of Notes or Classes of Notes shall become due and payable on such Payment Date and the claim of a Noteholder to receive such interest payment will be deferred in accordance with Condition 4.7 (*Interest Shortfall*) of the Terms and Conditions, unless the Issuer does not have sufficient funds for the payment of interest on the Class A Notes on such Payment Date in which case any interest payable on the Notes is due and payable pursuant to the Post-Enforcement Priority of Payments.

However, a Noteholder will have a claim to receive such deferred interest on the next Payment Date(s) on which, and to the extent that, sufficient funds are available to pay such interest amount in accordance with the Applicable Priority of Payments. Interest will not accrue on such deferred interest amounts.

If such deferred interest amounts are finally discharged in accordance with Condition 3.3 (*Limited Recourse*) of the Terms and Conditions, the amount of interest on the Notes expected to be received will be reduced. This will correspondingly adversely affect the yield on the Notes.

(see "TERMS AND CONDITIONS OF THE NOTES" - Condition 3.3 (*Limited Recourse*)).

Status and Subordination of the Notes

The Notes constitute asset backed securities and the rights of any Noteholder are subject to the Applicable Priority of Payments.

SEE "TERMS AND CONDITIONS OF THE NOTES - Status; Limited Recourse; Security".

- (a) The Class A Notes rank with respect to the payment of principal and interest *pari passu* and rateably without any preference or priority among themselves for all purposes, but in priority to the Class B Notes, the Class C Notes, the Class D Notes and the Class E Notes;
- (b) the Class B Notes rank with respect to the payment of principal and interest *pari passu* and rateably without any preference or priority among themselves for all purposes, but in priority to the Class C Notes, the Class D Notes and the Class E Notes and subordinated to the Class A Notes;
- (c) the Class C Notes rank with respect to the payment of principal and interest *pari passu* and rateably without any preference or priority among themselves for all purposes; but in priority to the Class D Notes and the Class E Notes and subordinated to the Class A Notes and the Class B Notes;
- (d) the Class D Notes rank with respect to the payment of principal and interest *pari passu* and rateably without any preference or priority among themselves for all purposes; but in priority to the Class E Notes and subordinated to the Class A Notes, the Class B Notes and the Class C Notes
- (e) the Class E Notes rank with respect to the payment of principal and interest *pari passu* and rateably without any preference or priority among themselves for all purposes, but subordinated to the Class A Notes, the Class B Notes, the Class C Notes and the Class D Notes;

in each case subject to the Available Distribution Amount and the Issuer Proceeds (as applicable) and the Applicable Priority of Payments.

Further, and as set forth in the Pre-Enforcement Priority of Payments, the amortisation of the Class A Notes, the Class B Notes, the Class C Notes and the Class D Notes will, subject to the occurrence of a Sequential Payment Trigger Event, change from an amortisation on a *pro rata* basis to sequential amortisation. Accordingly, if a Sequential Payment Trigger Event has occurred, payments with respect to principal on the Class A Notes, the Class B Notes, the Class C Notes and the Class D Notes will, in each case, only be made after the respective Notes ranking in priority have been redeemed in full. Principal on the Class E Notes will always be amortised sequentially and the Class E Turbo Principal Redemption Amount will be applied to the Class E Notes in accordance with the Pre-Enforcement Priority of Payments.

The subordination might affect the timing of payments of principal and interest subject to the Available Distribution Amount and the Issuer Proceeds (as applicable) and the Applicable Priority of Payments. Further, the timing for future payments of principal and interest will be subject to the Available Distribution Amount and the Issuer Proceeds (as applicable) and the Applicable Priority of Payments.

Change of Law

The structure of the Transaction and, *inter alia*, the issue of the Notes and the Transaction Documents are based on German law and administrative practice in effect as at the date of this Prospectus. No assurance can be given as to the impact of any possible change to German law or administrative practice after the date of this Prospectus, nor can any assurance be given as to whether any such change could adversely affect the Issuer's ability to make payments in respect of the Notes.

Majority Noteholder Resolutions will bind all Noteholders

There is a risk that a Noteholder is bound by a vote of a majority of Noteholders and is being outvoted.

The SchVG applies to the Notes. The Terms and Conditions provide for resolutions of Noteholders of any Class of Notes to be passed by vote taken without meetings. As resolutions properly adopted are binding on all Noteholders of such Class of Notes, certain rights of such Noteholder against the Issuer under the Terms and Conditions may be amended or reduced or even cancelled although the Noteholder does not agree with such measures.

If the Noteholders of any Class of Notes appoint a noteholders' representative by a majority resolution of the Noteholders, it is possible that a Noteholder may lose, in whole or in part, its individual right to pursue and enforce its rights under the Terms and Conditions against the Issuer, such right passing to the noteholders' representative who is then exclusively responsible to claim and enforce the rights of all the Noteholders of such Class of Notes.

Early Redemption of the Notes due to early Prepayment of Receivables

If Receivables are prepaid before scheduled maturity the prepaid principal will form Principal Collections and be used to redeem the Notes in accordance with the applicable Priority of Payments. As a consequence, a Noteholder might receive parts or all of its investment earlier than expected and will not receive further interest on the portion of its investment (in form of the Notes) which has been repaid.

Pursuant to section 314 paragraph 1 sentence 1 BGB a Debtor may early terminate a Loan Agreement (which qualifies as an agreement for the performance of a continuing obligation (*Dauerschuldverhältnis*)) for serious cause (*aus wichtigem Grund*) without notice. Pursuant to section 314 paragraph 1 sentence 2 BGB a serious cause exists if, having regard to the circumstances of the specific case and balancing the interests of the parties involved, the terminating party cannot reasonably be expected to continue the contractual relationship until the agreed termination date or until the end of a notice period. This right may neither be entirely excluded nor may it be unreasonably exacerbated or linked to consent from a third party. Such a termination for serious cause will lead to an early repayment of the relevant Purchased Receivables without the obligation of the Debtor to pay a compensation for such early termination. However, in light of recent court rulings by the ECJ and the German Federal Supreme Court (*Bundesgerichtshof*) regarding revocation rights under consumer loans, Debtors are more likely to revoke their loan agreement rather than terminate it for serious cause. The risks and consequences in connection with revocation rights are laid out in further detail below under "**German Consumer Loan Legislation**".

Such early collection of a Receivable would serve to amortise the Notes (subject to the Applicable Priority of Payments). Such early redemption of principal of the Notes will reduce the Note Principal Amount of the relevant Notes and thereby reduce the basis on which interest payable on the Notes is calculated. Accordingly, the overall interest payments under the Notes may be lower than expected should the rate of such early collection be higher than anticipated.

Redemption of the Notes

The Notes will be redeemed at the latest on the Legal Maturity Date, subject to the Available Distribution Amount or the Issuer Proceeds, as applicable and in accordance with the Applicable Priority of Payments.

No Noteholder of any Class of Notes will have any rights under the Notes after the Legal Maturity Date, accordingly a Noteholder will fall short with claims against the Issuer which could have arisen after such time.

Claims arising from a bearer note (*Inhaberschuldverschreibung*) (prior to or on the Legal Maturity Date), i.e. claims to interest and principal, cease to exist with the expiration of five (5) years after the Legal Maturity Date, unless the bearer note is submitted to the Issuer for redemption prior to the expiration of five (5) years after the Legal Maturity Date. In the case of such a submission, the claims will be time-barred in two (2) years beginning with the end of the period for presentation (ending five (5) years after the Legal Maturity Date in accordance with the Terms and Conditions). The commencement of judicial proceedings in respect of the claim arising from a bearer note has the same effect as a presentation of such bearer note.

See "**TERMS AND CONDITIONS OF THE NOTES - Redemption - Maturity - Redemption on the Legal Maturity Date**".

Early Redemption for Default

Each Noteholder may declare the Notes held by it to be due and payable by delivery of a written notice to the Issuer with a copy to the Trustee if an Issuer Event of Default with respect to a Note held by such Noteholder has occurred and has not been remedied prior to receipt by the Issuer of such notice. If any Noteholder exercises such right, the Issuer will redeem all (but not only some) Notes as described herein. In case of such early redemption of all Notes, the overall interest payments under the Notes may be lower than expected.

See "**THE TERMS AND CONDITIONS OF THE NOTES - Early Redemption for Default**".

Early Redemption - Repurchase Option upon the occurrence of a Tax Event or Clean-Up Event

If a Tax Event has occurred, the Issuer may exercise its option to sell all (but not only some) of the Purchased Receivables at the Repurchase Price, whereby the Originator shall have the right to match the Repurchase Price for the Purchased Receivables in order to purchase them, *provided that* all payment obligations under the Class A Notes, the Class B Notes, the Class C Notes and the Class D Notes will be thereby fulfilled. Such repurchase of the Purchased Receivables will cause an early redemption of the Class A Notes, the Class B Notes, the Class C Notes and the Class D Notes, subject to and in accordance with and the Applicable Priority of Payments. The Repurchase Price does not need to be sufficient to repay the Class E Notes and Condition 3.3 (*Limited Recourse*) of the Terms and Conditions shall apply.

If a Clean-Up Call Event has occurred the Originator may repurchase all (but not only some) of the Purchased Receivables at the Repurchase Price, *provided that* all payment obligations under the Class A Notes, the Class B Notes, the Class C Notes and the Class D Notes will be thereby fulfilled. Such repurchase of the Purchased Receivables will cause an early redemption of the Class A Notes, the Class B Notes, the Class C Notes and the Class D Notes, subject to and in accordance with the Pre-Enforcement Priority of Payments. The Repurchase Price does not need to be sufficient to repay the Class E Notes and Condition 3.3 (*Limited Recourse*) of the Terms and Conditions shall apply.

In such events, the Issuer will not pay the Noteholders a premium or any other compensation for the redemption of the Notes prior to the Legal Maturity Date. The Repurchase Price is determined as described in more detail in the definition of "**Repurchase Price**" and will be made by an Independent Appraiser in respect to Delinquent Receivables or Defaulted Receivables. In case of such early redemption of all Notes, the overall interest payments under the Notes may be lower than expected.

See "**THE TERMS AND CONDITIONS OF THE NOTES - Early Redemption**".

Early Redemption upon the occurrence of a Regulatory Change Event

The Issuer may, subject to certain conditions, redeem the Class B Notes, the Class C Notes and the Class D Notes if a Regulatory Change Event has occurred. This may adversely affect the yield on the then outstanding Classes of Notes.

See "**THE TERMS AND CONDITIONS OF THE NOTES - Early Redemption**".

Interest Rate Risk / Risk of Swap Counterparty Insolvency

Interest payable on the Notes is calculated on a EURIBOR basis. Amounts of interest payable by the Debtors under the Loan Agreements in respect of the Purchased Receivables are calculated on the basis of fixed rates. In order to mitigate a mismatch of amounts of interest paid under the Loan Agreements and amounts of interest due under the Notes, the Issuer has entered into the Swap Agreement with the Swap Counterparty pursuant to which the Issuer will make payments to the Swap Counterparty by reference to a certain fixed rate and the Swap Counterparty will make payments to the Issuer by reference to a rate based on EURIBOR.

During periods in which floating rate interests payable by the Swap Counterparty under the Swap Agreement are greater than the fixed rate interests payable by the Issuer under the Swap Agreement, the Issuer will be more dependent on receiving net payments from the Swap Counterparty in order to make interest payments on the Notes. Consequently, a default by the Swap Counterparty on its obligations under the Swap Agreement may lead to the Issuer not having sufficient funds to meet its obligations to pay interest on the Notes.

The Swap Counterparty may terminate the Swap Agreement if the Issuer becomes insolvent, if the Issuer fails to make a payment under the Swap Agreement when due and such failure is not remedied within five (5) Local Business Days (as defined in the Swap Agreement) of notice of such failure being given, if performance of the Swap Agreement becomes illegal or if payments to the Swap Counterparty are reduced or payments from the Swap Counterparty are increased for a set period of time due to tax reasons. The Issuer may terminate the Swap Agreement if, among other things, the Swap Counterparty becomes insolvent, the Swap Counterparty fails to make a payment under the Swap when due and such failure is not remedied within five Local Business Days of notice of such failure being given, performance of the Swap becomes illegal or payments to the Issuer are reduced or payments from the Issuer are increased due to tax for a period of time.

The Issuer is exposed to the risk that the Swap Counterparty may become insolvent. In the event that the Swap Counterparty suffers a ratings downgrade, the Issuer may terminate the related Swap if the Swap

Counterparty fails, within a set period of time, to take certain actions intended to mitigate the effects of such downgrade. Such actions could include the Swap Counterparty collateralising its obligations as a referenced amount, transferring its obligations to a replacement Swap Counterparty or procuring a guarantee. However, in the event the Swap Counterparty is downgraded there can be no assurance that a guarantor or replacement Swap Counterparty will be found or that the amount of collateral will be sufficient to meet the Swap Counterparty's obligations.

If the Swap Agreement is terminated by either party, then depending on the market value of the swap a termination payment may be due to the Issuer or to the Swap Counterparty. Any such termination payment could, if market interest rates and other conditions have changed materially, be substantial. Under certain circumstances, termination payments required to be made by the Issuer to the Swap Counterparty will rank higher in priority than all payments on the Notes. In such circumstances, the Available Distribution Amount may be insufficient to make the required payments on the Notes and the Noteholders may experience delays and/or reductions in the interest and principal payments on the Notes.

In the event that the Swap Agreement is terminated by either party or the Swap Counterparty becomes insolvent, the Issuer may not be able to enter into a swap agreement with a replacement swap counterparty immediately or at a later date. If a replacement Swap Counterparty cannot be contracted, the amount available to pay principal of and interest on the Notes will be reduced if the floating rate on the Notes, exceeds the fixed rate the Issuer would have been required to pay the Swap Counterparty under the terminated Swap Agreement. Under these circumstances the Interest Collections and Principal Collections of the Purchased Receivables may be insufficient to make the required payments on the Notes and the Noteholders may experience delays and/or reductions in the interest and principal payments on the Notes.

The enforceability of a contractual provision which alters the priorities of payments to subordinate the claim of the Swap Counterparty (to the claims of other creditors of its counterparty) upon the occurrence of an insolvency of or other default by the Swap Counterparty (a so-called flip clause) has been challenged in the English and U.S. courts. However this is an aspect of cross border insolvency law which remains untested. Whilst the priority issue is considered largely resolved in England and Wales, concerns still remain that the English and U.S. courts will diverge in their approach which, in the case of an unfavourable decision in the U.S., may adversely affect the Issuer's ability to make payments on the Notes. If a creditor of the Issuer (such as the Swap Counterparty) or a related entity becomes subject to insolvency proceedings in any jurisdiction outside England and Wales (including, but not limited to, the U.S.), and it is owed a payment by the Issuer, a question arises as to whether the insolvent creditor or any insolvency official appointed in respect of that creditor could successfully challenge the validity and/or enforceability of subordination provisions included in the Transaction Documents (such as a provision of the Applicable Priority of Payments which refers to the ranking of the Swap Counterparty's rights in respect of certain amounts under the Swap Agreement). In particular there is a risk that such subordination provisions would not be upheld under U.S. bankruptcy law. Such laws may be relevant in certain circumstances with respect to a range of entities which may act as Swap Counterparty, including U.S. established entities and certain non-U.S. established entities with assets or operations in the U.S. (although the scope of any such proceedings may be limited if the relevant non-U.S. entity is a bank with a licensed branch in a U.S. state). In general, if a subordination provision included in the Transaction Documents was successfully challenged under the insolvency laws of any relevant jurisdiction outside England and Wales and any relevant foreign judgment or order was recognised by the English courts, such actions may adversely affect the rights of the Noteholders, the rating and/or the market value of the Notes and/or the ability of the Issuer to satisfy its obligations under the Notes.

For further details on the Swap Counterparty and the Swap Agreement, please see "**OVERVIEW OF FURTHER TRANSACTION DOCUMENTS – The Swap Agreement**".

Legal uncertainty regarding the Trustee Claim

The Issuer will grant the Trustee Claim (*Treuhänderanspruch*) to the Trustee in accordance with the Trust Agreement. The Trustee Claim entitles the Trustee to demand from the Issuer to pay, whenever an Issuer Obligation that is payable by the Issuer to a Secured Party has become due (*fällig*), an equal amount to the Trustee. To secure such Trustee Claim the Issuer will, *inter alia*, grant a pledge (*Pfandrecht*) to the Trustee for the benefit of the Noteholders and the other Secured Parties over Security Assets in the Trust Agreement.

However, where an agreement provides that a security agent (e.g. the Trustee) holding assets on trust for other entities has an own separate and independent right to demand payment from the relevant grantor of security to it which mirrors the obligations of the relevant debtors to the secured creditors (e.g. the Trustee Claim), there is an argument that accessory security (such as the pledge granted by the Issuer to the Trustee

in order to, amongst others, secure the Trustee Claim) created to secure such a parallel obligation is not enforceable for the benefit of such beneficiaries who are not a party to the relevant security agreement. This is because the parallel obligation could be seen as an instrument to avoid the accessory nature of, e.g. a pledge but it is frequently seen in the market that accessory security such as a pledge is given to secure a parallel obligation such as the Trustee Claim. However, as there is no established case law confirming the validity of such pledge, the validity of such pledge is subject to some degree of legal uncertainty.

Reform of EURIBOR Determinations

EURIBOR qualifies as a benchmark (a "**Benchmark**") within the meaning of Regulation (EU) 2016/1011 of the European Parliament and of the Council on indices used as benchmarks in financial instruments and financial contracts or to measure the performance of investment funds and amending Directives 2008/48/EC and 2014/17/EC and Regulation (EU) No 596/2014 (the "**Benchmarks Regulation**"), which is applicable since 1 January 2018. Currently, EURIBOR has been identified as a "critical benchmark" within the meaning of the Benchmarks Regulation. The Benchmarks Regulation applies to "contributors", "administrators" and "users" of benchmarks (such as EURIBOR) in the EU, and among other things, (i) requires benchmark administrators to be authorised and to comply with extensive requirements in relation to the administration of benchmarks and (ii) ban the use of benchmarks of unauthorised administrators. EURIBOR is administered by European Money Markets Institute which is registered in the register of administrators and benchmarks established and maintained by the European Securities and Markets Authority ("**ESMA**") as of the date of this Prospectus. Should the European Money Markets Institute become de-registered from ESMA's register of administrators and benchmarks, there is a risk that the use of EURIBOR might be banned in accordance with the Benchmarks Regulation.

Furthermore, it is not possible to ascertain as at the date of this Prospectus (i) what the impact of the Benchmarks Regulation will be on the determination of EURIBOR in the future, which could adversely affect the value of the Notes, (ii) how changes in accordance with the Benchmarks Regulation may impact the determination of EURIBOR for the purposes of the Notes and the Swap Agreement, (iii) whether any changes in accordance with the Benchmarks Regulation will result in a sudden or prolonged increase or decrease in EURIBOR rates or (iv) whether changes in accordance with the Benchmarks Regulation will have an adverse impact on the liquidity or the market value of the Notes and the payment of interest thereunder.

The Benchmarks Regulation as it forms part of domestic law of the United Kingdom by virtue of the EUWA (the "**UK Benchmarks Regulation**") contains similar requirements with respect to the UK, in particular the requirement for benchmark administrators to be authorised or registered (or, if non-UK-based, to be subject to an equivalent regime or otherwise recognised or endorsed) and to comply with extensive requirements in relation to the administration of benchmarks and prevent certain uses by UK-supervised entities of benchmarks of administrators that are not authorised or registered (or, if non-UK based, deemed equivalent or recognised or endorsed). Pursuant to section 20 of the Financial Services Act 2021, the transitional period for third country benchmarks has been extended from 31 December 2022 to 31 December 2025.

Any consequential changes to EURIBOR as a result of the European Union, or other international, national, or other proposals for reform or other initiatives or investigations, or any further uncertainty in relation to the timing and manner of implementation of such changes could have a material adverse effect on the value of and return on the Notes. Such factors may have the effect of discouraging market participants from continuing to administer or participate in certain Benchmarks, trigger changes in the rules of methodologies used in certain Benchmarks, adversely affect the performance of a Benchmark or lead to the disappearance of certain Benchmarks.

The discontinuation of EURIBOR will constitute a Base Rate Modification Event. If such Base Rate Modification Event has occurred, the Alternative Base Rate Determination Agent (acting on behalf of the Issuer) will determine in accordance with Condition 16.3 (*Modification of the definition of Alternative Base Rate*) of the Terms and Conditions an Alternative Base Rate.

