

Final Verification Report

In respect of the Transaction "Silver Arrow S.A., Compartment 14"
(Mercedes-Benz Bank AG)

7 April 2022

Authorization of SVI as third party

STS Verification International GmbH ("SVI") has been authorized by the German Federal Financial Supervisory Authority (Bundesanstalt für Finanzdienstleistungsaufsicht "BaFin", as the competent authority pursuant to Article 29 of the Securitisation Regulation and § 44 German Banking Act) to act in all EU countries as third party pursuant to Article 28 of the Securitisation Regulation to verify compliance with the STS Criteria pursuant to Articles 19 to 26e of the Securitisation Regulation ("STS Verification"). Moreover, SVI performs additional services including the verification of compliance of securitisations with (i) Article 243 of the Capital Requirements Regulation (Regulation (EU) 2017/2401 dated 12 December 2017, amending Regulation (EU) No 575/2013 on prudential requirements for credit institutions and investment firms as amended by Regulation (EU) 2021/558 of 31 March 2021) ("CRR Assessment"), (ii) Article 270 (senior positions in STS on-balance sheet securitisations) of the CRR ("Article 270 Assessment"), (iii) Article 13 of the Delegated Regulation (EU) 2018/1620 on liquidity coverage requirement for credit institutions dated 13 July 2018, amending Delegated Regulation (EU) 2015/61 to supplement Regulation (EU) No 575/2013 of the European Parliament and the Council with regard to liquidity coverage requirements for Credit Institutions ("LCR") ("LCR Assessment"), and (iv) the STS Criteria, in respect of existing securitisations and potential deficiencies regarding compliance with the STS Criteria ("Gap-Analysis").

Mandating of SVI and verification steps

On 5 January 2022, SVI has been mandated by the Originator (Mercedes-Benz Bank AG) to verify compliance with the STS criteria pursuant to Article 28 of the Securitisation Regulation for the securitisation transaction "Silver Arrow 14" (the "Transaction").

As part of our verification work, we have met with representatives of Mercedes Benz Bank to conduct a virtual due diligence meeting on 15 February 2022. In addition, we have discussed selected aspects of the Transaction with Mercedes-Benz Bank AG and legal counsel and obtained additional information on the transaction structure, the underwriting and servicing procedures of Mercedes-Benz Bank AG and the underlying transaction documentation.

For the purposes of our analysis, we have reviewed the following documents and other information related to the Transaction:

- Offering Circular
- German Legal Opinion
- Loan Receivables Purchase Agreement
- Servicing Agreement
- Swap Agreement
- Due Diligence Presentation by Mercedes-Benz Bank AG
- Agreed-upon Procedures Report
- Latest version of the liability cash flow model
- Data Package received by Mercedes-Benz Bank AG
- Additional information received by e-mail, such as confirmations, comments, etc.

Verification Methodology

The fulfilment of each verification point in this Final Verification Report provided to the Originator is evaluated based on the three fulfilment values (traffic light status):

Criterion is fully met	
Criterion is mostly met, but with comments or requests for missing information	
Criterion not (yet) met based on available information	

The verification process is based on the SVI verification manual ("Verification Manual"), defined terms of the Verification Manual shall also apply to this report. It describes the verification process and the individual inspections in detail. The Verification Manual is applicable to all parties involved in the verification process and its application ensures an objective and uniform verification of transactions to be verified. Based on the Verification Manual, SVI has derived the Transaction Verification Catalogue for this Transaction as described under Verification Method in this report. A full description of the methodology used by SVI for the Verification can be found in the Verification Manual on our website: www.svi-gmbh.com.

Disclaimer of SVI

SVI grants a registered verification label "verified – STS VERIFICATION INTERNATIONAL" if a securitisation complies with the requirements for simple, transparent and standardised securitisation as set out in Articles 19 to 26e of the Securitisation Regulation ("STS Requirements"). The aim of the Securitisation Regulation is to restart high-quality securitisation markets, and the intention of implementing a framework for simple, transparent and standardised transactions with corresponding STS criteria shall contribute to this. However, it should be noted that the STS verification performed by SVI does not affect the liability of an originator or special purpose vehicle in respect of their legal obligations under the Securitisation Regulation. Furthermore, the use of verification services from SVI shall not affect the obligations imposed

on institutional investors as set out in Article 5 of the Securitisation Regulation. Notwithstanding confirmation by SVI, which verifies compliance of a securitisation with the STS Requirements, such verification by SVI does not ensure the compliance of a securitisation with the general requirements of the Securitisation Regulation.

