

Job Profile

Associate Director / Director (m/f/d)

- Company: STS Verification International GmbH
- Location: Frankfurt am Main/Germany or another suitable German or European location
- Start Date: as soon as possible

Who we are

STS Verification International GmbH („SVI“, www.svi-gmbh.com) is a specialised service provider in the area of structured finance, providing third-party verification of securitisation transactions across Europe. SVI is a 100% subsidiary of True Sale International GmbH („TSI“, www.true-sale-international.de) established in 2004 and owned by some of the leading German and international banks from the private, public and cooperative sectors.

SVI is a third party verifier pursuant to Article 28 of the European Securitisation Regulation approved and supervised by the German Federal Financial Supervisory Authority (BaFin) as a Competent Authority. As such, its purpose is to verify compliance of securitisation transactions with the STS (‘simple, transparent, standardised’) criteria according to Articles 18 to 26e of the Securitisation Regulation. In practice this results in a very interesting combination of regulatory, legal and data analysis and commercial work performed with the securitising bank, leasing and corporate institutions.

As a company, SVI combines the flexibility and agility of a small enterprise with a shareholder background rooted deeply in the German and international bank markets and a wide-reaching network of clients (originators, financing banks, ABCP sponsor banks) as well as other market participants (regulators, arrangers, investors, law firms, rating agencies, audit firms etc.) across Europe. Based on this, SVI has, since the beginning of its operations in early 2019, built a track record of more than 180 verified transactions across Europe in ABCP, non-ABCP and synthetic balance sheet securitisations in the various asset classes.

Responsibilities

- Preparation of STS verification reports and related regulatory, legal, data and due diligence analysis for non-ABCP, ABCP and synthetic securitisations
- Ongoing interaction with SVI’s clients and other market participants
- Liaise and work with SVI’s outsourcing partners (TSI and other external professionals and companies)
- Participation in due diligence meetings with originators and arranging banks
- Origination of new verification mandates and marketing of SVI’s activities in selected markets
- Preparation of information in relation to the securitisation market and STS segment

What we expect

- Qualified professional with at least 3 years (for Associate Director level) or at least 10 years (for Director level) of relevant work experience in the securitisation market, e.g. in the audit, banking, insurance or investment industry, a lawfirm or a regulatory body
- Established network with securitisation market participants in one or more European countries
- Experience in synthetic securitisation would be a bonus
- Academic degree (Bachelor or Master)
- Self-motivated and proactive team worker with attention to detail and a strong desire to learn
- Excellent analytical, interpersonal and project management skills to manage multiple projects
- Excellent verbal and written communication skills
- Fluent in English and an additional European language (e.g. Italian, Spanish, German, French, Dutch) is a must, fluency in German is helpful but not mandatory

What we offer

- Career opportunity in an international, dynamic and client-oriented environment
- Opportunity to benefit from the industry and market experience of SVI's and its parent company's senior staff
- Entrepreneurial culture with significant development opportunities
- Competitive salary and additional benefits (BahnCard100, bike leasing)
- Excellent working atmosphere in a small and diverse team
- Flexible working environment (office and/or working from home)
- Full or part-time (e.g. 80%) employment possible

Please apply via E-Mail by providing your application letter, CV and relevant certificates (max. 5 MB).