Prior to the occurrence of a Base Rate Modification Event, fall-back definitions for determining EURIBOR, i.e. the floating rate of the Notes, are in place under the Terms and Conditions of the Notes. As per Condition 4.3 of the Terms and Conditions, if the Reuters screen page EURIBOR01 is not available or if no such quotation appears thereon, in each case as at such time, the Interest Determination Agent shall request the principal Euro-zone office of the Reference Banks selected by the Servicer in consultation with the Interest Determination Agent to provide the Interest Determination Agent with its offered quotation (expressed as a percentage rate per annum) for one-month deposits (with respect to the first Interest Period, the linear interpolation between one month and three months) in euro at approximately 11:00 a.m. (Brussels time) on

the relevant Interest Determination Date to prime banks in the Euro-zone inter-bank market for the relevant Interest Period and in an amount that is representative for a single transaction in that market at that time. If two or more of the selected Reference Banks provide the Interest Determination Agent with such offered quotations, EURIBOR for such Interest Period shall be the arithmetic mean of such offered quotations (rounded if necessary to the nearest one thousandth of a percentage point, with 0.000005 being rounded upwards). If on the relevant Interest Determination Date fewer than two of the selected Reference Banks provide the Interest Determination Agent with such offered quotations, EURIBOR for such Interest Period shall be the rate per annum which the Interest Determination Agent determines as being the arithmetic mean (rounded if necessary to the nearest one thousandth of a percentage point, with 0.000005 being rounded upwards) of the rates communicated to the Interest Determination Agent by major banks in the Euro-zone, selected by the Issuer (acting on the advice of the Servicer with the Interest Determination Agent consultation), at approximately 11:00 a.m. (Brussels time) on such Interest Determination Date for loans in euro to leading European banks for such Interest Period and in an amount that is representative for a single transaction in that market at that time.

There can be no definitive assurance that the amendment of the Base Rate would effectively mitigate any interest rate risk on the Notes. This, in turn, could cause a risk of mismatch of interest and reduced payments on the Notes which could have significant negative effects on the yield and the market value of the Note. Furthermore, investors should be aware that the EU Benchmarks Regulation and the UK Benchmarks Regulation can deviate after any transitional period.

Ratings of the Rated Notes

The Issuer has not requested a rating of the Rated Notes by any rating agency other than the Rating Agencies. Rating organisations other than the Rating Agencies may seek to rate any Class of Notes and, if such "shadow ratings" or "unsolicited ratings" are lower than the comparable ratings assigned to such Rated Notes by the Rating Agencies, such shadow or unsolicited ratings could have an adverse effect on the value of any Rated Notes.

A security rating is not a recommendation to buy, sell or hold securities and may be subject to revision or withdrawal at any time by the rating organisation. There is no assurance that the ratings will continue for any period of time or that they will not be lowered, reviewed, suspended or withdrawn by the Rating Agencies. In the event that the ratings initially assigned to any Class of Notes by the Rating Agencies are subsequently withdrawn or lowered for any reason, no person or entity is obliged to provide any additional support or credit enhancement to the Notes.

Eurosystem Eligibility

The Class A Notes are intended to be held in a manner which will allow Eurosystem eligibility. This means that the Class A Notes are intended upon issue to be deposited with one of Euroclear or Clearstream, Luxembourg as Common Safekeeper and does not necessarily mean that the Class A Notes will be recognised as eligible collateral for Eurosystem monetary policy and intra-day credit operations by the Eurosystem (the "**Eurosystem eligible collateral**") either upon issue or at any or all times during their life. Such recognition will depend upon satisfaction of the Eurosystem eligibility criteria set out in the Guideline (EU) 2015/510 of the European Central Bank (the "**ECB**") of 19 December 2014 on the implementation of the Eurosystem monetary policy framework (ECB/2014/60) (recast), which applies since 1 May 2015, as amended by Guideline (EU) 2019/1032 of the ECB of 10 May 2019 (ECB/2019/11) and Guideline (EU) 2020/1690 of 25 September 2020 (ECB/2020/45).

If the Class A Notes do not satisfy the criteria specified by the ECB, then the Class A Notes will not qualify as Eurosystem eligible collateral. As a consequence Noteholders will not be permitted to use the Class A Notes as collateral for monetary policy transactions of the Eurosystem and may sell the Notes into the secondary market at a reduced price only.

For the avoidance of doubt, the Class B Notes, the Class C Notes, the Class D Notes and the Class E Notes will not satisfy the Eurosystem eligibility criteria.

Limited Liquidity; Absence of Secondary Market

There is currently only a limited secondary market for the Notes and there is no guarantee that a liquid secondary market will be established in the near future nor that such limited secondary market for the Notes will continue.

Consequently, any purchaser of the Notes must be prepared to hold such Notes for an indefinite period of time or until final redemption or maturity of such Notes. The market values of the Notes are likely to fluctuate. Any such fluctuation may be significant and could result in significant losses to investors in the Notes.

Enforcement of Security Interest in Security Assets in illiquid markets

Upon the Enforcement Conditions being fulfilled, the payment of interest and the repayment of principal on the Notes may depend on whether and to what extent the Trustee will be able to enforce and realise the Security Interests in the Security Assets. There is a risk that at the time of such enforcement there is no active and liquid secondary market for loan receivables such as the Purchased Receivables. Accordingly, there is a risk that the Trustee will not be able to sell the Purchased Receivables on appropriate economic terms. This may adversely affect the payment of interest and the repayment of principal of the Notes.

The amounts standing to the credit of the Commingling Reserve Account and the Liquidity Reserve Account serve solely as collateral for specific risks. This limitation does also bind the Trustee having the consequence that these amounts can only be applied by the Trustee as part of the Issuer Proceeds to the extent such specific risks have materialised.

The Notes are only a suitable investment for experienced investors.

The investment in the Notes require knowledge and experience in financial and business matters necessary to prospective investors to enable them to evaluate the risks and the merits of an investment in the Notes.

In particular, if a potential investor does not:

- (a) have sufficient knowledge and experience to make a meaningful evaluation of the Notes, the merits and risks of investing in the Notes and the information contained in this Prospectus;
- (b) have access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation, an investment in the relevant Class of Notes and the impact the Notes will have on its overall investment portfolio;
- (c) have sufficient financial resources and liquidity to bear all of the risks of an investment in the Notes where the currency for principal or interest payments is different from the potential investor's currency;
- (d) understand thoroughly the terms of the Notes and be familiar with the behaviour of any relevant indices and financial markets; and
- (e) be able to evaluate (either alone or with the help of a financial adviser) possible scenarios for economic factors, interest rate and other factors that may affect its investment and its ability to bear the applicable risks.

There is a risk that she/he does not fully understand the risks of an investment in the Notes.

III. Risks related to the Purchased Receivables

Non-Existence of Purchased Receivables

If any of the Purchased Receivables have not come into existence at the time of their assignment to the Issuer under the Receivables Purchase Agreement or belong to another Person than the Originator, the Issuer would not acquire title to such Purchased Receivable. The Issuer would not receive adequate value in return of its purchase price payment. This result is independent of whether or not the Issuer, at the time of assignment of the Purchased Receivables, is aware of the non-existence and therefore acts in good faith (*gutgläubig*) with respect to the existence of such Purchased Receivable. This risk, however, will be addressed by contractual representations and warranties concerning the existence of each of the Purchased Receivables and the contractual obligation of the Originator to repurchase from the Issuer any Receivables affected by such breach. Correspondingly, investors rely on the creditworthiness of the Originator in this respect and the ability of the Issuer to make payments on the Notes may be adversely affected if no corresponding payments are made by the Originator as such obligation of the Originator is unsecured.

Insolvency Law

Sections 113 et seqq. of the German Insolvency Code (Insolvenzordnung)

Under Section 113 of the German Insolvency Code (*Insolvenzordnung*), the insolvency administrator of the principal is entitled to terminate service agreements (*Dienstleistungsverhältnisse*). Agency agreements (*Geschäftsbesorgungsverträge*), mandates (*Aufträge*) and powers of attorney (*Vollmachten*) would, according to Section 115 and 116 of the German Insolvency Code (*Insolvenzordnung*), extinguish with the opening of insolvency proceedings against the principal by operation of law. A number of the Transaction Documents, to the extent that they qualify as service agreements, agency agreements or mandates as they contain mandates or agency provisions, would be affected by the application of these provisions in an insolvency of the principal thereunder.

Section 166 of the German Insolvency Code (Insolvenzordnung)

Under German insolvency law, in insolvency proceedings of a debtor, a creditor who is secured by the assignment of receivables by way of security will have a preferential right to such receivables (*Absonderungsrecht*). Enforcement of such preferential right is subject to the provisions set forth in the German Insolvency Code (*Insolvenzordnung*). In particular, the secured creditor may not enforce its security interest itself. Instead, the insolvency administrator appointed in respect of the estate of the debtor will be entitled to enforcement pursuant to Section 166 (2) of the German Insolvency Code. The insolvency administrator is obliged to transfer the proceeds from such enforcement to the creditor, however, the secured creditor has no control as to the timing of such procedure. In addition, the insolvency administrator may deduct from the enforcement proceeds for the benefit of the insolvency estate fees which may amount to 4% of the enforcement proceeds for assessing such preferential rights plus up to 5% of the enforcement proceeds as compensation for the costs of enforcement. In case the enforcement costs are considerably higher than 5% of the enforcement proceeds, the compensation for the enforcement costs may be higher.

Accordingly, the Issuer may have to share in the costs of any insolvency proceedings of the Originator in Germany, reducing the amount of money available upon enforcement of the Security Assets to repay the Notes, if the sale and assignment of the Purchased Receivables by the Originator to the Issuer were to be regarded as a secured lending rather than a receivables sale.

The Issuer has been advised, however, that the transfer of the Purchased Receivables would be construed such that the risk of the insolvency of the Debtors lies with the Issuer and that, therefore, the Issuer would have the right to segregation (*Aussonderungsrecht*) of the Purchased Receivables from the estate of the Originator in the event of its insolvency and that, consequently, the cost sharing provisions described above would not apply with respect thereto.

Furthermore, even in the event that the sale and assignment of the Purchased Receivables were to be qualified as a secured loan, it is likely that the security granted to the Issuer would not be subject to an enforcement right of the insolvency administrator to the effect that the cost sharing provisions described above would not apply. This is based on the expectation that an assignment for security purposes in respect of the Purchased Receivables would qualify as "**financial collateral**" within the meaning of Article 1 (1) of Directive 2002/47/EC of the European Parliament and the Council of 6 June 2002 (as amended by Directive 2009/44/EC of the European Parliament and the Council of 6 May 2009) and Section 1 (17) of the German Banking Act and hence would benefit from the privileged treatment of financial collateral under the German Insolvency Code since pursuant to Section 166 (3) no. 3 of the German Insolvency Code, "**financial collateral**" is not subject to the enforcement right of the insolvency administrator. The Purchased Receivables constitute credit claims within the meaning of Article 2 (1) no. (o) of the aforementioned directive because they originate from loans granted by the Originator which is a credit institution within the meaning of Article 4 (1) no. (a)(i) of Directive 2006/48/EC of the European Parliament and the Council of 14 June 2006 (as referred to in Directive 2002/47/EC, however, repealed by Directive 2013/36/EU and now defined in Article 4 (1) of Regulation 2013/575/EU). Consequently, their assignment for security purposes by the Originator to a legal entity, such as the Issuer, should satisfy the requirements of the provision of "**financial collateral**" within the meaning of the directive and statute referred to in the second sentence of this paragraph.

However, such right of segregation will not apply with respect to any Related Collateral transferred to the Issuer if insolvency proceedings are instituted in respect of the relevant Debtor in Germany. In that case, the cost sharing provisions will apply which might result in the Issuer not receiving sufficient proceeds to redeem part or all of the Notes.

German Consumer Loan Legislation

The provisions of the German Civil Code (*Bürgerliches Gesetzbuch*) applicable to loans to consumers apply to certain of the Purchased Receivables. Consumers are defined as individuals acting for purposes relating neither to their commercial nor independent professional activities. Similarly the German consumer loan legislation also applies to individuals as entrepreneurs who enter into the loan contract to take up a trade or self-employed occupation, unless the net loan amount or the cash price exceeds EUR 75,000. Respective Loan Agreements will qualify as consumer loan contracts and will therefore be subject to the consumer loan provisions of the German Civil Code (*Bürgerliches Gesetzbuch*) (in particular Sections 491 et seqq.). As the Purchased Receivables were originated on or after 11 June 2010, the amended provisions in the German Civil Code (*Bürgerliches Gesetzbuch*) on consumer loans and linked contracts (*verbundene Verträge*) that have been enacted in order to implement the EU Consumer Credit Directive 2008/48/EC into German law apply. Such provisions have been further amended by the law implementing Directive 2011/83/EU on consumer rights which entered into force on 13 June 2014. The Loan Agreements are not all subject to the same, but to varying provisions of the German Civil Code (*Bürgerliches Gesetzbuch*) regarding consumer loans and linked contracts and, in particular, as regards the required instructions on a Debtor's right of withdrawal (*Widerrufsrecht*).

Under the above-mentioned provisions, if the borrower is a consumer (or an individual as entrepreneur who enters into the Loan Agreements to take up a trade or self-employed occupation, unless the net loan amount or the cash price exceeds EUR 75,000), the borrower has the right to withdraw his or her consent to a consumer Loan Agreement for a period of fourteen (14) days commencing after the conclusion of the consumer Loan Agreement and the receipt of a written notice providing certain information including information regarding such right of withdrawal (*Widerrufsrecht*) (Sections 492 (2), 495, 355, 356b of the German Civil Code (*Bürgerliches Gesetzbuch*) as applicable). In the event that a consumer is not properly notified of his or her right of withdrawal or, in some cases, has not been provided with certain information about the lender and the contractual relationship created under the consumer loan, the consumer may withdraw his or her consent at any time during the term of the consumer Loan Agreement.

German courts have adopted strict standards with regard to the information and the notice to be provided to the consumer. Due to the strict standards applied by the courts, it cannot be excluded that a German court could consider the language and presentation used in certain Loan Agreements as falling short of such standards. Should a Debtor withdraw the consent to the relevant Loan Agreement, the Debtor would be obliged to immediately repay the Purchased Receivable (i.e. prior to the contractual repayment date). Hence, the Issuer would receive interest under such Purchased Receivable for a shorter period of time than initially anticipated. In this instance, the Issuer's claims with regard to such repayment of the Purchased Receivable would not be secured by the Related Collateral granted therefore if the related security purpose agreement does not extend to such claims. In addition, depending on the specific circumstances, a Debtor may be able to successfully reduce the amount to be repaid if it can be proven that the interest he or she would have paid to another lender had the relevant Loan Agreement not been made (i.e., that the market interest rate was lower at that time), would have been lower than the interest paid under the relevant Loan Agreement until the Debtor's withdrawal of its consent to the relevant Loan Agreement.

In addition, the European Court of Justice ("**ECJ**") recently held that consumer loan agreements have to set out, in a clear and concise manner, the information to be specified in accordance with European consumer protection laws, including information on how the period of withdrawal is to be calculated, and that European consumer protection laws preclude a loan agreement from making reference, as regards the required information, to a provision of national law which itself refers to other legislative provisions of national law (ECJ ruling C-66/19 dated 26 March 2020). The ECJ argued that such reference to legislative provisions does not sufficiently enable the borrower to determine the starting point of the period of withdrawal. The wording that appears to have been the subject of ECJ's decision is contained in the form of withdrawal notice included in the Introductory Act to the German Civil Code ("**EGBGB**"). However, the German Federal Court of Justice (*Bundesgerichtshof*) has held, in light of the aforementioned ECJ decision, that a withdrawal instruction which follows the form of withdrawal notice published in the EGBGB will continue to be deemed a legal and valid withdrawal instruction which validly initiates the commencement of the 14 day withdrawal period (judgment dated 31 March 2020 - XI ZR 198/19). The German Federal Court of Justice's decision is based on Article 247 section 6(2) sentence 3 EGBGB which clarifies that if the consumer loan contract contains a revocation instruction conforming to the form of withdrawal notice included in the EGBGB in clear and transparent way (*klar und verständlich*), the requirements of Article 247 section 6(2) sentences 1 and 2 EGBGB are deemed to have been satisfied (so-called "**Fiction of Legality**" (*Gesetzlichkeitsfiktion*)) and pursuant to the German Federal Court of Justice's (*Bundesgerichtshof*) decision the Fiction of Legality is the manifestation of the

legislator's intent and, therefore, prevailing national law. In contrary to its above decision the German Federal Court of Justice (*Bundesgerichtshof*) has held in two further decisions that a lender is not entitled to rely on the Fiction of Legality under if the revocation instruction derogates from the form of withdrawal notice included in the EGBGB (judgments dated 27 October 2020 - XI ZR 525/19 and XI ZR 498/19). Such derogation may occur in various instances, for example the German Federal Court of Justice (*Bundesgerichtshof*) decided that when the form of withdrawal notice does refer to a residual debt insurance agreement (*Restschuldversicherung*) as a linked contract (*verbundener Vertrag*) but the borrower and lender did not enter into such residual debt insurance agreement (*Restschuldversicherung*) then due to this fact the lender would not be able to rely on the Fiction of Legality (judgment dated 27 October 2020 - XI ZR 525/19). The same applies when headings are omitted which are included in the form of withdrawal notice published in the EGBGB (German Federal Court of Justice (*Bundesgerichtshof*) judgment dated 11 November 2020 - XI ZR 426/19). However, notwithstanding any derogation from the statutory form, a borrower may not withdraw from a loan contract following expiry of the 14 days withdrawal period, if such withdrawal was vexatious, which was the case if the borrower had been offered a residual debt insurance agreement (*Restschuldversicherung*) but had refused to accept (German Federal Court of Justice (*Bundesgerichtshof*) judgment dated 27 October 2020 - XI ZR 498/19). On 15 June 2021 the form of withdrawal notice included in the EGBGB has been amended by a law aiming to conform the statutory form of withdrawal notice to the requirements of EU consumer law as specified in the above ECJ's ruling. However, in a further recent judgement the ECJ held that the mandatory information (*Pflichtangaben*) in consumer loan agreements, *inter alia*, (i) must specify the rate of default interest (*Verzugzinssatz*) applicable at the time of the conclusion of the consumer loan agreement as a specific percentage and the mechanism of adjustment of the default interest (*Verzugzinssatz*) shall be described in a comprehensible manner, (ii) must describe the method for calculating the breakage costs (*Vorfälligkeitsentschädigung*) in a specific and easily comprehensible manner, so that an average consumer can determine the amount of the breakage costs on such basis and (iii) must specify the essential information on any out-of-court complaint or redress procedures (*außergerichtlichen Beschwerde- oder Rechtsbehelfsverfahren*) available to the consumer and, where applicable, the costs associated therewith, whether the complaint or redress is to be submitted by post or electronically, the physical or electronic address to which the complaint or redress is to be sent and the other formal requirements, which the complaint or redress is subject to (ECJ ruling in the related matters C-33/20, C-155/20 and C-187/20 dated 9 September 2021). Lacking such information the 14 day withdrawal period will not commence and the consumer may withdraw from the loan agreement at any time.

If a Debtor is a consumer (or an individual as entrepreneur who enters into the Loan Agreement to take up a trade or self-employed occupation, unless the net loan amount or the cash price exceeds EUR 75,000) and the relevant goods or related services are financed in whole or in part by the Loan Agreement, such Loan Agreement and the related purchase agreement or other agreement (as applicable) may constitute linked contracts (*verbundene Verträge*) within the meaning of Section 358 of the German Civil Code (*Bürgerliches Gesetzbuch*). As a result, if such Debtor has any defences against the supplier of goods or related services, such defences may also be raised as a defence against the Issuer's claim for payment under the relevant Loan Agreement and, accordingly, the Debtor may deny the repayment of such part of the Receivable as relates to the goods or related services. Further, the withdrawal of the Debtor's consent to one of the contracts linked (*verbunden*) to the Loan Agreement may also extend to such Loan Agreement and such withdrawal may be raised as a defence against such Loan Agreement. In addition, according to Section 360 of the German Civil Code (*Bürgerliches Gesetzbuch*) the withdrawal by the consumer of its consent to a contract extends to another contract that is not linked (*nicht verbunden*) but which qualifies as a related contract (*zusammenhängender Vertrag*). In Section 360 (2) of the German Civil Code (*Bürgerliches Gesetzbuch*), the term "**related contract**" is defined as a contract which is related to the contract subject to withdrawal and under which goods or services are provided by the same contractor or by a third party on the basis of an agreement between the relevant contractor and such third party. The provision further states that a consumer loan agreement also qualifies as a related contract if (i) the loan exclusively serves to finance the goods or services under the contract subject to withdrawal and (ii) such goods or services are explicitly identified in the consumer loan agreement. Therefore, in the event the requirements of Section 360 of the German Civil Code (*Bürgerliches Gesetzbuch*) are met, the withdrawal extends also to the Loan Agreement and the Debtor may raise the withdrawal of its consent to such other contract as a defence against its obligations under the Loan Agreement. The notice providing information about the right of withdrawal must contain information about the aforementioned legal effects of linked and related contracts. In the event that a consumer is not properly notified of its right of withdrawal and such legal effects of linked and related contracts, the consumer may withdraw its consent to any of these contracts at any time during the term of these contracts (and may also raise such withdrawal as a defence against the relevant Loan Agreement).