SVI has carried out no other investigations or surveys in respect of the issuer or the notes concerned other than as set out in this Final Verification Report and disclaims any responsibility for monitoring the issuer's continuing compliance with these standards or any other aspect of the issuer's activities or operations. Furthermore, SVI has not provided any form of advisory, audit or equivalent service to the Originator, Issuer or Sponsor.

SVI is not a legal advisor and nothing in the Final Verification Report shall be regarded as legal advice in any jurisdiction.

Accordingly, the Final Verification Report is only an expression of opinion by SVI after application of its verification methodology and not a statement of fact. It is not a guarantee or warranty that ECB, any of the ESAs or national competent authorities, courts, investors or any other person will accept the STS status of the relevant securitisation. Therefore, no person should rely on the Final Verification Report in determining the STS status but must perform its own analysis and reach its own conclusions.

SVI assumes due performance of the contractual obligation thereunder by each of the parties and the representations made and warranties given in each case by any persons or parties to SVI or in any of the documents are true, not misleading and complete. SVI shall have no liability for any loss of any kind suffered by any person as a result of a securitisation where the Final Verification Report indicated that it met, in whole or in part, the STS Requirements, certain CRR or SRT requirements being held for any reason as not so meeting the relevant requirements or not being able to have lower capital allocated against it save in the case of deliberate fraud by SVI. SVI shall also not have any liability for any action taken or action from which any person has refrained from taking as a result of the Final Verification Report.

#	Criterion Article 20 (1)	Verification Report
1	Assignment or transfer of ownership of the risk positions takes place by means of a true sale and is legally enforceable.	<p><u>Verification Method:</u> Legal (Legal opinion, Prospectus) / Due Diligence</p> <p>The Transaction provides for a sale and assignment of fixed rate auto loan receivables at Closing Date (scheduled for 7 April 2022) from Mercedes-Benz Bank AG ("Originator" and "Servicer") to Silver Arrow S.A., acting in respect of its Compartment 14 ("Issuer"). The Loan Receivables are subject to certain Eligibility Criteria, inter alia, subject to German law, denominated in Euro and with obligors resident in Germany. The Originator is appointed as the Servicer of the Transaction in accordance with the Servicing Agreement.</p> <p>The Legal Opinion confirms the transfer of title to the underlying exposure to the SPV through a true sale both with respect to the security assignment and security transfer of the Assigned Assets and the transfer of the Loan Receivables and Loan Collateral (which includes by definition the security interest (<i>Sicherungseigentum</i>) in the Financed Vehicles). Furthermore, the LO confirms the legal enforceability of the true sale, assignment or transfer against the seller and third parties with respect to the valid, legally binding and enforceable rights and obligations of the parties to the German Law Documents, with respect to the effective and binding nature of the transfer of Loan Receivables and Loan Collateral and with respect to the legal, valid and binding nature of the security assignment and transfer of the Assigned Assets as well as of the pledges under the Trust Agreement (all subject to customary qualifications).</p> <p>The Legal Opinion confirms that there are no increased risks with regard to claw-back and re-characterisation.</p> <p>The LRPA contains in Section 8.1 in connection with Schedule 3 "Seller's Representations and Warranties" of the ITM representations and warranties by the Seller as of the Purchase Date concerning the legally valid, binding and enforceable nature of the obligors' obligations under the Loan Receivables, their assignability and their compliance of the Purchased Loan Receivables (referencing "Loan Agreement" which includes by definition the general terms and conditions) with applicable consumer financing laws.</p>

#	Criterion Article 20 (1)	Verification Report
2	Requirements for the external legal opinion	<p><u>Verification Method:</u> Legal (Legal opinion) / Due Diligence</p> <p>The Legal Opinion is provided by Hogan Lovells International LLP, a well-known law firm with expertise in the area of securitisation.</p> <p>The LO is made available to SVI as third-party verification agent and to competent supervisory authorities.</p>