Moreover, Section 360 para. 2 sentence 2 of the German Civil Code states that a consumer may also withdraw from Loan Agreements where the Loan Agreement is not linked (*verbunden*) but related (*zusammenhängend*) to another contract. A Loan Agreement will in particular qualify as a related contract if the purpose of the loan is to finance the other contract and the relevant goods or services (as the case may be) under such other contract which is subject to a revocation are specified in the Loan Agreement. Thus, the withdrawal extends then also to the Loan Agreement and the Debtor may raise the withdrawal of its consent to such other contract as a defence against its obligations under the Loan Agreement. However, if the relevant Loan Agreement is revoked or voided due to a revocation of a linked or related payment protection insurance agreement, the Originator shall make a payment in form of a Deemed Collection in the amount of the Outstanding Principal Amount of such Loan Agreement / Purchased Receivable.

Furthermore, pursuant to Section 500 (2) of the German Civil Code (*Bürgerliches Gesetzbuch*), a borrower may in case of a consumer loan contract prepay the loan (*vorzeitige Rückzahlung*) in whole or in part at any time. In addition, the borrower may terminate the loan agreement at any time without observing a notice period for good cause (*aus wichtigem Grund*). Moreover, the content of a consumer loan contract is subject to certain formal minimum details, including with respect to term and termination rights or maturity date (Sections 494 et seqq. of the German Civil Code (*Bürgerliches Gesetzbuch*)), lack of which may grant the borrower a right to terminate the consumer loan contract at any time. A borrower may also be entitled to terminate a consumer loan contract if the agreed interest rates are adjusted to market rates due to the lender's breach of its obligation to conduct a credit assessment with respect to the borrower (Sections 505d (1), 505a (1) of the German Civil Code (*Bürgerliches Gesetzbuch*)). In case of a prepayment, the Issuer would receive interest on such loan for a shorter period of time than initially anticipated.

In addition, it should be noted that the German Federal Court of Justice (*Bundesgerichtshof*) decided on the validity of clauses in general terms and conditions restricting set-off by a consumer borrower (judgment dated 20 March 2018 - XI ZR 309/16). The case deals with a clause in the general terms and conditions of a consumer loan agreement of a German savings bank (*Sparkasse*) restricting the right of the borrower to declare set-off to cases where his or her claim is either undisputed (*unbestritten*) or finally adjudicated (*rechtskräftig festgestellt*). This is in line with the scope of Section 309 no. 3 of the German Civil Code (*Bürgerliches Gesetzbuch*). However, the German Federal Court of Justice (*Bundesgerichtshof*) ruled that such restriction needs to be interpreted as also excluding the right of the borrower to declare set-off with claims upon exercising his or her right of withdrawal (*Widerrufsrecht*) and that such restriction rendered the relevant clause invalid pursuant to Section 307 of the German Civil Code (*Bürgerliches Gesetzbuch*) as it constitutes an unreasonable disadvantage (*unangemessene Benachteiligung*) to the borrower. Accordingly, in such case a Debtor would be free to declare set-off with claims of its own against payment claims of the Issuer and, as a consequence, investors may suffer losses under the Notes.

However, in the event that any Debtor exercises a right of set-off in respect of a Purchased Receivable, the Originator will be required to pay to the Issuer Deemed Collections in the amount of the reduction by such set-off of the Outstanding Principal Amount of any Purchased Receivable.

With regard to certain Loan Agreements, the Debtor has entered into payment protection insurance (*Restschuldversicherung*) and/or a GAP insurance (*Kaufpreisversicherung*). Pursuant to the German consumer protection provisions the costs of such payment protection insurance must be set out within the loan agreement. If a Debtor has entered into payment protection insurance and the Loan Agreement does not set out the costs of this payment protection insurance, the relevant Loan Agreement is void unless the full loan amount has been disbursed.

Set-Off Rights - General Set-Off Rights

The Debtor may, according to section 406 BGB set-off against the Issuer an existing counterclaim which the relevant Debtor has against the Originator, unless the Debtor knew of the assignment at the time it acquired the counterclaim, or unless the counterclaim has only become due after (i) the relevant Debtor had acquired knowledge of the assignment to the Issuer and (ii) maturity of the claim against which the Debtor declares the set-off. A counterclaim of the relevant Debtor may arise, *inter alia*, from any claims the relevant Debtor may have against the Originator arising from any breach of contract by the Originator (if any). The ability of the Issuer to make payments on the Notes may be adversely affected in case of a set-off by a Debtor. Moreover, set-off rights could result from deposits of Debtors which are made in accounts maintained with the Originator after the assignment of the Purchased Receivables to the Issuer.

Set-off risks are more generally addressed by an undertaking of the Originator to pay to the Issuer a Deemed Collection in relation to any Purchased Receivable that are subject to a set-off exercised by the relevant Borrower.

Notification of Debtors only following the occurrence of a Debtor Notification Event

The assignment of the Purchased Receivables and the assignment and transfer of the Related Collateral may only be disclosed to the relevant Debtors at any time upon the occurrence of a Debtor Notification Event.

Until a Debtor has been notified of the assignment of the Purchased Receivables owed by it, it may pay (or declare a set-off as described above) with discharging effect to the Originator. Each Debtor may further raise defences against the Issuer arising from its relationship with the Originator which are existing at the time of the assignment of the Receivables.

Commingling Risk

The Servicer will collect Collections onto its own Collection Accounts, as a consequence, such amounts could become commingled with the own funds of the Servicer in case of the insolvency of the Servicer. Further, if the Servicer becomes Insolvent, amounts collected by the Servicer and not transferred to the Operating Account may be subject to attachment by the creditors of the Servicer. Accordingly, Noteholders rely on the creditworthiness of the Servicer to a certain extent.

The Servicer has undertaken in the Servicing Agreement to transfer all Collections received by SEPA Direct Debit Mandate, processes as scheduled in the corresponding Loan Agreement, on the same Business Day on which such Collections are received to the Operating Account any amounts received in any other way in a Collection Period will be transferred on the next Payment Date. All Purchased Receivables have to be payable by direct debit. Even though this may change in respect of individual receivables in accordance with the Credit and Collection Policy, this has the consequence that the majority of the Collections received will stand to the Collection Accounts only for a certain timespan on one Business Day. Furthermore, the amounts standing to the Commingling Reserve Account serve as collateral for the potential shortfall. However, the Servicer were unable to remit amounts or were to become an insolvent debtor, losses or delays in distributions to investors may occur.

Risk of Change of Servicer

In the event Bank11 is replaced as Servicer, there may be losses or delays in processing payments or losses on the Purchased Receivables due to a disruption in service because a successor not immediately available, or because the substitute servicer is not as experienced and efficient as Bank11. This may cause delays in payments or losses on the Notes.

Furthermore, there can be no assurance that the services provided by the Substitute Servicer Facilitator will result in the appointment of a Substitute Servicer within ninety (90) days upon the occurrence of a Servicer Termination Event or will result in the appointment of a Substitute Servicer at all.

Direct Debit Arrangement in case of Insolvency of a Debtor

The Debtors under the Loan Agreements have granted to the Originator the right to collect monies due and payable under the relevant Purchased Receivable by making use of a SEPA Direct Debit Mandate.

Pursuant to recent decisions, the chamber of the BGH specialising in insolvency law (*IX. Zivilsenat*) and the chamber of the BGH specialising in banking law (*XI. Zivilsenat*) have developed uniform principles on the insolvency administrator's authority to object to direct debits. Both chambers agree that both the preliminary and the final insolvency administrator (*vorläufiger und endgültiger Insolvenzverwalter*) have the right to object to direct debits for a period of six weeks upon receipt (*Zugang*) of the last balance of accounts (*Rechnungsabschluss*) in order to preserve the Debtor's assets for the insolvency estate. After such time the relevant direct debit shall be deemed to be approved (*Genehmigungsfiktion*). Pursuant to decisions of the BGH, such deemed approval shall also be binding on the preliminary insolvency administrator with reservation of consent (*vorläufiger schwacher Insolvenzverwalter*).

Both chambers further agree that the insolvency administrator shall only have a right to object to the extent that the Debtor has not approved (*genehmigt*) the relevant direct debit contractually or implicitly (for example if the Debtor has previously given its consent to regular payments and the objected direct debit was conducted

under a continuing obligation such as rental payments). The BGH stated in this respect that it can only be decided on a case by case basis whether the Debtor has approved the relevant direct debit implicitly.

Thus, where the Originator collects monies owed under the Purchased Receivables by making use of a SEPA Direct Debit Mandate, the insolvency administrator of a Debtor may have the right to object to these direct debits as set out above. The insolvency administrator's right to object may adversely affect payments on the Notes in an insolvency of a Debtor as the collection of monies owed by the Debtor under the Purchased Receivable may be delayed (e.g. if legal actions have to be taken against the Debtor).

Reliance on Representations and Warranties

If any Purchased Receivable does not correspond, in whole or in part, to the representations and warranties made by the Originator in the Receivables Purchase Agreement, the Issuer has certain rights of recourse against the Originator. These rights are not collateralised with respect to the Originator except that the title in the Vehicles and additional collateral in respect to the Purchased Receivables have been transferred for security purposes (*Sicherungsübereignung*) to secure the Purchased Receivables. In case of a breach of certain representations and warranties, the Originator will be required to, *inter alia*, indemnify the Issuer. Consequently, a risk of loss exists in the event that such representation or warranty is breached. This could potentially cause the Issuer to default under the Notes.

Reliance on Administration and Collection Procedure and Substitution of Servicer

Pursuant to the Servicing Agreement, the Issuer has appointed (i) the Originator to be the Servicer on its behalf and to service, administer and collect all Purchased Receivables subject to the conditions of the Servicing Agreement and subject to the Trust Agreement and (ii) the Substitute Servicer Facilitator which shall facilitate the appointment of a Substitute Servicer upon the occurrence of a Servicer Termination Event in respect of the Servicer.

The Issuer's ability to meet its obligations under the Notes will be dependent on the performance of the duties by the Servicer (or following its appointment the Substitute Servicer (as applicable)). There can be no assurance that the Servicer or following its appointment the Substitute Servicer will be willing or able to perform such service in the future. If the appointment of the Servicer is terminated in accordance with the Servicing Agreement, there is no guarantee that the appointment of a Substitute Servicer by the Issuer can be facilitated by the Substitute Servicer Facilitator within a reasonable timeframe or at all that provides for at least equivalent services at materially the same costs.

The Servicer will carry out the administration, collection and enforcement of the Purchased Receivables and the related collateral in accordance with the Servicing Agreement, especially in accordance with the Credit and Collection Policy.

The Noteholders are relying on the business judgment and practices of the Servicer and any agents appointed by the Servicer when enforcing claims against the relevant Debtors, including taking decisions with respect to enforcement in respect of the Purchased Receivables and the Related Collateral.

Conflicts of Interest

Bank11 is acting in a number of capacities in connection with the transaction. Bank11 will have only those duties and responsibilities expressly agreed to by it in the relevant agreement and will not, by virtue of it or any of its Affiliates' acting in any other capacity, be deemed to have any other duties or responsibilities or be deemed to be held to a standard of care other than as expressly provided in each agreement to which it is a party. Bank11 in its various capacities in connection with the Transaction may enter into business dealings from which it may derive revenues and profits without any duty to account therefore to any other Transaction Parties.

Bank11 may hold and/or service claims against Debtors other than the Purchased Receivables. The interests or obligations of Bank11 in its respective capacities with respect to such other claims may in certain aspects conflict with the interests of the Noteholders.

Bank11 may freely engage in other commercial relationships with other parties. In such relationships Bank11 is not obliged to take into account the interests of the Noteholders. Accordingly, because of these relationships, potential conflicts of interest may arise.

Impact of the Banking Secrecy Duty and Data Protection Provisions

Pursuant to Regulation (EU) 2015/679 of the European Parliament and of the Council of 27 April 2016 (the "**General Data Protection Regulation**"), a transfer of personal data is permitted, *inter alia*, if (i) the data subject has given consent to the processing of his or her personal data for one or more specific purposes or (ii) processing is necessary for the purposes of the legitimate interests pursued by the controller or by a third party, except where such interests are overridden by the interests or fundamental rights and freedoms of the data subject which require protection of personal data.

The assignment of the Purchased Receivables, however, is not structured in strict compliance with the guidelines for German true sale securitisations of bank assets set out in the circular 4/97 of the German Federal Financial Supervisory Authority (*Bundesanstalt für Finanzdienstleistungsaufsicht*). In particular, these guidelines require a neutral entity to act as data trustee that is a public notary, a domestic credit institution or a credit institution having its seat in any member state of the European Union or any other state of the European Economic Area and being supervised pursuant to the EU Banking Directives. The Data Trustee does not fall into any of these categories. Arguably, the rationale for identifying regulated credit institutions and notaries as eligible data trustees is, besides their neutrality, their reliability in relation to the protection of data when handling personal data. Thus, the Issuer has been advised that there are good arguments to construe the term neutral entity for this purpose to include other entities having their seat in the European Union or European Economic Area if the relevant entity is equally neutral and reliable in relation to the handling of personal data which is also backed by the view of the German Federal Financial Supervisory Authority (cf. letter of the German Federal Financial Supervisory Authority of 14 December 2007, section capacity as data trustee, BA 37-FR 1903-2007/0001).

If the Issuer was considered to be in breach of the General Data Protection Regulation or the Data Protection Amendment and Implementation Act (*Datenschutzanpassungs- und Umsetzungsgesetz*), it could be fined and in case of such fines being substantial, this could have an impact on the ability of the Issuer to make payments on the Notes ultimately leading to a risk of the Noteholders to incur a loss.

Market Value of Purchased Receivables and level of collateralisation

Even though the transaction is structured in a way to ensure that the Aggregate Principal Balance is equal to the Aggregate Note Principal Amount of all Classes of Notes, there is no security that a specific collateralisation level is achieved at the Closing Date or maintained thereafter. Furthermore collateral over the Purchased Receivables is also granted to secure the claims of the Transaction Parties, hence the benefit of the Noteholders may be reduced due to such claims. In particular the level of collateralisation may decrease if an unexpected proportion of the Purchased Receivables become Defaulted Receivables.

There is no assurance that the market value of the Purchased Receivables will at any time be equal or greater than the principal amount of the then outstanding Notes.

Furthermore, Regulation (EU) 2019/631 of the European Parliament and of the Council of 17 April 2019 setting CO2 emission performance standards for new passenger cars and for new light commercial vehicles sets new CO2 standards which require average emissions of new cars to come down by 55% by 2030, and new vans by 50% by 2030 and zero Co2 emission as of 2035. Regulation (EU) 2019/631 of the European Parliament and of the Council of 17 April 2019 is likely to already have an adverse impact on the residual values of the Vehicles with combustion engines. Such impact may result in lower proceeds in case of a sale of or enforcement on the Purchased Receivables and, therefore may impact the Issuer's ability to make payments under the Notes.

Reliability on historical and other information in the "DESCRIPTION OF THE PORTFOLIO"

The historical information set out in particular in "DESCRIPTION OF THE PORTFOLIO" is based on the historical information provided by the Originator.

Further, the information set out, in particular in "DESCRIPTION OF THE PORTFOLIO", is based on information relating to the status of the Portfolio on the Cut-Off Date. The Portfolio, however, is actually transferred on or about the Closing Date. Accordingly, the information set out, in particular in "DESCRIPTION OF THE PORTFOLIO", does not summarise the status of the portfolio at the time of sale and does not reflect the developments and changes in the Portfolio between the Cut-Off Date and the Closing Date.

There can be no assurance that the historical performance of the receivables set out, in particular in "**DESCRIPTION OF THE PORTFOLIO**", should not be taken as an indication of future performance.

Reliance on the Creditworthiness and Performance of Third Parties

The Issuer has entered into agreements with a number of third parties that have agreed to perform services in relation to the Notes. The ability of the Issuer to meet its obligations under the Notes will be dependent on the performance of the services, duties, obligations and undertakings by each party to the Transaction Documents. The Issuer is relying on the creditworthiness of the other parties to the Transaction Documents. It cannot be ruled out that the creditworthiness of such parties will deteriorate in the future. If any of such third parties fail to perform their obligations under the respective agreements to which they are a party, the ability of the Issuer to meet its obligations under the Notes may be adversely affected.

The risk is to a certain extent addressed by replacement provisions in the relevant Transaction Documents.

No Independent Investigation has been made in relation to the Purchased Receivables

None of the Transaction Parties or any of their respective Affiliates has undertaken or will undertake any due diligence, investigations, searches or other actions to verify the details of the Purchased Receivables, the related Loan Agreements or to establish the creditworthiness of any Debtor, the Originator or any other party to the Transaction Documents. Each of the persons named above will only rely on the accuracy of the representations and warranties made by the Originator to the Issuer in the Receivables Purchase Agreement in respect of, in particular, the Purchased Receivables.

The Issuer will assign its claims under all such representations and warranties to the Trustee for the benefit of the Noteholders. If a relevant representation or warranty by the Originator is breached, the Issuer has certain rights of recourse against the Originator. For example, if a Purchased Receivable does not comply with the Eligibility Criteria as at the relevant Cut-Off Date, the Originator will be required to repurchase such Purchased Receivable at the Repurchase Price. The ability of the Issuer to make payments on the Notes may be adversely affected if, in case of a breach of such representations and warranties, no corresponding payments are made by the Originator as such obligation of the Originator is unsecured.

Adverse macroeconomic and geopolitical developments may have a material negative impact on the performance of the Purchased Receivables

The ongoing geopolitical developments, including the current uncertainty in the banking sector, the war in Ukraine and the current tensions in the middle east and the sanctions imposed by the United States, the United Kingdom, the European Union, in particular, against Russia, may result in an adverse impact on global economic, financial, political, social or government conditions which may result or already resulted in (including but not limited to) limited access to workplaces, and limited availability of key personnel, higher inflation, higher interest rates, higher cost of living, declining access to credit, lower or stagnating wages, increasing unemployment, changes in government regulatory, fiscal or tax policies, including changes in applicable tax rates and the modification of existing or adoption of new tax legislation, sanctions regimes, removal of subsidies, reduced public spending, increases in fuel prices, weakness in energy markets or a loss of consumer confidence. Such conditions may have an adverse impact on both the operational business of Bank11 and the financial performance of the Purchased Receivables.

IV. Risks related to regulatory changes

Bail-In Instrument and other Restructuring and Resolution Measures

As a result of Directive 2014/59/EU on Banking Recovery and Resolution Directive of 15 May 2014 ("**BRRD**"), as implemented into German law by the German Recovery and Resolution Act (*Sanierungs- und Abwicklungsgesetz* - "**SAG**") which became effective on 1 January 2015, it is possible that a credit institution or investment firm with its head office in an EEA state and/or certain group companies (such institution, investment firm or group company could encompass a Swap Counterparty) could be subject to certain resolution actions. Any such action may affect the ability of any relevant entity to satisfy its obligations under the Transaction Documents (including the Swap Agreement).

On 27 June 2019, Directive (EU) 2019/879 amending the BRRD entered into force. Furthermore, the Directive (EU) 2017/2399 amending the BRRD as regards the ranking of unsecured debt instruments entered into force on 28 December 2017. The BRRD II has been implemented in Germany by the Risk Reduction Act (*Gesetz*

zur Umsetzung der Richtlinien (EU) 2019/878 und (EU) 2019/879 zur Reduzierung von Risiken und zur Stärkung der Proportionalität im Bankensektor (Risikoreduzierungs-gesetz - „**RiG**“)) which came into force on 28 December 2020. At this stage the impact of the RiG on the Noteholders cannot be predicted.

No assurance can be given that the Issuer and, consequently, the Noteholders will not be adversely affected as a result of any resolution actions or measures taken under the SAG or RiG.

Risk retention and due diligence requirements

Investors, to which the Securitisation Regulation is applicable, should make themselves aware of the requirements of Articles 5 of the Securitisation Regulation, in addition to any other regulatory requirements applicable to them with respect to their investment in the Notes.