#	Criterion Article 20 (2)	Verification Report
3	Specification of increased claw-back risks : Are there any provisions in the respective national insolvency law, which could render the transfer voidable?	<p><u>Verification Method</u>: Legal (Legal opinion)</p> <p>Other than as provided under German insolvency laws in case of fraudulent, unfair prejudicial or improperly favourable transfers there are no such increased risks. Such provisions are considered non-severe claw-back provisions under Art. 20 (3) of the Securitisation Regulation.</p> <p>Under applicable German insolvency law in respect of a transfer within certain time periods prior to and after the filing of insolvency proceedings the SPV must demonstrate that it had no knowledge of the seller's insolvency.</p> <p>To mitigate against this, Section 8.1 of the LRPA in connection with Schedule 3 Part 1 No. 3 of the ITM provides for the representation and warranty of the Seller as of the Purchase Date that it is not Insolvent. This may be used by the SPV to demonstrate its non-knowledge of the Seller's insolvency.</p>
#	Criterion Article 20 (3)	Verification Report
4	Specification of non-increased claw-back risks: National insolvency laws are not severe, if they allow for the invalidation of the sale of the underlying exposures in the event of fraudulent transfers, unfair prejudice to creditors or favouring particular creditors over others.	<p><u>Verification Method</u>: Legal (Legal opinion)</p> <p>Applicable German insolvency laws are considered not to represent any severe claw-back risks (see above under #3).</p>
#	Criterion Article 20 (4)	Verification Report
5	If the sale and transfer is not taking place directly between the seller and the SPV but intermediate sales take place, is the true sale still fulfilled?	<p><u>Verification Method</u>: Legal (Legal opinion, Receivable purchase agreement)</p> <p>Under the transaction structure used by Silver Arrow 14, the sale and transfer take place directly between the Seller (who is the original lender) and the SPV acting as Issuer, i.e. without any intermediate sale taking place.</p>

#	Criterion Article 20 (5)	Verification Report
6	If the transfer of receivables and the perfection take place at a later stage , are the trigger events in relation to the seller's credit quality standing sufficiently defined?	<p><u>Verification Method:</u> Legal (Legal opinion, Receivable purchase agreement)</p> <p>The transfer of the underlying exposures will occur on the Closing Date of the Transaction (scheduled for 7 April 2022), i.e. there will be no transfer of receivables at a later stage.</p>
#	Criterion Article 20 (6)	Verification Report
7	Representations and warranties of the seller regarding to the legal condition of the underlying exposures	<p><u>Verification Method:</u> Legal (Receivable purchase agreement)</p> <p>The Seller (who is the original lender) warrants that the underlying Purchased Loan Receivables are legally valid, binding and enforceable Loan Agreements and that, to the best of its knowledge, the Purchased Loan Receivables are not encumbered or otherwise in a condition that can be foreseen to adversely affect the enforceability of the true sale or assignment or transfer with the same legal effect, see Section "DESCRIPTION OF THE PORTFOLIO AND OF THE LOAN COLLATERAL", Subsection "ELIGIBILITY CRITERIA", Items (g) and (l) as well as Subsection "SELLER LOAN WARRANTIES", Item (a) of the Offering Circular and above under #3.</p>
#	Criterion Article 20 (7)	Verification Report
8	Predetermined, clear and documented selection criteria (' eligibility criteria ') (I/II)	<p><u>Verification Method:</u> Legal (Receivable purchase agreement)</p> <p>The transfer of the underlying exposures from the Seller to the SPV are selected according to predetermined, clear and documented eligibility criteria, see Section "DESCRIPTION OF THE PORTFOLIO AND OF THE LOAN COLLATERAL", Subsection "ELIGIBILITY CRITERIA" in the Offering Circular.</p> <p>The Transaction is amortising and does not feature a revolving period and / or a term take-out.</p> <p>There are no exposures that will be transferred to the SPV after closing of the Transaction.</p> <p>As a result of the above, the criterion "no active portfolio management" is fulfilled.</p>

#	Criterion Article 20 (7)	Verification Report
9	Predetermined, clear and documented selection criteria ('eligibility criteria') (II / II)	<p><u>Verification Method:</u> Data (AuP Report)</p> <p>The asset audit, whereby the audit company performs certain Agreed-upon Procedures with respect to the compliance of the underlying exposures in a randomly selected sample, covers the key eligibility criteria specified for the Transaction. Please also refer to #40 for a summary of the scope of the asset audit.</p>