Article 6 of the Securitisation Regulation provides for a direct obligation on originators to retain risk. Article 5 (1)(c) of the Securitisation Regulation requires institutional investors as defined in Article 2 (12) of the Securitisation Regulation (which term also includes an insurance or reinsurance undertaking as defined in the Directive 2009/138/EC of the European Parliament and of the Council of 25 November 2009 on the taking-up and pursuit of the business of Insurance and Reinsurance, as amended from time to time (Solvency II Regulation), and an alternative investment fund manager as defined in the AIFM Regulation) to verify that, if established in the European Union, the originator, sponsor or original lender retains on an ongoing basis a material net economic interest in accordance with Article 6 of the Securitisation Regulation and the risk retention is disclosed to the institutional investor in accordance with Article 7(1)(e) of the Securitisation Regulation.

With respect to the commitment of the Originator to retain a material net economic interest with respect to the Transaction, following the issuance of Notes as contemplated by Article 6(3)(c) of the Securitisation Regulation, the Originator will retain, for the life of the Transaction, such net economic interest through an interest in randomly selected exposures. Such interest in randomly selected exposures has been and will be equivalent to no less than 5 per cent. of the nominal value of the securitised exposures on an ongoing basis *provided that* the level of retention may reduce over time in compliance with Article 10(2) of the Commission Delegated Regulation (EU) 2023/2175 of 7 July 2023.

The outstanding balance of the retained exposures may be reduced over time by, amongst other things, amortisation and allocation of losses or defaults on the underlying Purchased Receivables. The Investor Reports will also set out monthly confirmation as to the Originator continued holding of the original retained exposures.

It should be noted that there is no certainty that references to the retention obligations of the Originator in this Prospectus will constitute explicit disclosure (on the part of the Originator) or adequate due diligence (on the part of the Noteholders) for the purposes of Article 5 of the Securitisation Regulation.

Article 5 of the Securitisation Regulation places an obligation on institutional investors (as defined in the Securitisation Regulation) before investing in a securitisation and thereafter, to analyse, understand and stress test their securitisation positions and monitor on an ongoing basis in a timely manner performance information on the exposures underlying their securitisation positions. After the Closing Date, the Originator as designated reporting entity under Article 7 of the Securitisation Regulation, will prepare Investor Reports wherein relevant information with regard to the Purchased Receivables will be disclosed publicly together with an overview of the retention of the material net economic interest by the Originator in accordance with the Securitisation Regulation Disclosure Requirements and will make such information available via the Securitisation Repository.

Where the relevant retention requirements are not complied with in any material respect and there is negligence or omission in the fulfilment of the due diligence obligations on the part of a credit institution that is investing in the Notes, a proportionate additional risk weight of no less than 250 per cent. of the risk weight (with the total risk weight capped at 1250 per cent.) which would otherwise apply to the relevant securitisation position will be imposed on such credit institution, progressively increasing with each subsequent infringement of the due diligence provisions.

If the Originator does not comply with its obligations under Article 6 of the Securitisation Regulation, the ability of the Noteholders to sell and/or the price investors receive for, the Notes in the secondary market may be adversely affected.

Following the issuance of the Notes, relevant investors, to which the Securitisation Regulation is applicable, are required to independently assess and determine the sufficiency of the information described above for the purposes of complying with Article 5 of the Securitisation Regulation.

Noteholders should take their own advice and/or seek guidance from their regulator on compliance with, and the application of, the provisions of Article 6 of the Securitisation Regulation in particular.

Securitisation Regulation and simple, transparent and standardised securitisation

Although the Transaction has been structured to comply with the requirements for simple, transparent and standardised securitisations transactions as set out in Articles 20, 21 and 22 of the Securitisation Regulation and the Transaction will be verified by STS Verification International GmbH on the Closing Date, there can be no guarantee that it maintains this status throughout its lifetime. Noteholders and potential investors should verify the current status of the Transaction on the website of ESMA. Non-compliance with such status may result in higher capital requirements for investors as an investment in the Notes would not benefit from Articles 243, 260, 262 and 264 of the CRR. Furthermore, following STS classification, any non-compliance could result in various administrative sanctions and/or remedial measures being imposed on the Issuer which may be payable or reimbursable by the Issuer. As the Applicable Priority of Payments does not foresee a reimbursement of the Issuer for the payment of any of such administrative sanctions and/or remedial measures the repayment of the Notes may be adversely affected.

Prospective investors should carefully consider (and, where appropriate, take independent advice) in relation to the capital charges associated with an investment in the Notes. In particular, investors should carefully consider the capital charges associated with an investment in the Notes for credit institutions and investment firms, depending on the particular exposure. These effects may include, but are not limited to, a decrease in demand for the Notes in the secondary market, which may lead to a decreased price for the Notes. It may also lead to decreased liquidity and increased volatility in the secondary market. Prospective investors are themselves responsible for monitoring and assessing changes to the EU risk retention rules and their regulatory capital requirements.

Investor compliance with due diligence requirements under the UK Securitisation Regulation

Pursuant to the EUWA, from 11pm (GMT) on 31 December 2020, EU regulations (including the Securitisation Regulation) which previously had direct effect in the UK by virtue of the European Communities Act 1972 were transposed into domestic law in the UK.

In order to smooth the transition from the Securitisation Regulation regime to that under Regulation (EU) No. 2017/2402 dated 12 December 2017, as it forms part of domestic law of the United Kingdom by virtue of the EUWA and any implementing laws or regulations in force in the United Kingdom in relation to the Securitisation Regulation or amending the Securitisation Regulation as it applies in the United Kingdom (together with applicable directions, secondary legislation, guidance, binding technical standards and related documents published by the FCA and the PRA of the United Kingdom) (the "**UK Securitisation Regulation**"). In certain cases, UK regulated entities can continue to comply with the previous requirements under the Securitisation Regulation instead of the UK Securitisation Regulation.

The UK Securitisation Regulation includes in Article 5 due diligence requirements which are applicable to UK institutional investors in a securitisation.

If the due diligence requirements under Article 5 of the UK Securitisation Regulation are not satisfied then, depending on the regulatory requirements applicable to such UK institutional investors, an additional risk weight, regulatory capital charge and/or other regulatory sanction may be applied to such securitisation investment and/or imposed on the UK institutional investor.

In respect of the due diligence requirements under Article 5 of the UK Securitisation Regulation, potential UK institutional investors (as defined in the UK Securitisation Regulation) should note in particular that:

- in respect of the risk retention requirements set out in Article 6 of the UK Securitisation Regulation, Bank11 commits to retain a material net economic interest with respect to this Transaction in compliance with Article 6(3)(c) of the Securitisation Regulation and Commission Delegated Regulation (EU) 2023/2175 of 7 July 2023 only and not in compliance with Article 6 of the UK Securitisation Regulation, and
- in respect of the transparency requirements set out in Article 7 of the UK Securitisation Regulation, the Originator in its capacity as designated reporting entity under Article 7 of the Securitisation Regulation will make use of the standardised templates developed by ESMA in respect of the Securitisation Regulation Disclosure Requirements for the purposes of this Transaction and will not make use of the standardised templates adopted by the FCA.

UK institutional investors (as defined in the UK Securitisation Regulation) should be aware that whilst, at the date of this Prospectus, the Securitisation Regulation Disclosure Requirements and the transparency requirements of Article 7 of the UK Securitisation Regulation are still very similar, the Securitisation Regulation and UK Securitisation Regulation (including but not limited to the Securitisation Regulation Disclosure Requirements and the transparency requirements of Article 7 of the UK Securitisation Regulation) may diverge, in particular given the on-going review of and suggested amendments to the UK Securitisation Regulation. No assurance can be given that the information included in this Prospectus or provided in accordance with the Securitisation Regulation Disclosure Requirements will be sufficient for the purposes of assisting such UK institutional investors in complying with their due diligence obligations under Article 5 of the UK Securitisation Regulation.

Therefore, relevant UK institutional investors are required to independently assess and determine the sufficiency of the information described in this prospectus for the purposes of complying with Article 5 of the UK Securitisation Regulation, and any corresponding national measures which may be relevant to investors, and no assurance can be given that this is the case. None of the Issuer, the Arranger, the Joint Lead Managers, the Trustee, the Servicer, the Originator or any of the other Transaction Parties makes any representation that any such information described in this Prospectus is sufficient in all circumstances for such purposes.

This Transaction is not intended to be designated as a simple, transparent and standardised securitisation for the purposes of the UK Securitisation Regulation. However, under the UK Securitisation Regulation, securitisation transactions which have been notified to ESMA prior to 31 December 2024 as meeting the requirements to qualify as a simple, transparent and standardised securitisation under the Securitisation Regulation can also qualify as a simple, transparent and standardised securitisation under the UK Securitisation Regulation, provided that the securitisation transaction remains on the ESMA register and continues to meet the requirements for simple, transparent and standardised securitisations under the Securitisation Regulation.

U.S. Risk Retention

The Transaction will not involve risk retention by the Originator for the purposes of the U.S. Risk Retention Rules, but rather will be made in reliance on an exemption provided for in Section __.20 of the U.S. Risk Retention Rules regarding non-U.S. transactions. Such non-U.S. transactions must meet certain requirements, including that (1) the transaction is not required to be and is not registered under the Securities Act; (2) no more than 10 per cent. of the dollar value (or equivalent amount in the currency in which the securities are issued) of all classes of securities issued in the securitisation transaction are sold or transferred to U.S. persons (in each case, as defined in the U.S. Risk Retention Rules) or for the account or benefit of U.S. persons (as defined in the U.S. Risk Retention Rules and referred to in this Prospectus as "**Risk Retention U.S. Persons**"); (3) neither the sponsor nor the issuer of the securitisation transaction is organised under U.S. law or is a branch located in the United States of a non-U.S. entity; and (4) no more than 25 per cent. of the underlying collateral was acquired from a majority-owned affiliate or branch of the sponsor or issuer organised or located in the United States.

There can be no assurance that the exemption provided for in Section __.20 of the U.S. Risk Retention Rules regarding non-U.S. transactions will be available. Failure of the offering of the Notes to comply with the U.S. Risk Retention Rules (regardless of the reason for such failure to comply) could give rise to regulatory action which may adversely affect the Notes. Furthermore, the impact of the U.S. Risk Retention Rules on the securitisation market generally is uncertain, and a failure by a transaction to comply with the risk retention requirements of the U.S. Risk Retention Rules could negatively affect the market value and secondary market liquidity of the Notes.

Basel Capital Accord and regulatory capital requirements

The European authorities have incorporated the Basel III framework into EU law, primarily through Directive 2013/36/EU of the European Parliament and of the Council of 26 June 2013 on access to the activity of credit institutions and the prudential supervision of credit institutions and investment firms, amending Directive 2002/87/EC and repealing Directive 2006/48/EC and 2006/49/EC (Capital Requirements Directive – "**CRD**"), as amended by Directive (EU) 2019/878 of 20 May 2019 (the "**CRD V**"), and the CRR, as amended by Regulation (EU) 2019/876 of 20 May 2019 (the "**CRR II**"). The CRD V and the CRR II may have an impact on the capital requirements in respect of the Notes and/or on incentives to hold the Notes for investors that are subject to requirements that follow the relevant framework and, as a result, may affect the liquidity and/or value of the Notes.

Regulation (EU) 2017/2401 of the European Parliament and of the Council amending the CRR (the "**CRR Amending Regulation**") applies since 1 January 2019. The CRR Amending Regulation implements changes to the CRR on the basis of the revised securitisation framework. In particular, the changes include to make, *inter alia*, capital requirements with respect to securitisation exposures more prudent and risk sensitive and at the same time serve to reduce mechanic reliance on external credit ratings. The changes also include, amongst other things, (i) a revised hierarchy of approaches of risk evaluation and capital assignment applicable to certain types of securitisation exposures, (ii) revised ratings based approach and modified supervisory formula approach incorporating additional risk drivers (such as maturity), which are intended to create a more risk-sensitive and prudent calibration, and (iii) new approaches, such as a simplified supervisory approach and different applications of the concentration ratio based approach. Investors should carefully consider (and, where appropriate, take independent advice) the changes introduced by the CRR Amending Regulation, in particular, the effects of the change (and likely increase) to the capital charges associated with an investment in the Notes. It should be noted that a new set of regulatory technical standards is required and being implemented to add detail to the CRR Amending Regulation, the impact of which continues to be difficult to predict.

Additionally, Regulation (EU) No 2015/61 of 10 October 2014 (the "**LCR Regulation**") sets out assumed asset inflow and outflow rates to better reflect actual experience in times of stress. On 19 November 2018, Delegated Regulation (EU) 2018/1620 amending the LCR Regulation (the "**Delegated Regulation**") entered into force, pursuant to which, *inter alia*, (i) the calculation of the expected liquidity outflows and inflows on repurchase agreements, reverse repurchase agreements and collateral swaps shall be aligned with the international liquidity standard developed by Basel Committee on Banking Supervision; (ii) the treatment of certain reserves held with third-country central banks shall be amended and (iii) transactions exposures of securitisations, which qualify as simple, transparent and standardised securitisations in accordance with the Securitisation Regulation, shall qualify as Level 2B high quality liquid assets, if they additionally fulfil the conditions laid down in Article 13 of the LCR Regulation. The Delegated Regulation applies since 30 April 2020.

On 7 December 2017, the Committee's oversight body, the Group of Central Bank Governors and Heads of Supervision ("**GHOS**"), endorsed the outstanding Basel III regulatory reforms which are commonly referred to as "**Basel IV**". The document concludes the proposals and consultations on-going since 2014 in relation to credit risk, credit value adjustment ("**CVA**") risk, operational risk, output floors and leverage ratio. The key objective of the revisions is to reduce excessive variability of risk-weighted assets (RWAs). The reforms include the following elements: revised standardised approach for credit risk, which will improve the robustness and risk- sensitivity of the existing approach, revisions to the internal ratings-based approach for credit risk, where the use of the most advanced internally modelled approaches for low-default portfolios will be limited, revisions to the CVA framework, including the removal of the internally modelled approach and the introduction of a revised standardised approach and revised standardised approach for operational risk, which will replace the existing standardised approaches and the advanced measurement approaches. A revised standard for minimum capital requirements for market risk applies since 1 January 2022 (with the output floor phased in from 2022 to 1 January 2027). The Basel Committee has also published an explanatory note along with the standard, to provide a non-technical description of the overall market risk framework, the changes that have been incorporated into in new version of the framework and impact of the framework.

Furthermore, on 8 December 2023 the Council of the EU published the full texts of the proposal for a Regulation of the European Parliament and of the Council amending Regulation (EU) No 575/2013 as regards requirements for credit risk, credit valuation adjustment risk, operational risk, market risk and the output floor ("**CRR III**") and the proposal for a Directive of the European Parliament and of the Council amending Directive 2013/36/EU as regards supervisory powers, sanctions, third-country branches, and environmental, social and governance risks, and amending Directive 2014/59/EU ("**CRD VI**"). The publication followed the political agreement reached by the EU Council and the EU Parliament in June 2023. In particular the changes to the p-factor under the CRR III will have an impact on the calculation of a bank's capital requirements for securitisation positions.

The CRR Amending Regulation as well as any implementing legislation or (as the case may be) the Basel III framework and the Basel IV framework and its amendments could affect the risk-based capital treatment of the Notes for investors which are subject to bank capital adequacy requirements under these provisions or implementing measures. Accordingly, the upcoming changes may have an impact on incentives to hold the Notes for investors that are subject to requirements that follow the revised framework and, as a result, they may affect the liquidity and/or value of the Notes.

The CRD V, the CRD VI, the CRR II, the CRR III, the LCR Regulation, the Delegated Regulation, the CRR Amending Regulation as well as the Basel III framework and its amendments may have negative implications

on the cost of regulatory capital for certain investors and thereby on the overall return from an investment of the Notes and the liquidity of the Notes. Therefore, investors should consult their own advisers as to the regulatory capital requirements in respect of the Notes and as to the consequences to and effect on them by the CRD V, the CRD VI, the CRR II, the CRR III, the LCR Regulation, the Delegated Regulation, the CRR Amending Regulation as well as the Basel III framework and its amendments. No predictions can be made as to the precise effects of such matters on any investor or otherwise.

There can be no guarantee that the regulatory capital treatment of the Notes for investors will not be affected by any future implementation of and changes to the CRD V, or other regulatory or accounting changes.

Reliance on Verification by STS Verification International GmbH

Investors should not evaluate their notes investments solely on the basis of the verification of STS Verification International GmbH ("**SVI**").

SVI has been authorized by the German Federal Financial Supervisory Authority (*Bundesanstalt für Finanzdienstleistungsaufsicht*), as the competent authority pursuant to Art 29 of the Securitisation Regulation to act in all EU countries as third party pursuant to Art 28 of the Securitisation Regulation to verify compliance with the STS Criteria pursuant to Articles 19 to 26e of the Securitisation Regulation. SVI grants a registered verification label "**verified – STS VERIFICATION INTERNATIONAL**" if a securitisation complies with the requirements for simple, transparent and standardised securitisation as set out in Articles 19 to 26e of the Securitisation Regulation. The aim of the Securitisation Regulation is to restart high-quality securitisation markets, and the implementation of a framework for simple, transparent and standardised transactions with corresponding STS criteria shall contribute to this. However, it should be noted that the STS verification performed by SVI does not affect the liability of an originator or special purpose vehicle in respect of their legal obligations under the Securitisation Regulation. Furthermore, the use of verification services from SVI shall not affect the obligations imposed on institutional investors as set out in Article 5 of the Securitisation Regulation. Notwithstanding confirmation by SVI, which verifies compliance of a securitisation with the STS Requirements, such verification by SVI does not ensure the compliance of a securitisation with the general requirements of the Securitisation Regulation.

SVI has carried out no other investigations or surveys in respect of the issuer or the notes concerned other than as set out in the verification report prepared by SVI and disclaims any responsibility for monitoring the issuer's continuing compliance with these standards or any other aspect of the issuer's activities or operations. Furthermore, SVI has not provided any form of advisory, audit or equivalent service to the Originator, Issuer or Sponsor.

SVI is not a legal advisor and nothing in the verification report prepared by SVI shall be regarded as legal advice in any jurisdiction.

Accordingly, the verification report prepared by SVI is only an expression of opinion by SVI after application of its verification methodology and not a statement of fact. It is not a guarantee or warranty that ECB, any of the ESAs or national competent authorities, courts, investors or any other person will accept the STS status of the relevant securitisation. Therefore, no person should rely on the verification report prepared by SVI in determining the STS status but must perform its own analysis and reach its own conclusions.

SVI assumes due performance of the contractual obligation thereunder by each of the parties and the representations made and warranties given in each case by any persons or parties to SVI or in any of the documents are true, not misleading and complete. SVI shall have no liability for any loss of any kind suffered by any person as a result of a securitisation where the verification report prepared by SVI indicated that it met, in whole or in part, the STS Requirements, certain CRR or SRT requirements being held for any reason as not so meeting the relevant requirements or not being able to have lower capital allocated against it save in the case of deliberate fraud by SVI. SVI shall also not have any liability for any action taken or action from which any person has refrained from taking as a result of the verification report prepared by SVI.

V. Taxation

This subsection should be read in conjunction with the Section entitled "TAXATION", where more detailed information is given. Prospective purchasers of the Notes are advised to consult their own tax advisors as to the tax consequences of purchasing, holding and disposing of the Notes under the tax laws of the country of which they are residents.

Taxation in Germany

Payments of interest and principal on the Notes will be subject to income tax and any other taxes, including applicable withholding taxes, and neither the Issuer nor any other party will be obliged to pay additional amounts in relation thereto. See "THE TERMS AND CONDITIONS OF THE NOTES - Taxes".

Germany does not offer a general legal framework relating to the tax treatment of securitisations. Therefore, any German transaction has to rely on the application of general principles of German tax law. The Issuer believes that the risks described in this subsection reflect the principal tax risks inherent in the transaction for Noteholders, but the inability of the Issuer to pay interest, principal or other amounts on or in connection with the Notes may occur for other reasons and the Issuer does not represent that the statements regarding the risks of holding the Notes are exhaustive. In particular, the so-called Secondary Credit Market Promotion Act (*Kreditweitmarktförderungsgesetz*) recently introduced changes to the interest stripping rules (*Zinsschranke*). The scope of application of the revised interest stripping rules as well as the precise impact of the changes implemented to tax position of the Issuer cannot be determined without a certain degree of uncertainty. Although the Issuer believes that the various structural elements described in this document address some of these risks for Noteholders, there can be no assurance that these measures will be sufficient to ensure payment to Noteholders of interest, principal or any other amounts on or in connection with the Notes on a timely basis or at all.