#	Criterion Article 20 (7)	Verification Report
10	No active portfolio management	<p><u>Verification Method:</u> Legal (Transaction documents)</p> <p>The underlying exposures in the provisional and the final pool are selected based on a well-established, random selection process.</p> <p>In case a Loan Receivable did not fulfil the Eligibility Criteria on the Cut-Off Date or the Seller has breached the Seller Loan Warranties as of the Purchase Date, the Seller will be obliged to repurchase such Loan Receivable at the relevant Repurchase Price on the next Payment Date. In this respect, the relevant Repurchase Price payable by the Seller to the Issuer has to be equal to the sum of the Outstanding Loan Principal Amount(s) of the affected Purchased Loan Receivable(s), see Section "DESCRIPTION OF THE PORTFOLIO AND OF THE LOAN COLLATERAL", Subsection "ELIGIBILITY CRITERIA" as well as Section "OVERVIEW OF THE OTHER PRINCIPAL TRANSACTION 14 DOCUMENTS", Subsection "Loan Receivables Purchase Agreement", Paragraph "Repurchase Price" of the Offering Circular. There will, however, be no substitution of the ineligible receivable with a new receivable.</p> <p>In addition, the Transaction features a Clean-Up Call option. The Seller may at its option repurchase all outstanding Purchased Loan Receivables (as well as all Loan Collateral relating thereto) on any Payment Date as soon as the Aggregate Outstanding Loan Principal Amount as per preceding Determination Date is less than 10% of the Aggregate Outstanding Loan Principal Amount at the Cut-Off Date, see Section "TERMS AND CONDITIONS OF THE COMPARTMENT 14 NOTES", Subsection "Redemption", Paragraph "Clean-Up Call" of the Offering Circular.</p> <p>The above-described instances that allow for a repurchase of underlying exposures fall under the individual techniques of portfolio management listed in the EBA Guidelines that should not be considered active portfolio management (e.g. breach of representations or warranties and the exercise of clean-up call options).</p> <p>Generally, the above described repurchase mechanism used in the Transaction (a) does not make the performance of the Transaction dependent both on the performance of the underlying exposures and on the performance of the portfolio management, and (b) is not performed for speculative purposes aiming to achieve better performance, increased yield, overall financial returns or other purely financial or economic benefit.</p> <p>As a result of the above, the criterion "no active portfolio management" is fulfilled.</p>

#	Criterion Article 20 (8)	Verification Report
11	Securitisation of a homogeneous portfolio in terms of asset classes (I / III)	<u>Verification Method</u> : Legal (Transaction documents)
		The underlying exposures fall into the asset type according to Art. 1 (a) (v) of the Commission Delegated Regulation (EU) 2019/1851 on the homogeneity (i.e. auto loans and leases).
		The Seller has chosen the homogeneity factor according to Art. 2 (4.) (b) of the Commission Delegated Regulation (EU) 2019/1851 on the homogeneity of the underlying exposures, i.e. jurisdiction, whereby the pool shall consist of underlying exposures relating to Obligors with residence in one jurisdiction (Germany) only, see Section "DESCRIPTION OF THE PORTFOLIO AND OF THE LOAN COLLATERAL", Subsection "ELIGIBILITY CRITERIA", Item (f) of the Offering Circular.
#	Criterion Article 20 (8)	Verification Report
12	Securitisation of a homogeneous portfolio in terms of asset classes (II / III)	<u>Verification Method</u> : Due Diligence (Underwriting and Servicing Policy)
		The underlying exposures have been originated in accordance with consistent underwriting standards, as presented in the Due Diligence and further described in #17. No distinction is made between securitised and non-securitised receivables. The processes assure that only Obligors resident in Germany are originated according to the underwriting policy.
		The same applies to the servicing policy, with the underlying exposures being serviced using consistent standards and no distinction being made between securitised and non-securitised receivables.
#	Criterion Article 20 (8)	Verification Report
13	Securitisation of a homogeneous portfolio in terms of asset classes (III / III)	<u>Verification Method</u> : Data (AuP Report)
		The homogeneity factor "residence in Germany" is, through the check of the data field "Geographical Location of the Obligor" with the first digit of the postcode, part of the Eligibility Criteria Verification as further described in #40. The loan contracts have been entered into exclusively with Obligors resident in Germany, see Section "DESCRIPTION OF THE PORTFOLIO AND OF THE LOAN COLLATERAL", Subsection "ELIGIBILITY CRITERIA", Item (f) of the Offering Circular.