U.S. Foreign Account Tax Compliance Act

In constellations with a US connection the regulations of the Foreign Account Tax Compliance Act ("**FATCA**") could apply. Under the FATCA regime and the corresponding local regulations in Germany specific financial and non-financial institutions are required to exchange tax relevant information with the US tax authorities. A non-compliance with such reporting obligations can result in a duty to withhold 30 per cent. U.S. withholding tax on, inter alia, interest and other fixed or determinable annual or periodical income of persons or entities taxable in the US. However, if an amount in respect of such withholding tax were to be deducted or withheld either from amounts due to the Issuer or from interest, principal or other payments made in respect of the Notes, neither the Issuer nor any paying agent nor any other person would, pursuant to the Terms and Conditions, be required to pay additional amounts as a result of the deduction or withholding. As a result, investors in the Notes may receive less interest or principal than expected.

Potential Financial Transaction Tax

The European Commission and several EU member states including Germany have been discussing the introduction of a financial transaction tax ("**FTT**") for a number of years.

The scope of the FTT is still under political debate. FTT may apply to trading in the Notes but also to derivative transactions (for example, interest rate swaps) to be entered into by the Issuer.

FTT could therefore potentially reduce the amounts that become available to the Issuer in the future to make payments under the Notes and it could reduce the proceeds that Noteholders effectively receive from the disposal of the Notes.

Withholding or Deduction under the Notes

If in respect of amounts payable under the Notes any withholding or deduction for or on account of taxes are imposed by law (including FTT, FATCA or any domestic provisions referring to the implementation of an automatic exchange of account information for financial institutions) or otherwise neither the Issuer nor any other person is obliged to gross up or otherwise compensate Noteholders for receiving an amount under the Notes reduced by such withholding or deduction.

If such obligation to withhold or deduct qualifies as a Tax Event the Originator may, but is not obliged to, repurchase all outstanding Purchased Receivables in accordance with the Receivables Purchase Agreement. The Issuer shall sell all (but not only some) of the Purchased Receivables whereby the Originator shall have the right to match the Repurchase Price for the Purchased Receivables in order to purchase them. For the avoidance of doubt, the Repurchase Price does not need to be sufficient to repay the Class E Notes, Condition 3.3 (*Limited Recourse*) applies. The sale is subject to the following conditions: (a) the Purchased Receivables are sold at the Repurchase Price, (b) all payment obligations under the Class A Notes, the Class B Notes, the Class C Notes and the Class D Notes will be fulfilled, and (c) the Issuer confirms to the Trustee that it is

not aware of the Insolvency of the purchaser of the Purchased Receivables or any circumstances which lead or may lead to the purchaser of the Purchased Receivables becoming Insolvent.

Such repurchase will lead to an early redemption of the Class A Notes, the Class B Notes, the Class C Notes and the Class D Notes pursuant to Condition 11 (*Early Redemption*) of the Terms and Conditions. This will shorten the average lives of the Notes and will reduce the amount of interest on the Notes expected to be received and will correspondingly adversely affect the yield on the Notes.

All payments of principal of and interest on Notes made in Clearstream and Euroclear will be made free and clear of, and without any withholding or deduction for or on account of, tax (if any) applicable to the Notes under any applicable jurisdiction, unless such withholding or deduction is required by law or administrative order.

Withholding tax in respect of the Swap Agreement

All payments to be made by a party under the Swap Agreement are to be made without withholding or deduction for or on account of any tax unless such withholding or deduction is required under applicable law (as modified by the practice of any relevant tax authority). Each of the Issuer and the Swap Counterparty will represent on entering into the Swap Agreement that it is not obliged to make any such deduction or withholding under current taxation law and practice (save in respect of certain payments of interest and deliveries, transfers and payments to be made pursuant to the credit support annex to the Swap Agreement). If, as a result of a change in law (or the application or official interpretation thereof), the Issuer is required to make such a withholding or deduction from any payment to be made to the Swap Counterparty under the Swap Agreement, the Issuer will not be obliged to pay any additional amounts to such Swap Counterparty in respect of the amounts so required to be withheld or deducted. If the Swap Counterparty is required to make such a withholding or deduction from any payment to the Issuer under the Swap Agreement, it shall pay to the Issuer such additional amount as is necessary to ensure that the net amount actually received by the Issuer will equal the full amount the Issuer would have received had no such deduction or withholding been required. The party receiving a reduced payment or that is required to make an additional payment, as the case may be, will have the right to terminate the Swap Agreement (subject to the Swap Counterparty's obligation to use all reasonable efforts (provided that such efforts will not require the Swap Counterparty to incur a loss, excluding immaterial, incidental expenses) to transfer its rights and obligations under the Swap Agreement to another of its offices or Affiliates such that payments made by or to that office or Affiliates under the Swap Agreement can be made without any withholding or deduction for or on account of tax). If a transaction under the Swap Agreement is terminated, the Issuer may be unable to meet its obligations under the Notes in full, with the result that the Noteholders may not receive all of the payments due to them in respect of the Notes.

No gross up of payments

The Notes will not provide for gross-up of payments in the event that the payments on the Notes become subject to withholding taxes, so that in case the Issuer would have to withhold payments due under the Notes for tax reasons, the Noteholders would receive reduced payments only.

OVERVIEW

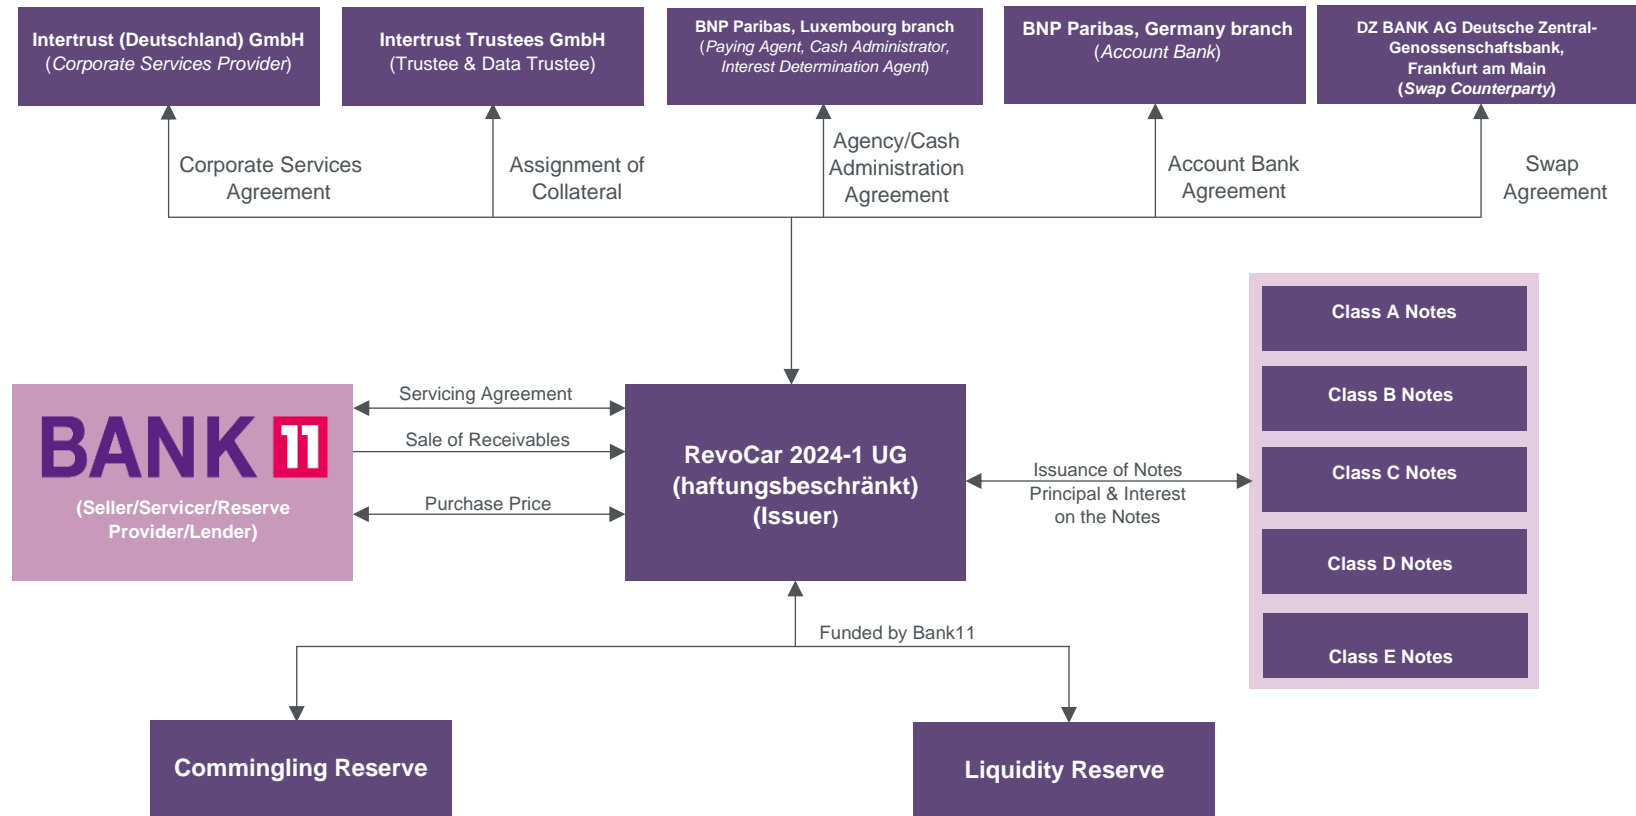

The following overview (the "**Overview**") should be read as an introduction to the Prospectus.

Any decision to invest in the Notes should be based on consideration of the Prospectus as a whole by the investor (including, in particular, the factors set out under "RISK FACTORS").

The Overview does not purport to be complete and is taken from and qualified in its entirety by the remainder of this Prospectus.

There is no equity investment of Bank11 in the Issuer and the donation from Bank11 to the charitable foundations will not qualify as such equity investment.

The Issuer will be liquidated after the final payment to the holders of the last outstanding Note of any Class of Notes.

In order to fund the Purchase Price, the Issuer will issue five classes of Notes, the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes and the Class E Notes.

Servicing of the Portfolio

Bank11 will service the Portfolio in its capacity as Servicer and will continue to pursue, *inter alia*, the collection management process on behalf of the Issuer according to a Servicing Agreement.

Bank11 will prepare the Investor Report according to the Servicing Agreement.

Bank11 will collect from the Debtors the monthly Interest Collections, the monthly Principal Collections as well as the monthly Recovery Collections on Defaulted Receivables according to its Credit and Collection Policy.

The Servicer will transfer all Collections on Purchased Receivables to the Operating Account, such transfer to be made:

- (b) in case of any amounts received in any other way in a Collection Period on the next Payment Date, unless such amounts are received in form of a posting (*Buchung*), which are transferred on the same Business Day on which such amounts are received;

in each case to the extent such claim to transfer the Collections has not been extinguished in accordance with the Servicing Agreement.

In case of insolvency of Bank11, the Substitute Servicer Facilitator uses all commercially reasonable efforts to appoint a third party to perform the services.

Management of the Issuer

Management and accounting of the Issuer will be provided by the Corporate Services Provider in accordance with the Corporate Administration Agreement.

Any such claims shall be settled only after all current and future claims of the Issuer's other creditors have been settled if and to the extent the Issuer is in a position to settle such claims using future profits (*künftige Gewinne*), any remaining liquidation proceeds (*Liquidationsüberschuss*) or any positive balance of the net assets (*anderes freies Vermögen*) of the Issuer.

Early redemption for default

Any Noteholder may declare due the Notes held by it at the then current Note Principal Amount plus accrued interest by delivery of a written notice to the Issuer with a copy to the Trustee if any Issuer Event of Default with respect to the relevant Note held by it has occurred and has not been remedied prior to receipt by the Issuer of such notice.

Upon receipt by the Issuer of a notice from a Noteholder to the effect that an Issuer Event of Default in respect of Notes held by it has occurred:

- (a) the Issuer shall promptly (*unverzüglich*) notify the Trustee hereof in writing; and
- (b) provided that such Issuer Event of Default is continuing at the time such notice is received by the Issuer, all Notes (but not some only) will become due for redemption on the Payment Date following the Termination Date in an amount equal to their then current Note Principal Amounts plus accrued but unpaid interest.

Immediately upon being informed of the occurrence of an Issuer Event of Default in accordance with the Terms and Conditions or in any other way, the Trustee serves an Enforcement Notice to the Issuer.

Upon the delivery of an Enforcement Notice by the Trustee to the Issuer, the Trustee:

- (a) enforces the Security Interest over the Security Assets to the extent the Security Interest over the Security Assets has become enforceable; and
- (b) applies any available Issuer Proceeds on the Payment Date following the Termination Date and thereafter on each subsequent Payment Date in accordance with the Post-Enforcement Priority of Payments.

Early redemption by the Issuer – Tax Event

The Class A Notes, the Class B Notes, the Class C Notes and the Class D Notes will be subject to optional redemption if a Tax Event has occurred.

If a Tax Event has occurred, the Issuer (with a copy to the Trustee) may exercise its options set out in Condition 11.1 (*Notes Redemption upon the occurrence of a Tax Event*) of the Terms and Conditions to initiate the redemption of the Class A Notes, the Class B Notes, the Class C Notes, the Class D Notes and the Class E Notes.

The Issuer shall sell all (but not only some) of the Purchased Receivables whereby the Originator shall have the right to match the Repurchase Price for the Purchased Receivables in order to purchase them.

The sale is subject to the following conditions:

- (a) The Purchased Receivables are sold at the Repurchase Price.

- (b) All payment obligations under the Class A Notes to the Class D Notes will be fulfilled.
- (c) The Issuer confirms to the Trustee that it is not aware of the Insolvency of the purchaser of the Purchased Receivables or any circumstances which lead or may lead to the purchaser of the Purchased Receivables becoming Insolvent.

Such sale shall become effective at the Repurchase Price on the Payment Date immediately following conclusion of the sale. The purchaser of the Purchased Receivables shall pay the Repurchase Price to the Operating Account.

For the avoidance of doubt, the Repurchase Price does not need to be sufficient to repay the Class E Notes, Condition 3.3 (*Limited Recourse*) applies.

Upon receipt by the Issuer of the Repurchase Price and all other payments owed by the purchaser of the Purchased Receivables on the Operating Account with discharging effect (*Erfüllungswirkung*), the Issuer shall assign all Repurchased Receivables and assign and transfer the Related Collateral (including the Related Claims and Rights) to the purchaser of the Purchased Receivables at the cost of the purchaser of the Purchased Receivables.

Early redemption by the Issuer – Regulatory Change Event

The Class B Notes to Class D Notes will be subject to optional redemption in whole but not in part on the Regulatory Change Event Redemption Date.

In the event that a Regulatory Change Event has occurred or continues to exist, the Originator will have an option, subject to certain requirements in accordance with the Mezzanine Loan Agreement, to advance the Mezzanine Loan to the Issuer for an amount that is equal to the Mezzanine Loan Disbursement Amount, provided that the Mezzanine Loan Disbursement Amount will result in an amount available to the Issuer being at least sufficient to redeem the Class B Notes to the Class D Notes on the Regulatory Change Event Redemption Date at their then current Note Principal Amount in accordance with the Pre-Enforcement Priority of Payments and that the Class A Notes Interest Amount, the Class B Notes Interest Amount, the Class C Notes Interest Amount and the Class D Notes Interest Amount will be paid in full in accordance with the Applicable Priority of Payments on the Regulatory Change Event Redemption Date.

The Issuer shall apply the Mezzanine Loan Disbursement Amount received from the Lender towards redemption of the Class B Notes to the Class D Notes on the Regulatory Change Event Redemption Date in accordance with the Pre-Enforcement Priority of Payments. For the avoidance of doubt, any Mezzanine Loan Excess Amount shall be paid to the Originator outside the Pre-Enforcement Priority of Payments on the Regulatory Change Event Redemption Date.

Early redemption in case of a Clean-up Call Event

If a Clean-Up Call Event has occurred, the Originator may, upon at least 10 (ten) Business Days prior written notice to the Issuer (with a copy to the Trustee), exercise its option to repurchase all (but not only some) of the Purchased Receivables and Related Collateral at the Repurchase Price, *provided that* all payment obligations under the Class A Notes to the Class D Notes will be thereby fulfilled.

Such repurchase shall be:

- (a) requested in form of the Repurchase Notice;
- (b) be concluded (*abgeschlossen*) no later than two Business Days prior to the Payment Date immediately following such request by entering into a Receivables Sales Agreement; and

- (c) be effected at the Repurchase Price on the Payment Date immediately following receipt of the Repurchase Notice by the Issuer.

The Originator shall pay the Repurchase Price to the Operating Account.

Conditionally upon the receipt by the Issuer of the Repurchase Price and all other payments owed by the Originator and if the Originator is identical to the Servicer, the Servicer to the Issuer, on the Operating Account with discharging effect (*Erfüllungswirkung*), the Issuer shall assign all Repurchased Receivables and assign and transfer the Related Collateral (including the Related Claims and Rights) to the Originator at the Originator's cost.

Such repurchase of the Purchased Receivables will cause an early redemption of the Class A Notes to the Class D Notes, subject to and in accordance with the Pre-Enforcement Priority of Payments. For the avoidance of doubt, the Repurchase Price does not need to be sufficient to repay the Class E Notes, Condition 3.3 (*Limited Recourse*) of the Terms and Conditions applies.

COMPLIANCE WITH STS REQUIREMENTS

The Originator will make available to the investors the STS Notification in accordance with the requirements set out in the Securitisation Regulation.

The compliance of this Transaction with the requirements for simple, transparent and standardised non-ABCP securitisations provided for by Articles 19 to 22 of the Securitisation Regulation (the "**STS Requirements**") will be verified on or before the Closing Date by STS Verification International GmbH, in its capacity as third party verification agent authorised pursuant to Article 28 of the Securitisation Regulation. No assurance can be provided that the Transaction described in this Prospectus does or continues to qualify as an STS-securitisation under the Securitisation Regulation at any point in time in the future. Prospective investors should verify the current status of the Transaction on the European Securities and Markets Authority's website.

The Originator will notify the European Securities and Markets Authority that the Securitisation meets the STS Requirements in accordance with Article 27 of the Securitisation Regulation and such notification will be available under <https://www.esma.europa.eu/policy-activities/securitisation/simple-transparent-and-standardised-sts-securitisation>.

Compliance with the STS Requirements is not a recommendation to buy, sell or hold securities. It is not investment advice whether generally or as defined under Directive 2014/65/EU on markets in financial instruments (as amended, restated or supplemented) ("MiFID II") and it is not a credit rating whether generally or as defined under the Credit Rating Agency Regulation (1060/2009/EC), as amended from time to time.

RETENTION OF NET ECONOMIC INTEREST

The Originator will, whilst any of the Notes remain outstanding retain for the life of the Transaction a material net economic interest of not less than 5 per cent. with respect to the Transaction in accordance with Article 6(3)(c) of the Securitisation Regulation, provided that the level of retention may reduce over time in compliance with Article 10(2) of Commission Delegated Regulation (EU) 2023/2175 of 7 July 2023. For the purposes of compliance with the requirements of Article 6(3)(c) of the Securitisation Regulation, the Originator will retain, in its capacity as originator within the meaning of the Securitisation Regulation, on an ongoing basis for the life of the transaction, such net economic interest through an interest in randomly selected exposures of not less than 5% of the securitised exposures.

Any failure by the Originator to fulfil the obligations under Article 6 of the Securitisation Regulation may cause this Transaction to be non-compliant with the Securitisation Regulation.

None of the Issuer, the Joint Lead Managers, the Arranger or the Originator makes any representation that the measures taken by the Originator aiming for compliance with the risk retention requirements under Article 6 of the Securitisation Regulation (and/or any implementing rules) are or will be actually sufficient for such purposes.

Prospective investors and Noteholders should be aware of Article 5 of the Securitisation Regulation which, among others, requires institutional investors (as defined in the Securitisation Regulation) prior to holding a securitisation position to verify that the originator, sponsor or original lender (each as defined in the Securitisation Regulation) retains on an ongoing basis a material net economic interest in accordance with Article 6 of the Securitisation Regulation and the risk retention is disclosed to the institutional investor in accordance with Article 7 of the Securitisation Regulation.

Each prospective investor and Noteholder is, required to independently assess and determine the sufficiency of the information described in the preceding paragraphs for the purposes of complying with Article 5 et seqq. of the Securitisation Regulation, and none of the Issuer, Originator, the Joint Lead Managers, the Arranger or any other Transaction Party gives any representation or assurance that such information is sufficient for such purposes. In addition, if and to the extent the Securitisation Regulation or any similar requirements are relevant to any prospective investor and Noteholder, such investor and Noteholder should ensure that it complies with the Securitisation Regulation or such other applicable requirements (as relevant). Prospective investors who are uncertain as to the requirements which apply to them in any relevant jurisdiction should seek guidance from the competent regulator.

Each redemption or payment so made will discharge the Issuer's obligations in respect thereof. Any failure to make the entries in the records of the relevant ICSD shall not affect such discharge.

After payment to the Noteholders of their relevant share of such Available Distribution Amount, the obligations of the Issuer to the Noteholders with respect to such Payment Date shall be extinguished in full and neither the Noteholders nor anyone acting on their behalf shall be entitled to take any further steps against the Issuer to recover any further sum.

Any such claims shall be settled only after all current and future claims of the Issuer's other creditors have been settled if and to the extent the Issuer is in a position to settle such claims using future profits (*künftige Gewinne*), any remaining liquidation proceeds (*Liquidationsüberschuss*) or any positive balance of the net assets (*anderes freies Vermögen*) of the Issuer.

3.5 Trustee, Security Assets and Transaction Accounts

- (a) The Issuer has entered into the Trust Agreement with the Trustee pursuant to which the Trustee acts as trustee (*Treuhänder*) and provides certain services for the benefit of the Secured Parties.

 - (iii) have otherwise any direct recourse to the Security Assets and/or the Transaction Accounts,
 except through the Trustee.

4. INTEREST

- (b) Interest on the Notes shall be payable in arrears on each Payment Date.

- (e) in the case of the Class E Notes, the Class E Interest Rate.

4.3 EURIBOR Determination

- (a) As long as no Base Rate Modification Event and no Alternative Base Rate Implementation Date has occurred, the Interest Determination Agent shall determine the EURIBOR for the relevant Interest Period as follows:
 - (i) The Interest Determination Agent shall apply the rate for deposits in euro for a period of one (1) month (with respect to the first Interest Period, the linear interpolation between one month and three months) which appears on page EURIBOR01 of the Reuters screen (or such other page as may replace such page on that service for the purpose of displaying the euro inter-bank offered rate administered by the Banking Federation of the European Union (or any other person which takes over the administration of such rate)) as of 11:00 a.m. (Brussels time) on the relevant Interest Determination Date; or
 - (ii) if the Reuters screen page EURIBOR01 is not available or if no such quotation appears thereon, in each case as at such time, the Interest Determination Agent shall request the principal Euro-zone office of the Reference Banks selected by the Servicer in consultation with the Interest Determination Agent to provide the Interest Determination Agent with its offered quotation (expressed as a percentage rate per annum) for one-month deposits (with respect to the first Interest Period, the linear interpolation between one month and three months) in euro at approximately 11:00 a.m. (Brussels time) on the relevant Interest Determination Date to prime banks in the Euro-zone inter-bank market for the relevant Interest Period and in an amount that is representative for a single transaction in that market at that time. If two or more of the selected Reference Banks provide the Interest Determination Agent with such offered quotations, EURIBOR for such Interest Period shall be the arithmetic mean of such offered quotations (rounded if necessary to the nearest one thousandth of a percentage point, with 0.000005 being rounded upwards). If on the relevant Interest Determination Date fewer than two of the selected Reference Banks provide the Interest Determination Agent with such offered quotations, EURIBOR for such Interest Period shall be the rate per annum which the Interest Determination Agent determines as being the arithmetic mean (rounded if necessary to the nearest one thousandth of a percentage point, with 0.000005 being rounded upwards) of the rates communicated to the Interest Determination Agent by major banks in the Euro-zone, selected by the Issuer (acting on the advice of the Servicer with the Interest Determination Agent consultation), at approximately 11:00 a.m. (Brussels time) on such Interest Determination Date for loans in euro to leading European banks for such Interest Period and in an amount that is representative for a single transaction in that market at that time.
- (b) As long as no Base Rate Modification Event and no Alternative Base Rate Implementation Date has occurred and if the Interest Determination Agent is on any Interest Determination Date unable to determine EURIBOR for the relevant Interest Period in accordance with Condition 4.3(a), EURIBOR for such Interest Period shall be EURIBOR as determined on the previous Interest Determination Date.

4.4 **Alternative Base Rate Determination during the Alternative Base Rate Implementation Period**

If

- (a) a Base Rate Modification Event, but
- (b) no Alternative Base Rate Implementation Date has occurred,

the Interest Determination Agent shall determine EURIBOR for such Interest Period in accordance with Condition 4.3.

4.5 **Alternative Base Rate Determination on or after Alternative Base Rate Implementation Date**

If the Alternative Base Rate Implementation Date has occurred, the interest for the Notes in accordance with this Condition 4 (*Interest*) will be calculated on the basis of the Alternative Base Rate as notified by the Issuer pursuant to Condition 16.3(i).

4.6 **Interest Amount**

- (a) The Interest Amount payable on each Note for the immediately following Interest Period shall be calculated by the Interest Determination Agent by multiplying the relevant Interest Rate for the relevant Interest Period by the Day Count Fraction and by the relevant Note Principal Amount (as outstanding at the beginning of the relevant Interest Period or, in case of the first Interest Period, the Closing Date) as determined by the Interest Determination Agent.
- (b) The aggregate Interest Amount payable on each Class of Notes shall be equal to the Interest Amount payable per Note (as determined in accordance with Condition 4.6(a) above) multiplied by the number of Notes of the respective Class of Notes. Such aggregate Interest Amount shall be calculated by the Cash Administrator.

4.7 **Interest Shortfall**

- (a) To the extent the Issuer has insufficient funds to pay in full all amounts of interest payable on the Notes on any Payment Date in accordance with the Applicable Priority of Payments, no further payment of interest on the respective Class of Notes or Classes of Notes shall become due and payable and the claim of a Noteholder to receive such Interest Shortfall will be deferred in accordance with Condition 4.7(b) below, unless the Issuer does not have sufficient funds for the payment of interest on the Class A Notes on such Payment Date in which case any interest payable on the Notes is due and payable pursuant to the Post-Enforcement Priority of Payments.
- (b) Interest Shortfall shall become due on the next Payment Date or any following Payment Date on which, and to the extent that, sufficient funds are available to pay such Interest Shortfall in accordance with the Applicable Priority of Payments until it is reduced to zero, subject to Condition 3.3 (*Limited Recourse*).
- (c) Interest shall not accrue on Interest Shortfall at any time.

4.8 **Notification of Interest Rate and Interest Amount**

The Paying Agent notifies the aggregate Interest Amount of all Class A Notes, Class B Notes, Class C Notes, Class D Notes and Class E Notes, the Interest Amount payable on each Note, interest amounts deferred pursuant to Condition 4.7(a) and the relevant Payment Date to the Issuer, the Servicer and the Cash Administrator, as well as the Noteholders and, if required by the rules of any stock exchange on which any of the Notes are from time to time listed, to such stock exchange promptly after their determination, but in no event later than on the first day of the relevant Interest Period.

4.9 **Determinations Binding**

All certificates, communications, opinions, determinations, calculations, quotations and decisions given, expressed, made or obtained for the purposes of the provisions of this Condition 4 by the

Paying Agent or the Interest Determination Agent shall (in the absence of manifest error) be binding on the Issuer, the Paying Agent, the Interest Determination Agent and the Noteholders.

4.10 **Default Interest**

Default interest will be determined in accordance with this Condition 4. Section 288 paragraph 1 BGB is hereby derogated, to the extent it limits this Condition 4.10 (*Default Interest*). This does not affect any additional rights that may be available to the Noteholders.

Principal will be rounded down to the nearest EUR 0.01. Any amount of principal and interest rounded in accordance with the foregoing shall be used on the relevant Payment Date. Any surplus of such rounding shall be credited to the Operating Account and carried over to the following Payment Date. For the avoidance of doubt any surplus of rounding will not form part of the Available Distribution Amount on the Payment Date on which such rounding has been made rather than on the following Payment Date.

5.2 **Discharge**

- (a) The Issuer shall be discharged by payment to, or to the order of, the relevant ICSD.
- (b) The Issuer and the Paying Agent may call and, except in the case of manifest error, shall be at liberty to accept and place full reliance on, as sufficient evidence thereof, a certificate or letter of confirmation issued on behalf of the relevant ICSD or any form of record made by it to the effect that at any particular time or throughout any particular period any particular Person is, was, or will be shown in the records of the relevant ICSD as a Noteholder of a particular Note.

5.3 **Business Day Convention**

Each Payment Date shall be determined subject to the Business Day Convention.

5.4 **No Right in Loan Agreement**

The ownership of a Note does not confer any right to, or interest in, any Loan Agreement or any right against any Debtor nor any third party under or in connection with the Loan Agreements or against the Originator or the Servicer.

6. **DETERMINATIONS BY THE CASH ADMINISTRATOR**

6.1 The Cash Administrator has been appointed by the Issuer to calculate (on behalf of the Issuer and in accordance with the Cash Administration Agreement) on each Calculation Date, *inter alia*, the Available Distribution Amount or the Issuer Proceeds, as applicable, as at such date for application of payments and the amounts to be paid according to the Applicable Priority of Payments on the Payment Date immediately following such Calculation Date.

6.2 All amounts payable under the Notes and determined by the Cash Administrator for the purposes of these Terms and Conditions shall, in the absence of manifest error, be final and binding.

7. AMORTISATION

- 7.1 The Issuer will redeem the Notes subject to the Available Distribution Amount or the Issuer Proceeds, as applicable and in accordance with the relevant Priority of Payments.
- 7.2 If on any Calculation Date the Servicer or any Substitute Servicer (as applicable) has not provided the Cash Administrator with the Investor Report, and on the Calculation Date the Cash Administrator cannot calculate the amount of principal to be redeemed, the Issuer will not redeem the Notes on the relevant Payment Date. For the avoidance of doubt, in such case only the redemption of the Notes is suspended and all other payments to be made in accordance with Condition 8 (*Priorities of Payments*) will be effected.
- 7.3 The Issuer will continue to redeem the Notes in accordance with Condition 7.1 from the Payment Date in relation to which such Servicer or Substitute Servicer, as the case may be, has provided the Cash Administrator with the Investor Report on the Calculation Date immediately preceding such Payment Date.

8. PRIORITIES OF PAYMENTS

8.1 Pre-Enforcement Priority of Payments

Prior to the Enforcement Conditions being fulfilled, the Issuer will distribute the Available Distribution Amount on each Payment Date towards the discharge of the claims of the Noteholders and the other creditors of the Issuer in accordance with the following priorities of payments (in each case, only if and to the extent that payments or provisions of a higher priority have been made in full):

and delivers a copy of each such confirmation to the Trustee immediately upon receipt of such written confirmation;

8. THE SUBSCRIPTION AGREEMENT

Under the Subscription Agreement entered into by the Issuer and the Joint Lead Managers on or about the Signing Date, each Joint Lead Manager severally and not jointly (*nicht als Gesamtschuldner*) agrees to subscribe for the Notes. See "**SUBSCRIPTION AND SALE**".

9. THE SWAP AGREEMENT

9.1 General

- (a) On or prior to the Closing Date, the Issuer will enter into a Swap Agreement with the Swap Counterparty under an International Swaps and Derivatives Association Inc. 2002 ISDA Master Agreement in order to address certain risks arising as a result of a fixed rate of interest payable under the Purchased Receivables and the floating rate of interest payable by the Issuer under the Notes.

At the commencement of each relevant period in respect of the hedging transaction under the Swap Agreement, the notional amount of the hedging transaction will be equal to the Aggregate Note Principal Amount of all Classes of Notes. The initial notional amount of such hedging transaction will equal EUR 650,000,000.

- (b) Pursuant to the terms of the Swap Agreement, on each Payment Date commencing on the first Payment Date and ending on the date on which the Notes are redeemed in full, the Issuer will make fixed rate payments to the Swap Counterparty in Euro which the Issuer will fund using payments which it receives from the Purchased Receivables. The Swap Counterparty will, on the same Payment Date, make floating rate payments in Euro (calculated by reference to one-month EURIBOR (or in the respect of the first Interest Period the relevant linear interpolation)) to the Issuer. The fixed and floating amounts payable by the Issuer and the Swap Counterparty under the Swap Agreement will be netted so that only a net amount will be due from the Issuer or the Swap Counterparty (as the case may be) on a Payment Date.
- (c) If the floating rate payable under the Swap Agreement is negative, the Issuer would not receive floating rate interest but would be obliged to pay floating rate interest (in addition to

fixed rate interest) to the Swap Counterparty under the swap transactions based on the absolute value of the floating rate and the relevant notional amount.

- (d) The Swap Agreement is governed by English law.

9.2 Termination rights and payments

- (a) The Swap Agreement may be terminated in limited circumstances. Any such termination may oblige the Issuer or the Swap Counterparty to make a termination payment. Any Replacement Swap Premium (or part thereof) that is applied directly to pay a Swap Termination Payment to the outgoing Swap Counterparty following the termination of the Swap Agreement will be paid to such outgoing Swap Counterparty and will not be made available to the Secured Parties.
- (b) If the Issuer does not satisfy its payment obligations under the Swap Agreement, this will constitute a default by the Issuer thereunder and will entitle the Swap Counterparty to terminate the Swap Agreement.
- (c) Upon the occurrence of certain events in respect of the Issuer, the Swap Counterparty will have the right to terminate the Swap Agreement in accordance with its terms.

9.3 Security and ranking

The Issuer's obligations to the Swap Counterparty under the Swap Agreement will be secured under the Security Assignment Deed. In the event of the Security Assets being enforced thereunder, such obligations (other than Subordinated Swap Amounts) will rank ahead of payments in respect of the Notes.

9.4 Withholding Tax

All payments to be made by a party under the Swap Agreement are to be made without withholding or deduction for or on account of any tax unless such withholding or deduction is required by applicable law (as modified by the practice of any relevant tax authority). Each of the Issuer and the Swap Counterparty will represent on entering into the Swap Agreement that it is not obliged to make any such deduction or withholding under current taxation law and practice (save in respect of certain payments of interest and deliveries, transfers and payments to be made pursuant to the credit support annex to the Swap Agreement). If, as a result of a change in law (or the application or official interpretation thereof), the Issuer is required to make such a withholding or deduction from any payment to be made to the Swap Counterparty under the Swap Agreement, the Issuer will not be obliged to pay any additional amounts to such Swap Counterparty in respect of the amounts so required to be withheld or deducted. If the Swap Counterparty is required to make such a withholding or deduction from any payment to the Issuer under the Swap Agreement, it shall pay to the Issuer such additional amount as is necessary to ensure that the net amount actually received by the Issuer will equal the full amount the Issuer would have received had no such deduction or withholding been required. The party receiving a reduced payment or that is required to make an additional payment, as the case may be, will have the right to terminate the Swap Agreement (subject to the Swap Counterparty's obligation to use all reasonable efforts (provided that such efforts will not require the Swap Counterparty to incur a loss, excluding immaterial, incidental expenses) to transfer its rights and obligations under the Swap Agreement to another of its offices or Affiliates such that payments made by or to that office or Affiliate under the Swap Agreement can be made without any withholding or deduction for or on account of tax). If a transaction under the Swap Agreement is terminated, the Issuer may be unable to meet its obligations under the Notes in full, with the result that the Noteholders may not receive all of the payments due to them in respect of the Notes.

9.5 Governing Law and Jurisdiction

- (a) The Swap Agreement and any non-contractual obligation arising out of or in connection therewith, are governed by, and shall be construed in accordance with, English law.
- (b) Any dispute which may arise in relation to the interpretation or the execution of the Swap Agreement, or any non-contractual obligation arising out of or in connection therewith, shall be subject to the courts of England and Wales.

After the exercise of the option to advance the Mezzanine Loan to the Issuer, the Lender shall be under no obligation to make any further disbursements with respect to the Mezzanine Loan in accordance with the Mezzanine Loan Agreement.

- (b) The exercise of the option of the Lender to disburse the Mezzanine Loan in an amount equal to the Mezzanine Loan Disbursement Amount shall be conditional upon satisfaction of the following requirements:
- (i) The Lender has provided the Issuer (with a copy to the Trustee) with a Regulatory Change Event Notice, setting out the intention to exercise its option to advance the Mezzanine Loan on the respective Payment Date and specifying the Regulatory Change Event Redemption Date;
 - (ii) the Mezzanine Loan Disbursement Amount to be provided to the Issuer, which will, form part of the Available Distribution Amount, will result in an amount available to the Issuer being at least sufficient to redeem the Class B Notes to the Class D Notes outstanding on the Regulatory Change Event Redemption Date at their then current Note Principal Amount in accordance with the Pre-Enforcement Priority of Payments, whereby the Issuer agrees to apply the Mezzanine Loan Disbursement Amount received from the Lender towards redemption of the Class B Notes to the Class D Notes on the Regulatory Change Event Redemption Date in accordance with the Pre-Enforcement Priority of Payments; and
 - (iii) the Class A Notes Interest Amount, the Class B Notes Interest Amount, the Class C Notes Interest Amount and the Class D Notes Interest Amount will be paid in full in accordance with the Pre-Enforcement Priority of Payments on the Regulatory Change Event Redemption Date.
- (c) To the extent a Mezzanine Loan Excess Amount exists on the Regulatory Change Event Redemption Date, such Mezzanine Loan Excess Amount shall be paid to the Originator outside the Pre-Enforcement Priority of Payments on the Regulatory Change Event Redemption Date. The Issuer and the Originator may also separately agree to net the Mezzanine Loan Disbursement Amount with the Mezzanine Loan Excess Amount, if any.

10.2 Repayment; Termination

On each Payment Date, the Issuer shall pay interest on, and repay principal of, the outstanding Mezzanine Loan to the Lender in the amount of the Mezzanine Loan Redemption Amount until the Mezzanine Loan is reduced to zero, subject to the Available Distribution Amount or the Issuer Proceeds, as applicable, and the Applicable Priority of Payments. Any amount then outstanding under the Mezzanine Loan shall be repaid on the Legal Maturity Date, subject to the Available Distribution Amount or the Issuer Proceeds, as applicable, and the Applicable Priority of Payments and any further amounts then still outstanding under this Agreement relating to the Mezzanine Loan shall be extinguished.

11. THE SECURITY ASSIGNMENT DEED

Under the English law Security Assignment Deed, all rights and interests of the Issuer under the Swap Agreement, but without prejudice to and after giving effect to any netting and set-off provisions specified therein, have been assigned to the Trustee.

WEIGHTED AVERAGE LIFE OF THE NOTES

1. GENERAL

The yield to maturity on each Class of Notes will be affected by the amount and timing of delinquencies and default on the Purchased Receivables. Furthermore, the ability of the Issuer to redeem in full each Class of Notes on the Legal Maturity Date will be affected by the delinquencies and defaults on the Purchased Receivables.

2. EXPECTED WEIGHTED AVERAGE LIFE OF THE NOTES

The expected weighted average life of the Notes refers to the average amount of time that will elapse from the Closing Date of the Notes to the date of distribution of amounts of principal to the Noteholders. The weighted average life of the Notes will be influenced by, amongst other things, the rate at which the Purchased Receivables are repaid or reduced, which may be in the form of scheduled amortisation, prepayments or defaults. Calculated estimates as to the expected weighted average life of each Class of Notes can be made based on certain assumptions. These estimates have certain inherent limitations. No representations are made that such estimates are accurate, that all assumptions relating to such estimates have been considered or stated or that such estimates will be realised.

The table below shows the expected weighted average life of each Class of Notes based on, *inter alia*, certain assumptions as described in the following:

- (a) the Purchased Receivables are subject to a constant annual rate of principal prepayments as set out in the below table;
- (b) the Notes are issued on 17 April 2024;
- (c) the Payment Date for interest and principal under the Notes is assumed to be always the 21st day of each calendar month commencing on 21 May 2024;
- (d) no Purchased Receivables are repurchased by the Originator;
- (e) the Purchased Receivables are fully performing and do not show any delinquencies or defaults; for the avoidance of doubt, none of the Purchased Receivables is affected by payment suspensions under the COVID 19 legislation;
- (f) the weighted average Loan Interest Rate of the Purchased Receivables is 6.10% p.a. and the sum of
 - (i) the weighted average coupon of the Notes,
 - (ii) a servicing fee;
 - (iii) the fixed rate under the Swap Agreement; and
 - (iv) the senior expenses,is assumed to be 4.06% p.a. of the Aggregate Principal Balance applying the Day Count Fraction and constant;
- (g) zero per cent investment return is earned on the Transaction Accounts
- (h) the clean-up call is exercised at 10 per cent.

The approximate weighted average lives and principal payment windows of each Class of Notes, at various assumed annualised rates of prepayment of the Purchased Receivables, would be as follows (with "CPR" being the constant prepayment rate per annum):

CPR	Class A			Class B			Class C			Class D			Class E		
in % p.a.	WAL (in yrs)	Principal Payment Window		WAL (in yrs)	Principal Payment Window		WAL (in yrs)	Principal Payment Window		WAL (in yrs)	Principal Payment Window		WAL (in yrs)	Principal Payment Window

Assumption (a) above is stated as an average annualised prepayment rate as the prepayment rate for one Interest Period may be substantially different from that for another. The constant prepayment rates shown above are purely illustrative and do not represent the full range of possibilities for constant prepayment rates.