#	Criterion Article 20 (8)	Verification Report
14	The underlying exposures contain obligations that are contractually binding and enforceable	<p><u>Verification Method</u>: Legal (Legal opinion) / Due Diligence</p> <p>Section "DESCRIPTION OF THE PORTFOLIO AND OF THE LOAN COLLATERAL", Subsection "ELIGIBILITY CRITERIA" Items (g) and (l) as well as Subsection "SELLER LOAN WARRANTIES", Item (a) of the Offering Circular contains warranties by the Seller as to the legally valid, binding and enforceable nature of the underlying exposures, i.e. the Loan Agreements under which the relevant Loan Receivables arise. Please also refer to #1.</p>

#	Criterion Article 20 (8)	Verification Report
15	The underlying exposures have defined periodic payment streams and do not include transferable securities other than unlisted corporate bonds	<p><u>Verification Method</u>: Legal (Legal opinion, Transaction documents) / Due Diligence / Data (AuP Report)</p> <p>The underlying exposures for the transaction represent standard auto loan agreements originated by Mercedes-Benz Bank AG in respect of private and commercial borrowers. For the purposes of the transaction, three contract types form part of the securitised portfolio:</p> <ol style="list-style-type: none"> 1. Loan type "Standard Financing" with linear (i.e. fully amortising with equal instalments) form of financing, and 2. loan type "Balloon Financing (Final Instalment)" with equal instalments and a balloon payment at the end of term, as well as 3. loan type "Option Financing (Plus 3)" with equal instalments, a balloon payment at the end of term and an additional put option with respect to the vehicle. <p>Apart from these variations, the three loan types do not differ structurally in terms of payment streams (with the exception of the final instalment), as discussed and verified in the Due Diligence.</p> <p>As presented during the Due Diligence, the underlying exposures have defined periodic payment streams relating to principal, interest and insurance-related payments, or to any other right to receive income from assets supporting such payments. The Loan Receivables derive from Loan Agreements which provide for regular monthly instalments resulting in full amortisation and/or regular monthly instalments plus one higher Balloon Instalment at the end of the contract term. The amortisation occurs on a monthly basis and results in monthly instalment payments consisting of principal and interest. Please also refer to Section "DESCRIPTION OF THE PORTFOLIO AND OF THE LOAN COLLATERAL" in the Offering Circular.</p> <p>The Eligibility Criteria restrict the underlying exposures to Loan Receivables originated under a loan contract, thereby eliminating any transferable security from the portfolio. The compliance of the provisional pool with the Eligibility Criteria has been verified through the Eligibility Criteria Verification (see #40).</p>

#	Criterion Article 20 (9)	Verification Report
16	Are there any securitisation positions in the portfolio?	<p><u>Verification Method</u>: Legal (Transaction documents) / Due Diligence / Data (AuP Report)</p> <p>The Eligibility Criteria restrict the underlying exposures to Loan Receivables originated under a loan contract, thereby assuring that no securitisation position may become part of the portfolio. The compliance of the provisional pool with the eligibility criteria has been verified through the Eligibility Criteria Verification (see # 40).</p> <p>As demonstrated during the Due Diligence, the origination and/or resale of securitisation positions is not part of the business model of the Originator and not permitted under the Originators' underwriting policy.</p>
#	Criterion Article 20 (10)	Verification Report
17	Origination of underlying exposures in the ordinary course of business of the originator or the original lender	<p><u>Verification Method</u>: Legal (Transaction documents) / Due Diligence (Underwriting and Servicing Policy)</p> <p>Mercedes-Benz Bank AG is one of the leading automotive banks in Germany, active in Germany since 1967. Organisation and business processes have been developed over decades. Mercedes-Benz Bank AG is subject to the supervision of the German Federal Financial Supervisory Authority (<i>Bundesanstalt für Finanzdienstleistungsaufsicht</i>) and the European Central Bank in accordance with the German Banking Act (<i>Kreditwesengesetz</i>) (please also refer to the website of Mercedes-Benz Bank AG: https://www.mercedes-benz-bank.de/content/mbbank/de/services/kontakt/direktkontakt.html).</p> <p>As presented and discussed in the Due Diligence, the well-developed and highly professional organisation of Mercedes-Benz Bank AG's business procedures is in line with the volume and quantity of business transactions. Sales partners for automotive financial services are the MB Group AG automobile dealerships.</p> <p>Accordingly, the business procedures assure that securitised exposures have been originated in the ordinary course of business and in accordance with uniform standards, see in this regard Section "DESCRIPTION OF THE PORTFOLIO AND OF THE LOAN COLLATERAL", Subsection "ELIGIBILITY CRITERIA", Item (a) of the Offering Circular. Deviations from the underwriting policy are only permissible in well-defined and documented instances. The underlying exposures are selected for securitisation using a random selection process.</p> <p>The underlying exposures are similar to the non-securitised loan contracts in the asset type "auto loans and leases" (see definition of "similar exposures" in the EBA Guidelines) due to the strictly random selection process.</p> <p>Since no exposures will be transferred to the Issuer after the Closing Date (static portfolio), no obligation to disclose material changes to the underwriting policy after the closing of the Transaction applies.</p>