Assumptions (c) to (h) above relate to circumstances which are not predictable.

The exact weighted average life of each Class of Notes cannot be predicted as the actual rate at which the Purchased Receivables will be repaid and a number of other relevant factors are unknown.

The weighted average lives of each Class of Notes are subject to factors largely outside the control of the Issuer and consequently no assurance can be given that the assumptions and the estimates above will prove in any way to be realistic and they must, therefore, be viewed with considerable caution.

Furthermore, it should also be noted that the calculation of the approximate average lives of the Notes as made herein and as made by the provider of the cash flow model pursuant to Article 22(3) of the Securitisation Regulation might deviate from each other due to different calculation methods used herein (for the purpose of calculating the Weighted Average Life of the Notes) and the provider of the cash flow model (for the purpose of Article 22(3) of the Securitisation Regulation).

Assumed Amortisation of the Purchased Receivables if Clean-Up Call option is exercised

This amortisation scenario is, *inter alia*, based on the assumptions (a),(d),(e), (g) and (h) listed above under weighted average life of the Notes and is assuming a CPR p.a. of 0 per cent. It should be noted that the actual amortisation of the Purchased Receivables may differ substantially from the amortisation scenario indicated below.

CREDIT AND COLLECTION POLICY

The following is an overview of the current version of the Credit and Collection Policy of Bank11 which must be complied in respect of the servicing of the Purchased Receivables and the Related Collateral by the Servicer in accordance with the Servicing Agreement.

The Servicer may not modify the Credit and Collection Policy, other than in case:

- (a) it is required by law of any governmental body or regulatory authority; or
- (b) such changes would be adopted by a reasonably prudent operator of a vehicle financing business and they do not adversely affect the Issuer in relation to the Purchased Receivables; or
- (c) the Issuer has given its prior written consent (acting in the interest of the Noteholders).

The Rating Agencies shall be notified by the Servicer of any amendment to or alteration or modification of the Credit and Collection Policy without undue delay (*ohne schuldhaftes Zögern*).

1. DESCRIPTION OF GENERAL RISK STRATEGY AND CREDIT POLICY

Bank11 is mainly focused on private employees, additionally self-employed, freelancer and corporate debtors for which Bank11 offers loans to finance vehicles (either through sales partners or directly). Each customer should have a sustainable solvency, which will be analysed during the credit decision process. All loan applications will be processed and assessed by an automated credit decision tool. The system is modular providing automated credit decisions based on scorecards and rule sets, which consider amongst others the information retrieved from credit bureaus, the result of a payback capability calculation, historical data on payment history of customer and documents to legitimate their status as freelancer or corporation and to give proof of sufficient future liquidity for self-employed, freelancer or corporate debtors.

1.1 Sources of Information

The sources to determine the solvency of the customer is credit bureau information, payback capability calculation and scoring.

(a) Credit Bureau Information

Schufa Holding AG is a source of creditor information for Bank11 when assessing the credit history of individuals, i.e. private debtors and self-employed debtors or freelancer. Apart from a specific customer score reflecting the expected probability of default of the customer, Schufa Holding AG provides Bank11 electronically with information about existing loan and leasing agreements, bank accounts, previous defaults, insolvency proceeding or declarations of insolvency.

(b) Creditreform AG

Creditreform AG is a source of creditor information for Bank11 assessing corporate debtors and an additional source for assessing self-employed debtors and freelancers. Creditreform AG provides Bank11 electronically with a credit score reflecting the expected probability of default of the customer, information about, previous defaults, insolvency proceeding or declarations of insolvency as well as basic information about the enterprise like economic sector, date of foundation, number of employees and basic balance sheet and P&L indicators.

1.2 Payback capability calculation

The payback capability calculation for private debtors is based on information about running accounts (liabilities, instalment, ...) collected by the Schufa, the available income stated by the customer and later verified by salary slips as requested by Bank11 and customer statements on marital status,

number of dependent children. The payback capability calculation finally results in indicators like Debt-to-Income, Instalment-to-Income and the total Disposable Income.

The payback capability calculation for corporate debtors is based on bureau information and if necessary documents provided by the customer (balance sheet, P&L, ...).

1.3 Credit Decision

The output of the Decision Engine is a decision code, which is either green, grey or red. The automated credit decision is limited to a certain maximum loan amount; loan amounts which might exceed pre-defined limits have to be processed manually:

(a) **Green result**

In case of a green decision the credit application will be automatically approved. In accordance with this automated process only standard financing contracts under German law are concluded.

(b) **Red result**

In case of a red result the automatic credit decision is negative. However, under strict conditions defined and monitored by Risk Management, an automatic reject can be accepted in a manual process (override decision).

(c) **Grey result**

A grey result occurs in cases, where a) the machine is not allowed to take the credit decision (which is e.g. the case for risk relevant issues that need to be processed manually or when the competency level of the machine is exceeded) or b) an automatic credit decision cannot be taken due to missing, erroneous or implausible data or for transaction that are only assessed but not finally decided by the automatic credit decision, like specific cases of applications from corporate debtors.

In these cases, the application has to be processed and decided manually in accordance with written organisational guidelines and the credit competency structure. All data has to be re-validated to avoid any erroneous data entries. The credit decision will then be taken manually according to the respective competence level of the responsible employee. All competence levels are supervised automatically by Bank11's IT-system.

In case of an approval in green, the credit decision is communicated to the sales partner (car dealers or cooperation partners) or customer automatically by the application system. In any other case (including rejects) the sales partner or customer will be informed by an employee of Bank11.

1.4 Required documents, data verification and settlement

(a) In case of an approval, the sales partner or the customer is obliged to provide the bank with documents necessary for a) the verification of the data entered during the application process and b) the legal, valid, binding and enforceable settlement of the contract, i.e. the handwritten or electronically signed contract, an evidence for the identification of the customer via identification of the customer by the sales partner or via online ID identification or via identity check e.g. at the post office, and if required and requested due to certain criteria which ensure the customer's creditworthiness and reliability, income documents (salary slips, statement of account, online account check etc.) and, subject to clause 1.4(f), a proof of the Car Registration either in form of a copy or as original.

(b) After having received the full set of the aforementioned documents, all information entered during the application process are validated, including address checks based on the copy of the debtors identity card or from online ID identification or from the identity check e.g. at the post office, verification of income information, verification of the car specification, etc. In case of significant deviations beyond pre-defined tolerances, the approval is suspended and the sales partner or customer is contacted to clarify the situation. In any of these cases the decision process is re-started.

- (c) Triggered by an inhouse fraud score card or pre-defined and permanently updated fraud patterns, Risk Management executes additional fraud checks, like in-depth document checks for detecting counterfeits and discrete requests to verify the employment status and the employer of the customer.
- (d) Based on the final and verified customer data Risk Management executes AML data matching processes with sanction lists and politically exposed persons. In case of matches, the application is passed to the AML office for further processing.
- (e) Once the application passed the checks and verifications, it is finally booked and the requested loan amount is paid out to the sales partner and customer.
- (f) In case of loans not originated through car dealers, debtors are obliged to send either a copy or the original (as requested by Bank11) of the Car Registration to Bank11 within 8 weeks after the requested loan amount is paid out.
- (g) If Bank11 has requested the original Car Registrations from the customer, Bank11 will either store and administer the Car Registrations in its own premises or delegate the storage and administration to a third party. To the extent Bank11 delegates the storage and administration of the Car Registrations to a third party, Bank11 will ensure that the third party will store and administer the Car Registrations at least with the same standards as Bank11 does.
- (h) The team taking the credit decision and the team performing the data verification and settlement are strictly separated, i.e. technical and organisational measures prevent the decision taker to validate and book the application.

1.5 Follow-Up Credit Decision

- (a) A customer might wish the refinancing of a repayment claim after the elapse of the initial term of a balloon loan. In such case, Bank11 will make a new and separate credit decision. The analysis for such credit decision is based, inter alia, on
 - (i) the previous customer's performance (including return debit, missed payments, forbearance measures); and
 - (ii) an update of the relevant bureau information.
- (b) The process will follow the steps described below:
 - (i) The customer will apply for a prolongation.
 - (ii) If the prolongation is rejected, the initial contract including the initial term remains unchanged. The balloon instalment is due as initially agreed. If the prolongation is approved, Bank11 will grant a new loan to the customer which leads to the repayment of the existing loan.

2. DESCRIPTION OF COLLECTION POLICY

2.1 Servicing

The department customer centre consists of four teams which are taking care of the debtors' requests, the inbound calls from sales partners and debtors as well as the post and scanning work and the vehicle title administration.

The main tasks of the customer centre are the processing of all vehicle loans and also direct loans on Bank11's IT system as well as the processing of written and telephone transactions for example the change of address or bank account details, prepayment requests from the customer, change of payment dates, all kind of insurance matters and the correspondence with lawyers, debt consultants and legal representatives.

2.2 Collection Management

The key principles and goals of the collection management are to minimise risks and damages due to bad debt. This is realised by close customer contact, early response on customer requests, a straight dunning process and various risk minimising measures within intensive care process and bad debt management including bad debt sales.

2.3 Payments

Bank11 employs an IT-system to service the different Loan Agreements. Payments consist of either regular, scheduled monthly instalments or prepayments (partially or full) and are paid on an account of the Originator. Standard due dates are the 1st and the 15th of each calendar month. Bank11 monitors the payments on a daily basis, in particular the return of direct debit notes and any overdue instalments. In both circumstances the Debtors will be immediately contacted by Bank11.

2.4 Collateral Management

Collection management (and for accounts not in arrears, the customer centre) manages the assignments of insurance claims to ensure substantial collaterals. In case of a total loss of the collateral (*Totalschaden*) the Debtor and/or the debtors vehicle insurance has to repay the loan.

Also, life insurance claims are managed, if the Debtor has passed away and the loan is secured by an adequate insurance.

If the loan is fully redeemed, the Servicer will release the related Security Assets and, if applicable, will arrange the return of the original Car Registrations to the Debtor.

The Servicer may release Security Assets in part or in full if it reasonably considers such release necessary or convenient according to the provisions of the corresponding Loan Agreement.

2.5 Dunning Procedures

The dunning procedure of Bank11 is processed via the SAS based data warehouse.

In case of a returned direct debit, a dunning letter is sent manually to the Debtor, requesting to immediately transfer the money and that otherwise another direct debit will shortly be initiated.

If this direct debit is also returned, another dunning letter is sent. Another 14 days later, the next dunning letter will be sent and/or the staff of the Collection management start their measures.

If despite the measures taken the arrears increase, the termination of the Loan Agreement is legitimated in accordance with German civil law and the corresponding Loan Agreement.

In case of private Debtors, this includes that

- (a) the Debtor failed to pay two consecutive instalments in whole or in part and the total amount overdue exceeds 10% of the original loan amount in case the original loan maturity has been 3 years or less, or
- (b) the Debtor failed to pay two consecutive instalments in whole or in part and the total amount overdue exceeds 5% of the original loan amount in case the original loan maturity has been more than 3 years.

In case of commercial Debtors, this is *inter alia* the case if

- (c) the customer failed to pay two consecutive instalments.

A thread of termination with a 14 days respite is the last legal requirement, before the termination then is conducted.

In case of Debtor's insolvency Bank11 regularly sends out the notice of termination to the Debtor immediately. In particular cases, the terms of the loan might remain outstanding instead of the loan

being terminated, if the Debtor and/or his insolvency administrator have proofed his willingness and also his ability to pay the future instalments. This only occurs in single cases and only, if the aggregate amount of collections to be received is expected to be higher than the amount that would be collected after immediate cancellation.

2.6 Sustainable Cure of Delinquent Debtors

If necessary and appropriate the Servicer grants individual restructuring measures for costumers with current or foreseeable financial difficulties (Forbearance), namely deferral as short-term measure, temporary instalment reduction as mid-term measure and general instalment reduction as long-term measure. Any of these forbearance measures require an explicit credit decision, taken either automatically or individually by the departments Risk Management or Collection Management, both in the back office (Marktfolge).

From short-term to long-term, the Forbearance measures are underlying ascending preliminary requirements, like the debtors willingness as shown by previous performance and credit history and ability as shown by bureau information and assessment of his current or future financial situation.

Deferrals and temporary instalment reductions are performed within the original account. General instalment reductions require a new contract, that is properly assigned in a predecessor/successor-relation to the original contract. Only for general instalment reductions Bank11 may reduce the interest rate in order to gain the required reduction of the monthly instalments.

Any of the aforementioned Forbearance measures result in an extension of the original loan term. The new maturity date due to Forbearance measures is limited to a date which is less than 180 days prior to the Legal Maturity Date.

3. REMARKETING AND ENFORCEMENT OF RELATED COLLATERAL

In case of a Defaulted Receivable the Related Claims and Rights and the Related Collateral have to be enforced. If there are several collaterals the Servicer may freely choose, until the debt claim is settled and, in any case, considering all legal obligations.

3.1 Enforcement of Security Assignments

The enforcement of assigned claims and rights under the Loan Agreements may be enforced in accordance with German civil law and German law of civil procedure.

3.2 Repossession and Remarketing

The repossession, remarketing and debt collection is done by cooperation partners based on bilateral agreements.

For debt collection and repossession of vehicles, Bank11 works with a company specialised in debt collection and/or vehicles transportation. If the Debtor does not voluntarily return the vehicle, it has to be collected from the Debtor with legal assistance or court order.

After the successful repossession of the vehicle, the value of the vehicle will be assessed by a company specialised in vehicle assessments and then forwarded to a company specialised on car auctions, for the purpose of remarketing the vehicle via a pan-European online auction process.

Based on the vehicle valuation made by a company specialised in vehicle assessments, the Servicer will determine a minimum price for the vehicle. In cases where the sale of the vehicle is economically reasonable, the remarketing process will be initiated and the vehicle is sold at the highest bid. After a successful remarketing the contract will be cleared and a potential residual amount will be claimed to the Debtor by Bank11, sometimes involving a law firm.

3.3 Bad Debt Sales

After contract termination and vehicle repossession but prior to a loan write-off, the Servicer is entitled to sell the defaulted loans to bad debt collection agencies. Recoveries from bad debt sales will be allocated in full against the corresponding defaulted loan account.

In cases, where a bad debt sale is not possible (e.g. for legal reasons, like private bankruptcy, or due to exclusions derived from the contract with the debt purchaser) or is not reasonable, Bank11 realises the loss by write-off.

RATINGS OF THE RATED NOTES

The Class A Notes are expected to be rated AAAsf by Fitch and AAA(sf) by S&P.

The Class B Notes are expected to be rated AAsf by Fitch and A(sf) by S&P.

The Class C Notes are expected to be rated Asf by Fitch and BBB+(sf) by S&P.

The Class D Notes are expected to be rated BBB+sf by Fitch and BB+(sf) by S&P.

The Class E Notes are not expected to be rated.

It is a condition of the issue of the Notes that the Class A Notes receive the above indicated rating.

The rating of "AAAsf" is the highest rating Fitch assigns to structured finance long term debt. The rating of "AAA(sf)" is the highest rating S&P Global assigns to structured finance securities.

Meaning of Ratings

Rating	Rating Agency	Meaning
AAAsf	Fitch	'AAA' ratings denote the lowest expectation of default risk. They are assigned only in cases of exceptionally strong capacity for payment of financial commitments. This capacity is highly unlikely to be adversely affected by foreseeable events.
AAA(sf)	S&P Global	An obligation rated 'AAA' has the highest rating assigned by S&P Global Ratings. The obligor's capacity to meet its financial commitment on the obligation is extremely strong.
AAsf	Fitch	'AA' ratings denote expectations of very low default risk. They indicate very strong capacity for payment of financial commitments. This capacity is not significantly vulnerable to foreseeable events.
A(sf)	S&P Global	An obligation rated 'A' by S&P Global Ratings is somewhat more susceptible to the adverse effects of changes in circumstances and economic conditions than obligations in higher-rated categories. However, the obligor's capacity to meet its financial commitment on the obligation is still strong.
Asf	Fitch	'A' ratings denote expectations of low default risk. The capacity for payment of financial commitments is considered strong. This capacity may, nevertheless, be more vulnerable

		to adverse business or economic conditions than is the case for higher ratings
BBB+(sf)	S&P Global	An obligation rated 'BBB' by S&P Global Ratings exhibits adequate protection parameters. However, adverse economic conditions or changing circumstances are more likely to lead to a weakened capacity of the obligor to meet its financial commitment on the obligation
BBB+sf	Fitch	'BBB' ratings indicate that expectations of default risk are currently low. The capacity for payment of financial commitments is considered adequate, but adverse business or economic conditions are more likely to impair this capacity
BB+(sf)	S&P Global	An obligation rated 'BB' by S&P Global Ratings is less vulnerable to nonpayment than other speculative issues. However, it faces major ongoing uncertainties or exposure to adverse business, financial, or economic conditions which could lead to the obligor's inadequate capacity to meet its financial commitment on the obligation.

The Rating Agencies' rating reflects only the view of that Rating Agency.

The Rating Agencies' rating for the Class A Notes addresses the timely payment of interest and the ultimate payment of principal.

The rating of the Rating Agencies takes into consideration the characteristics of the Portfolio the likelihood of principal prepayments and the current structural, legal, tax and Issuer-related aspects associated with the Notes. The Rated Notes will have the benefit of the Security Assets securing the Trustee Claim.

A security rating is not a recommendation to buy, sell or hold securities and may be subject to revision or withdrawal by the Rating Agencies at any time. If the ratings initially assigned to any Rated Notes by the Rating Agencies are subsequently withdrawn or lowered for any reason, no person or entity is obliged to provide any additional support or credit enhancement with respect to such Rated Notes.

The Issuer has not requested a rating of the Rated Notes by any rating agency other than the rating of the Rated Notes by the Rating Agencies; there can be no assurance, however, as to whether any other rating agency will rate the Rated Notes or, if it does, what rating would be assigned by such other rating agency. The rating assigned to the Rated Notes by such other rating agency could be lower than the respective ratings assigned by the Rating Agencies.

The Issuer has considered appointing at least one credit rating agency with no more 10 per cent of the total market share as requested by Article 8d CRA3.

TAXATION

The information contained in this Section is not intended as tax advice and does not purport to describe all of the tax considerations that may be relevant to a prospective investor in the Notes. Potential investors in the Notes are urged to satisfy themselves as to the overall tax consequences of purchasing, holding and/or selling the Notes.

1. GERMANY

The following overview does not consider all aspects of income taxation in the Federal Republic of Germany ("**Germany**") that may be relevant to a holder of the Notes in the light of the holder's particular circumstances and income tax situation. The overview applies to investors holding the Notes as private investment assets (except where explicitly stated otherwise) and is not intended to be, nor should it be construed to be, legal or tax advice. This discussion is based on German tax laws and regulations, all as currently in effect (except where explicitly stated otherwise) and all subject to change at any time, possibly with retroactive effect. Prospective holders should consult their own tax advisers as to the particular tax consequences to them of subscribing, purchasing, holding and disposing of the Notes, including the application and effect of state, local, foreign and other tax laws and the possible effects of changes in the tax laws of Germany.

2. TAXATION OF NOTEHOLDERS

2.1 German Resident Noteholders

Interest Income

- (a) If the Notes are held as private assets (*Privatvermögen*) by an individual investor whose residence or habitual abode is in Germany, payments of interest under the Notes are taxed as investment income (*Einkünfte aus Kapitalvermögen*) at a 25 per cent flat tax (*Abgeltungsteuer*) (plus a 5.5 per cent solidarity surcharge thereon and, if applicable to the individual investor, church tax).
- (b) The flat tax is generally collected by way of withholding (see succeeding paragraph – Withholding tax on Interest Income) and the tax withheld shall generally satisfy the individual investor's tax liability with respect to the Notes. If, however, no (or insufficient) tax was withheld the investor will have to include the income received with respect to the Notes in its income tax return and the flat tax will then be raised by way of tax assessment. The investor may also opt for tax assessment of its investment income in its income tax return if the aggregated amount of tax withheld on investment income during the year exceeded the investor's aggregated flat tax liability on investment income (for example because of an available loss carry forward or a foreign tax credit). If the investor's total income tax liability on all taxable income including the investment income determined by generally applicable graduated income tax rates is lower than 25 per cent, the investor may opt to be taxed at graduated rates with respect to its investment income.
- (c) Individual investors are entitled to a tax allowance (*Sparer-Pauschbetrag*) for investment income of EUR 1,000.00 per year (EUR 2,000.00 for jointly assessed investors). The tax allowance is taken into account for purposes of the withholding tax (see succeeding paragraph – Withholding tax on Interest Income) provided that the investor files a withholding tax exemption request (*Freistellungsauftrag*) with the respective bank or financial institution where the securities deposit account to which the Notes are allocated is held. The deduction of related expenses for tax purposes is not possible.
- (d) If the Notes are held as business assets (*Betriebsvermögen*) by an individual or corporate investor who is tax resident in Germany (i.e. a corporation with its statutory seat or place of management in Germany), interest income from the Notes is subject to personal income tax at graduated rates or corporate income tax (each plus solidarity surcharge thereon and for individuals eventually church tax) and trade tax. The trade tax liability depends on the applicable trade tax factor of the relevant municipality where the business is located. In case of individual investors the trade tax may, however, be partially or fully creditable against the investor's personal income tax liability depending on the applicable trade tax factor and the

investor's particular circumstances. The interest income will have to be included in the investor's personal or corporate income tax return. Any German withholding tax (including surcharges) is generally fully creditable against the investor's personal or corporate income tax liability or refundable, as the case may be.