#	Criterion Article 20 (10)	Verification Report
18	Underwriting standards for securitised exposures are no less stringent than those applied to non-securitised exposures	<p><u>Verification Method:</u> Due Diligence</p> <p>As presented and discussed in the Due Diligence, no distinction is made between securitised and non-securitised exposures in any respect, be it applicable regulatory standards, competence grid and involvement of decision-makers, distribution channels, product types and product characteristics, annual agreements on (sales) objectives, sales management measures and bonus systems, lending standards, approval processes and incentive measures, credit processing, dunning procedures, debt collection, realisation of collateral, customer service, outsourcing of sales, underwriting and servicing activities or areas of risk controlling, accounting and reporting (except for the required reporting of ABS transactions)..</p> <p>Employees of the Originator or sales staff of MB Group AG automobile dealerships involved in the underwriting do not know whether a risk position currently being processed for application will be securitised at a later stage or not.</p>

#	Criterion Article 20 (10)	Verification Report
19	Where the underlying exposures are residential mortgage loans , does the portfolio include loans that have been self-certified by the loan applicants?	<p><u>Verification Method:</u> Due Diligence</p> <p>The Eligibility Criteria restrict the underlying exposures to Loan Receivables under auto Loan Agreements – therefore, residential mortgage loans do not form part of the portfolio, see in this regard Section “DESCRIPTION OF THE PORTFOLIO AND OF THE LOAN COLLATERAL”, Subsection “ELIGIBILITY CRITERIA”, Item (c) of the Offering Circular.</p>

#	Criterion Article 20 (10)	Verification Report
20	Assessment of the borrower’s creditworthiness performed in accordance with certain EU Directives on credit agreements for consumers or on credit agreements for consumers relating to residential immovable property or, if applicable, the analogous provisions of a third country	<p><u>Verification Method:</u> Regulatory / Legal / Due Diligence / Data</p> <p>Mercedes-Benz Bank AG is a financial institution (“Kreditinstitut”) according to §1 German Banking Act. As such, the Originator is supervised by BaFin as competent national supervisory authority and by the European Central Bank. Mercedes-Benz Bank AG performs the “Assessment of the borrower’s creditworthiness” with respect to loan agreements with consumers in accordance with Article 8 of Directive 2008/48/EC.</p>

#	Criterion Article 20 (10)	Verification Report
21	Originator's experience (as an entity or through management and senior staff) in origination of similar risk positions	<p><u>Verification Method:</u> Regulatory (suitable proof incl. Website) / Due Diligence</p> <p>As an institution, the Originator does have at least 5 years of experience in origination and underwriting of exposures similar to those securitised, see Section "THE SELLER, THE SERVICER AND THE SUBORDINATED LENDER", Subsection "Description of the Seller" of the Offering Circular.</p>

#	Criterion Article 20 (11)	Verification Report
22	The underlying exposures are transferred without undue delay after selection	<p><u>Verification Method:</u> Legal (Transaction documents)</p> <p>The dates of the provisional and final pool cuts are 31 January 2022 and 28 February 2022, respectively. Transfer of the final pool will occur at closing (scheduled for 7 April 2022), i.e. without undue delay.</p>

#	Criterion Article 20 (11)	Verification Report
23	The underlying exposures do not include any defaulted exposures or to debtors/guarantors with impaired creditworthiness	<p><u>Verification Method:</u> Regulatory / Legal (Transaction documents) / Due Diligence / Data (AuP Report)</p> <p>The Originator is an institution subject to Regulation (EU) 575/2013. As presented in the Due Diligence and confirmed in the Offering Circular, the Loan Receivables are transferred to the Issuer after selection without undue delay and do not include, at the time of selection and to the best of the Originator's knowledge, exposures in default within the meaning of Article 178 (1) of Regulation (EU) No 575/2013 or exposures to a credit-impaired debtor or guarantor (please refer to Section "DESCRIPTION OF THE PORTFOLIO AND OF THE LOAN COLLATERAL", Subsection "ELIGIBILITY CRITERIA", Items (b), (i) and (s) of the Offering Circular).</p> <p>Furthermore, to the Seller's best knowledge, the underlying exposures will not include Loan Receivables relating to a credit-impaired Obligor or guarantor who (1) has been declared insolvent or had a court grant his creditors a final non-appealable right of enforcement or material damages as a result of a missed payment within 3 years prior to the date of origination or has undergone a debt-restructuring process with regard to his non-performing exposures within 3 years prior to the transfer date of the underlying exposures to the Issuer; (2) was, at the time of origination, on a public credit registry of persons with adverse credit history; or (3) has a credit assessment or a credit score indicating that the risk of contractually agreed payments not being made is significantly higher than for comparable receivables held by the Originator which are not securitised (see Section "DESCRIPTION OF THE PORTFOLIO AND OF THE LOAN COLLATERAL", Subsection "ELIGIBILITY CRITERIA", Item (s) of the Offering Circular).</p> <p>The Originator represents, with regards to the question which sources of information it has used to identify defaulted exposures and to determine if an Obligor or guarantor is credit-impaired, that it has obtained information (1) from the Obligor on origination</p>

	<p>of the exposures, (2) in the course of Mercedes-Benz Bank AG’s servicing of the exposures or Mercedes-Benz Bank AG’s risk management procedures, or (3) from a third party, see Section “DESCRIPTION OF THE PORTFOLIO AND OF THE LOAN COLLATERAL”, Subsection “ELIGIBILITY CRITERIA”, Item (s) as well as Section “CREDIT AND COLLECTION POLICY” of the Offering Circular. This is in line with the ‘best knowledge’ standard stipulated in the EBA Guidelines.</p> <p>The Eligibility Criteria restrict the underlying exposures to Loan Receivables, which was neither an exposure in default nor an exposure to a credit-impaired Obligor, thereby assuring that no underlying exposures with a credit-impaired Obligor may become part of the portfolio, see Section “DESCRIPTION OF THE PORTFOLIO AND OF THE LOAN COLLATERAL”, Subsection “ELIGIBILITY CRITERIA”, Item (s) of the Offering Circular. The compliance of the provisional pool with the Eligibility Criteria has been verified through the Eligibility Criteria Verification (see # 40).</p> <p>The Originator has IT systems in place to ensure that defaulted exposures or exposures to debtors/guarantors with impaired creditworthiness are excluded from the provisional or final pool cut.</p>

#	Criterion Article 20 (11)	Verification Report
24	The risk positions do not have a credit assessment or a credit score that allows a significantly higher default risk to be expected than for non-securitised risk positions	<p><u>Verification Method:</u> Due Diligence</p> <p>The most relevant factors determining the expected performance of the underlying exposures in the securitised portfolio are the profiles of the retail customers (a distinction is made between private and commercial retail customers), credit agencies’ information and financial information as well as past payment behaviour. All of these factors have an impact on the credit score.</p> <p>These factors are the same for securitised and non-securitised exposures due to the strictly random selection process.</p> <p>On this basis, it can be reasonably assumed that – in comparison to non-securitised exposures – no worse performance should occur for securitised exposures for the term of the Transaction.</p> <p>The requirement that the underlying exposures do not have a “credit assessment or a credit score indicating that the risk of contractually agreed payments not being made is significantly higher than for comparable receivables held by the Originator which are not securitised” is considered to be met as the underlying exposures do not include (i) exposures that are classified as doubtful, impaired, non-performing or similar, or (ii) exposures whose credit quality (based on credit ratings or other credit quality thresholds) significantly differs from the quality of other exposures ordinarily originated by the Originator.</p>

25	At the time of the transfer, the debtor has paid at least 1 instalment	<p><u>Verification Method:</u> Legal (Transaction documents) / Data (AuP Report)</p> <p>The Originator warrants that on the initial cut-off date at least one payment has been made in respect of each Loan Receivable, see Section "DESCRIPTION OF THE PORTFOLIO AND OF THE LOAN COLLATERAL", Subsection "ELIGIBILITY CRITERIA", Item (e) of the Offering Circular.</p>
#	Criterion Article 20 (13)	Verification Report
26	The repayment of the securitisation position should not be predominantly dependent on the sale of assets securing the underlying exposures	<p><u>Verification Method:</u> Legal (Transaction documents) / Due Diligence / Data</p> <p>As presented and discussed in the Due Diligence, the Transaction has been structured to not be predominantly dependent on the sale of the cars or other assets securing the Purchased Loan Receivables. The repayment is entirely linked to the repayment of the Performing Loan Receivables; the repayment of the Performing Loan Receivables in turn is not contingent and does not depend on the sale of the vehicles which serve as collateral for the Purchased Loan Receivables. As demonstrated during the Due Diligence, the Originator's underwriting focuses on the creditworthiness of its obligors rather than on the recoveries derived from the sale of the cars or other assets securing the Purchased Receivables in the case of default.</p>