Withholding Tax on Interest Income

- (e) If the Notes are kept with or administered by a German credit or financial services institution (or by a German branch of a foreign credit or financial services institution), or by a German securities trading firm (*Wertpapierhandelsunternehmen*) or a German securities trading bank (*Wertpapierhandelsbank*) in a domestic securities deposit account (altogether the "**Domestic Paying Agent**") and that Domestic Paying Agent pays or credits the interest, a 25 per cent withholding tax, plus a 5.5 per cent solidarity surcharge thereon, resulting in a total withholding tax charge of 26.375 per cent, is levied on the interest payments. The withholding rate will be in excess of the aforementioned rate if church tax is collected for the individual investor.

Capital Gains from Disposal or Redemption of the Notes

- (f) Subject to the tax allowance for investment income described under the header Interest Income above capital gains from the disposal or redemption of the Notes held as private assets are taxed at the 25 per cent flat tax (plus a 5.5 per cent solidarity surcharge thereon and, if applicable to the individual investor, church tax). The capital gain is generally determined as the difference between the proceeds from the disposal or redemption of the Notes and the acquisition costs.
- (g) Expenses directly related to the disposal or redemption are taken into account in computing the capital gain. Otherwise, the deduction of related expenses for tax purposes is not possible.
- (h) Capital losses from the Notes held as private assets are generally tax-recognised irrespective of the holding period of the Notes. The losses may, however, not be used to offset other income like employment or business income but may only be offset against investment income. Losses not utilised in one year may be carried forward into subsequent years. Notwithstanding the above, losses resulting from the total or partial uncollectibility of the Notes, from the write-off of worthless Notes, from the transfer of worthless Notes to a third party or from any other comparable shortfall can only be offset with gains from other capital income (excluding gains from the sale of shares, gains from forward transactions and income from option writer transactions) up to the amount of 20,000 Euro p.a. Losses not offset can be carried forward to subsequent years and can be offset against gains from capital income (excluding gains from forward transactions and income from option writer transactions) in the amount of EUR 20,000 in each subsequent year.
- (i) The flat tax is generally collected by way of withholding (see succeeding paragraph – Withholding tax on Capital Gains) and the tax withheld shall generally satisfy the individual investor's tax liability with respect to the Notes. According to the view of the German fiscal authorities in cases where the loss recognition limitations outlined in the preceding subsection apply (loss recognition limited as a total amount of EUR 20,000 p. a.), it is required to submit an individual tax return in order to have such losses recognized. There will be no loss recognition at the level of the withholding tax. With respect to further situations where the filing of a tax return is possible or required investors are referred to the description under the header Interest Income above.
- (j) If the Notes are held as business assets (*Betriebsvermögen*) by an individual or corporate investor that is tax resident in Germany, capital gains from the Notes are subject to personal income tax at graduated rates or corporate income tax (plus solidarity surcharge thereon and for individuals eventually church tax) and trade tax. The trade tax liability depends on the applicable trade tax factor of the relevant municipality where the business is located. In case of an individual investor the trade tax may, however, be partially or fully creditable against the investor's personal income tax liability depending on the applicable trade tax factor and the investor's particular circumstances. The capital gains or losses will have to be

included in the investor's personal or corporate income tax return. Any German withholding tax (including surcharges) is generally fully creditable against the investor's personal or corporate income tax liability or refundable, as the case may be.

Withholding Tax on Capital Gains

- (k) No withholding is generally required on capital gains derived by German resident corporate Noteholders and upon application by individual Noteholders holding the Notes as business assets.
- (l) If withholding is required, the following applies: If the Notes are kept with or administered by a Domestic Paying Agent at the time of their disposal or redemption a 25 per cent withholding tax plus a 5.5 per cent solidarity surcharge thereon is levied on the capital gains resulting in a total withholding tax charge of 26.375 per cent. The applicable withholding rate is in excess of the aforementioned rate if church tax is collected for the individual investor. The capital gains are generally determined as the difference between the proceeds from the disposal or redemption of the Notes and the acquisition costs. If the Notes were sold or redeemed after being transferred from a securities deposit account with a foreign bank the 25 per cent withholding tax (plus solidarity surcharge thereon) will be levied on 30 per cent of the proceeds from the disposal or the redemption, as the case may be, unless the investor provides evidence for the investor's actual acquisition costs to the Domestic Paying Agent. Such evidence is only permissible if the foreign bank is resident within the EU, EEA or a contracting state of the Council Directive 2015/2060/EU of 10 November 2015 repealing Directive 2003/48/EC on taxation of savings income in the form of interest payments.

2.2 Non-German Resident Noteholders

- (a) Income derived from the Notes by holders who are not tax resident in Germany is in general not subject to German income taxation, and no withholding tax shall be withheld, provided however:
 - (i) the Notes are not held as business assets of a German permanent establishment of the investor or by a permanent German representative of the investor; and
 - (ii) the income derived from the Notes does not otherwise constitute German source income.
- (b) Pursuant to Section 10 of the German Defense Against Tax Haven Act (*Gesetz zur Abwehr von Steuervermeidung und unfairem Steuerwettbewerb – "GDATHA"*), which entered into force on 1 January 2022, income generated, *inter alia*, from financial relationships (*Finanzierungsbeziehungen*) is subject to a withholding tax if the creditor of such financial relationships is resident in a non-cooperative tax jurisdiction (*nicht kooperatives Steuerhoheitsgebiet*) included on the EU list of non-cooperative tax jurisdictions published in the Official Journal of the European Union, as amended from time to time. However, notes represented by a global certificate and held in collective safe custody with a disbursing agent as well as debt instruments comparable to such notes, are expressly excluded from the aforementioned German withholding tax.

Since there are currently neither official guidelines from the German Ministry of Finance and/or the German tax authorities nor court rulings on the interpretation of the term 'financial relationships' (*Finanzierungsbeziehungen*) available, it needs to be observed whether payments under notes or other financial instruments to holders resident in non-cooperative tax jurisdictions pursuant to the GDATHA are or might be subject to a German withholding tax deduction subject to further requirements developed by the German tax authorities and/or German case law.

- (c) If the income derived from the Notes is subject to German taxation as set forth in clause 2.2(b) above, the income is subject to withholding tax similar to that described above under the paragraphs entitled: "**withholding tax**", provided that if the interest income is taxable pursuant to the GDATHA as described above, the withholding tax rate will be 15%.

- (d) Under certain circumstances, foreign investors may benefit from tax reductions or tax exemptions under applicable double tax treaties (*Doppelbesteuerungsabkommen*) entered into with Germany.

2.3 Inheritance Tax/Gift Tax

- (a) The transfer of Notes to another person by way of gift or inheritance is subject to German gift or inheritance tax, respectively, if:
- (i) the testator, the donor, the heir, the beneficiary or any other acquirer had his residence, habitual abode or, in case of a corporation, association (*Personenvereinigung*) or estate (*Vermögensmasse*), had its seat or place of management in Germany at the time of the transfer of property; or
 - (ii) except as provided under (a), the testator's or donor's Notes belong to a business asset attributable to a permanent establishment or a permanent representative in Germany.

Special regulations apply to certain German expatriates.

- (b) Investors are urged to consult with their tax advisor to determine the particular inheritance or gift tax consequences in light of their circumstances.

2.4 Other Taxes

The purchase, sale or other disposal of Notes does not give rise to capital transfer tax, value added tax, stamp duties or similar taxes or charges in Germany. However, under certain circumstances entrepreneurs may choose liability to value added tax with regard to the sales of Notes which would otherwise be tax exempt. Net wealth tax (*Vermögenssteuer*) is, at present, not levied in Germany.

3. TAXATION OF THE ISSUER

- 3.1 The Issuer's profits derived from the transaction will be subject to German corporate income tax (*Körperschaftsteuer*) at a rate of 15 per cent plus a solidarity surcharge (*Solidaritätszuschlag*) of 5.5 per cent thereon and trade tax (*Gewerbesteuer*) at a rate of 16.1 per cent.
- 3.2 The Issuer will generally be entitled to deduct its expenses for tax purposes (for example fees). However, as regards financing costs constituting interest expenses or deemed interest expenses it cannot be excluded that the Issuer's ability to deduct such expenses is limited by way of the application of the recently revised so-called interest stripping rules (please see also section *RISK FACTORS – V. Taxation*).
- 3.3 The Issuer will effectively be exempt from the add-back of 25 per cent of the Issuer's interest expense for computing the trade tax liability of the Issuer pursuant to section 19 paragraph 3 no. 2 Trade Tax Application Directive (*Gewerbesteuerdurchführungsverordnung*). The exemption applies to business entities which are – directly or indirectly – exclusively:
- (a) acquiring credit receivables; or
 - (b) assuming credit risks related to credit receivables originated by banks in the sense of section 1 paragraph 1 no. 2 KWG and refinance the acquisition or the granting of a security in respect of the assumed credit risk by issuing notes.

As the Issuer is acquiring credit receivables and will issue the Notes to refinance the acquisition the Issuer takes the view that it can benefit from the exemption and deduct refinancing expenses entirely for trade tax purposes without the add-back.

4. LUXEMBOURG

The following overview is of a general nature and is included herein solely for information purposes. It is based on the laws presently in force in Luxembourg, though it is not intended to be, nor should it be construed to be, legal or tax advice. Prospective investors in the Notes should therefore consult

their own professional advisers as to the effects of state, local or foreign laws, including Luxembourg tax law, to which they may be subject.

4.1 Withholding tax

(a) Non-resident holders of Notes

Under general tax law currently in force, there is no withholding tax on payments of principal, premium or interest made to non-resident Noteholders, nor on accrued but unpaid interest in respect of the Notes, nor is any Luxembourg withholding tax payable upon redemption, repurchase or exchange of the Notes held by non-resident Noteholders.

(b) Resident Noteholder

- (i) Subject to the Luxembourg law of 23 December 2005, as amended (the "**Relibi Law**"), there is under general tax laws currently in force no withholding tax on payments of principal, premium or interest made to resident Noteholders, nor on accrued but unpaid interest in respect of Notes, nor is any Luxembourg withholding tax payable upon redemption, repurchase or exchange of Notes held by Luxembourg resident Noteholders.
- (ii) Under the Relibi Law, payments of interest or similar income made or ascribed by a paying agent established in Luxembourg to or for the benefit of an individual beneficial owner who is resident of Luxembourg will be subject to a withholding tax of 20 per cent.
- (iii) The withholding tax applied in accordance with the Relibi Law will be in full discharge of income tax if the beneficial owner is an individual acting in the course of the management of his/her private wealth. Responsibility for the withholding of the tax will be assumed by the Luxembourg paying agent. Payments of interest under the Notes coming within the scope of the Relibi Law, as amended, would be subject to withholding tax of 20 per cent.

4.2 Income Taxation

(a) Non-resident Noteholders

Non-resident Noteholders, not having a permanent establishment, a permanent representative, or a fixed place of business in Luxembourg to which the Notes or income thereon are attributable, are not subject to income taxes on income accrued or received, redemption premiums or issue discounts, under the Notes nor on capital gains realised on the sale, exchange or disposal of the Notes. Non-resident corporate or individual holders acting in the course of the management of a professional or business undertaking, who have a permanent establishment, a permanent representative, or a fixed place of business in Luxembourg to which or to whom such Notes are attributable, are subject to Luxembourg income tax on interest accrued or received, redemption premiums or issue discounts, under the Notes and on any gains realised upon the sale, exchange or disposal of the Notes.

(b) Resident Noteholders

Luxembourg resident Noteholders will not be liable for any Luxembourg income tax on repayment of principal under the Notes.

(i) resident individual Noteholders

Resident individual Noteholders, acting in the course of the management of his/her private wealth, are subject to Luxembourg income tax at progressive rates in respect of interest or similar income received, redemption premiums or issue discounts, under the Notes, except if (i) withholding tax has been levied on such payments in accordance with the Relibi Law, or (ii) the individual holder of the Notes has opted for the application of a 20 per cent. tax in full discharge of income tax in accordance with the Relibi Law, which applies if a payment of interest has been made or

ascribed by a paying agent established in a EU Member State (other than Luxembourg) or in a Member State of the European Economic Area (other than a EU Member State).

A gain realised by resident individual Noteholders, acting in the course of the management of his/her private wealth, upon the sale, exchange or disposal, in any form whatsoever, of Notes is not subject to Luxembourg income tax, provided this sale, exchange or disposal took place more than six (6) months after the Notes were acquired. However, any portion of such gain corresponding to accrued but unpaid interest income is subject to Luxembourg income tax, except if tax has been levied on such interest in accordance with the Relibi Law.

Resident Noteholders, acting in the course of the management of a professional or business undertaking must include interest or similar income received, redemption premiums or issue discounts, under the Notes, as well as any gain realised upon the sale, exchange or disposal, in any form whatsoever, of Notes, in their taxable basis, which will be subject to Luxembourg income tax at progressive rates. If applicable, the tax levied in accordance with the Relibi Law will be credited against his/her final tax liability.

(ii) resident corporate Noteholders

Resident corporate Noteholders must include any interest or similar income received, redemption premiums or issue discounts, under the Notes, as well as any gain realised upon the sale, exchange or disposal, in any form whatsoever, of the Notes, in their taxable income for Luxembourg income tax assessment purposes.

Noteholders that are governed by the law of 11 May 2007 on family estate management companies, as amended, or by the law of 17 December 2010 on undertakings for collective investment, as amended, or by the law of 13 February 2007 on specialized investment funds, as amended, or by the law of 23 July 2016 on reserved alternative investment funds not exclusively investing in risk capital are subject neither to income tax in respect of interest or similar income received, redemption premiums or issue discounts, under the Notes, nor any gain realised upon the sale, exchange or disposal, in any form whatsoever, of the Notes.

4.3 Net Wealth Tax

- (a) Resident corporate Noteholders as well as non-resident corporate Noteholders which maintain a permanent establishment, fixed place of business or a permanent representative in Luxembourg to which the Notes or income thereon are attributable, are subject to wealth tax on such Notes, except if the Noteholders are a family estate management company governed by and compliant with the law of 11 May 2007, as amended, or an undertaking for collective investment governed by and compliant with the law of 17 December 2010, as amended, or a securitization vehicle governed by and compliant with the law of 22 March 2004 on securitization, as amended, or a company governed by and compliant with the law of 15 June 2004 on venture capital vehicles, as amended, or a specialized investment fund governed by the law of 13 February 2007 on specialized investment funds, as amended, or a pension-saving company or a pension-saving association governed by and compliant with the law of 13 July 2005, as amended, or a reserved alternative investment fund governed by the law of 23 July 2016, as amended.
- (b) Non-resident corporate Noteholders, not having a permanent establishment, a permanent representative, or a fixed place of business in Luxembourg to which the Notes or income thereon are attributable, as well as individual Noteholders, whether he/she is resident of Luxembourg or not, are not subject to wealth tax.
- (c) The net wealth tax charge for a given year can be avoided or reduced if a specific reserve, equal to five times the net wealth tax to save, is created before the end of the subsequent tax year and maintained during the five following tax years. The net wealth tax reduction corresponds to one fifth of the reserve created, except that the maximum net wealth tax to

be saved is limited to the corporate income tax amount due for the same tax year, including the employment fund surcharge, but before imputation of available tax credits.

- (d) Corporate resident Noteholders will further be subject to (a) a minimum net wealth tax of EUR 4,815, if they hold assets such as fixed financial assets, receivables owed to affiliated companies, transferable securities, postal checking accounts, checks and cash, in a proportion that exceeds 90 per cent. of their total balance sheet value and if the total balance sheet value exceeds EUR 350,000, or (b) a minimum net wealth tax between EUR 535 and EUR 32,100 based on the total amount of its assets. Items (e.g., real estate properties or assets allocated to a permanent establishment) located in a treaty country, where the latter has the exclusive taxation right, are not considered for the calculation of the 90 per cent. threshold. Notwithstanding the above mentioned exceptions regarding net wealth tax, the minimum net wealth tax also applies if the resident corporate Noteholders is a securitization company governed by and compliant with the law of 22 March 2004 on securitization, as amended, or an investment company in risk capital governed by and compliant with the law of 15 June 2004 on venture capital vehicles, as amended, or a pension-saving company or a pension-saving association governed by and compliant with the law of 13 July 2005, as amended, or a reserved alternative investment fund investing exclusively in risk capital governed by and compliant with the law of 23 July 2016.

4.4 **Other Taxes and Duties**

Neither the issuance nor the transfer of Notes will give rise to any Luxembourg stamp duty, value-added tax, issuance tax, registration tax, transfer tax or similar taxes or duties, provided that the relevant issue or transfer agreement is not submitted to registration in Luxembourg which is not per se mandatory.

However, a registration duty may be due upon the registration of the Notes in Luxembourg on a voluntary basis.

Where a Noteholder is a resident of Luxembourg for tax purposes at the time of his/her death, the Notes are included in his/her taxable estate for inheritance tax assessment purposes.

Gift tax may be due on a gift or donation of Notes if embodied in a Luxembourg deed passed in front of a notary or recorded in Luxembourg.

4.5 **Residence**

A holder of the Notes will not become resident, or deemed to be resident, in Luxembourg by reason only of the holding of such Notes or the execution, performance, delivery and/or enforcement in respect thereof.

SUBSCRIPTION AND SALE

Subscription of the Notes

Pursuant to the Subscription Agreement the Joint Lead Managers have agreed, subject to certain conditions, to subscribe for the Notes. Conditions as referred to in the previous sentence are customary closing conditions as set out in the Subscription Agreement.

In accordance with Article 244 para 4 lit. f) CRR, the Originator has undertaken in the Subscription Agreement that it will only purchase (or repurchase) the Notes, or beyond its obligations set out in the Transaction Documents where such arrangements are executed in accordance with prevailing market conditions and the parties to them act in their own interest as free and independent parties (arm's length).

The issuance of the Notes is not designed to comply with the U.S. Risk Retention Rules other than the exemption under Section 20 of the U.S. Risk Retention Rules. "**U.S. Risk Retention Rules**" means Regulation RR (17 C.F.R Part 246) implementing the risk retention requirements of Section 15G of the U.S. Securities Exchange Act of 1934, as amended, adopted pursuant to the requirements of Section 941 of the Dodd-Frank Wall Street Reform and Consumer Protection Act.

The Notes sold on the Closing Date may not be purchased by any person except for persons that are not "U.S. persons" as defined in the U.S. Risk Retention Rules ("**Risk Retention U.S. Persons**"). Prospective investors should note that whilst the definition of "U.S. person" in the U.S. Risk Retention Rules is substantially similar to the definition of "U.S. person" in Regulation S, the definitions are not identical and persons who are not "U.S. persons" under Regulation S may be "U.S. persons" under the U.S. Risk Retention Rules.

Each purchaser of Notes, including beneficial interests therein will be deemed, and in certain circumstances will be required, to represent and agree that it (1) is not a Risk Retention U.S. Person (2) is acquiring such Note or a beneficial interest therein for its own account and not with a view to distribute such Note to an U.S. person; and (3) is not acquiring such Note or a beneficial interest therein as part of a scheme to evade the requirements of the U.S. Risk Retention Rules. Each prospective investor will be required to make these representations (a) on or about the time of the announcement of the securitisation transaction involving the issuance of the Notes and (b) if such representations have not been previously made, as a condition to placing any offer to purchase the Notes. The Issuer, Bank11 and the Joint Lead Managers will rely on these representations, without further investigation.

The Notes may not be sold to, or for the account or benefit of, U.S. persons except (i) pursuant to an exemption from, or in a transaction not subject to the registration requirements of, the Securities Act and (ii) in accordance with an exemption from the U.S. Risk Retention Rules.