#	Criterion Article 21 (1)	Verification Report
27	Risk retention (Art. 6.1 of the Securitisation Regulation), usually by the Originator	<u>Verification Method</u> : Legal (Transaction documents) / Due Diligence
		Mercedes-Benz Bank AG as Originator will act as holder of the risk retention (Retention Holder) and retain on an ongoing basis a material net economic interest of not less than 5 per cent. of the securitised exposures, see Section "COMPLIANCE WITH THE SECURITISATION REGULATION", Subsection "Compliance with the Retention Requirement" of the Offering Circular.
		In accordance with Article 6(3)(d) of Securitisation Regulation and specified in more detail in Article 8 of the RTS on Risk Retention, Mercedes-Benz Bank AG (as Retention Holder) will retain a material net economic interest of not less than 5% in relation to the Transaction. As of the Issue Date, such interest will be retained through the holding of the Class B Compartment 14 Notes and the Subordinated Loan on an ongoing basis for the life of the Transaction. Please refer to Section "COMPLIANCE WITH THE SECURITISATION REGULATION", Subsection "Compliance with the Retention Requirement" of the Offering Circular.
		The Monthly Reports will also set out monthly confirmation regarding the continued holding of the risk retention by the Seller, as confirmed by the Seller (see Section "RISK FACTORS", Subsection "Risk Retention and Due Diligence Requirements" of the Offering Circular).
		The legal obligation of the seller to hold the risk retention during the lifetime of the transaction is entered into according to Section "COMPLIANCE WITH THE SECURITISATION REGULATION", Subsection "Compliance with the Retention Requirement" of the Offering Circular.
#	Criterion Article 21 (2)	Verification Report
28	Appropriate hedging of interest rate and currency risks, no derivatives as underlying risk positions (I / II)	<u>Verification Method</u> : Due Diligence
		Since the Loan Receivables are fixed rate and the Class A Compartment 14 Notes are floating rate, interest rate risks arise from such mismatch. Both assets and liabilities of the Issuer are EUR denominated hence no currency risk occurs.
		The Loan Receivables bear interest at fixed rates while the Class A Compartment 14 Notes will bear interest at floating rates based on 1-M-EURIBOR. Interest rate risks for the Class A Compartment 14 Notes are hedged appropriately with a fixed-floating interest rate swap where the total notional amount of the swap is always equal to the Aggregate Outstanding Note Principal Amount of the Class A Compartment 14 Notes. The floating leg of the swap agreement contains no floor for the 1-M-EURIBOR while the Interest Rates of the Class A Compartment 14 Notes is floored at zero. Any potential remaining mismatches arising from this are taken into account by the rating agencies and are mitigated in particular by the General Reserve and Class B as part of the credit enhancement.
		No further risks in addition to interest rate risks are hedged under the interest rate hedge agreement.

35	Experience of the Servicer (management and senior staff) in the servicing of exposures of a similar nature to those securitised	<u>Verification Method:</u> Regulatory (suitable proof) / Legal (Transaction documents) / Due Diligence
		Mercedes-Benz Bank AG is a financial institution (<i>Kreditinstitut</i>) according to §1 German Banking Act. As such, the Originator is supervised by BaFin as competent national supervisory authority and by the European Central Bank.
		The Offering Circular contains information on the experience of Mercedes-Benz Bank AG as a seller and servicer, see Section "THE SELLER, THE SERVICER AND THE SUBORDINATED LENDER", Subsection "Description of the Seller".
		The experience and expertise of the management and the senior staff has been confirmed during the Due Diligence.
		As a result, Mercedes-Benz Bank AG as servicer is deemed to have the relevant expertise as an entity being active as servicer of loan receivables for over 50 years and as servicer of loan receivables securitisations for more than five years, and no contrary findings were observed in the Due Diligence.
